475.13 Registration and renewal thereof required; fee.—Every person deemed and held to be a real estate broker or real estate salesman under the terms of this chapter shall be required to register with the commission, and to secure a registration certificate for each license period. The fee for each application shall be twenty-five dollars for registration as a real estate broker and fifteen dollars for registration as a real estate salesman. The fee for certificates of registration shall be ten dollars per annum for brokers and five dollars per annum for salesmen. For registration and renewal certificates as nonactive broker, the fee shall be one dollar per annum. The commission may adopt rules and regulations to effect staggered license periods, but in no event shall the license period exceed twenty-four calendar months. If certificates for license periods of more than twelve months be issued pursuant to said rules, the fee for such certificates shall be increased in direct proportion to the base per annum fee for such certificates. No collector or county judge shall issue any real estate occupational license except upon presentation of a currently valid active registration certificate. No application fee shall be refunded to an applicant, nor shall any fee for a certificate be refunded.

475.14 Nonactive brokers.—Any member of a partnership or officer or director of a corporation who does not desire to do, or perform, any of the acts or services enumerated in §475.01(2), and any registered broker who is a resident of Florida who desires to preserve his registration during a period while not engaged as a broker, may apply for and receive a certificate as a nonactive broker so long as he shall continue to be a resident of the state. All other certificates shall be deemed active.

475.15 Registration of certificates of members of firm, etc., required.—Every partnership and corporation required to be registered shall register, and renew the certificates of its members, officers and directors for each license period, and the registration of such partnership or corporation shall be suspended automatically during any period of time that certificates of any one or more of its members, officers or directors shall not be in force.

475.16 Application for registration.—Every person shall make application for registration

in the form required by the rules of the commission, and shall answer such questions and furnish such supporting evidence as may be required by the commission, touching his qualifications.

History.—§17, ch. 12223, 1927; CGL 4078.

475.17 Qualifications of applicants for registration.

(1) An applicant for registration who is a natural person shall be required to make it appear that he is twenty-one years of age, a citizen of the United States, honest, truthful, trustworthy, of good character, and that he bears a good reputation for fair dealing. An applicant for an active broker's registration or a salesman's registration, shall be required to make it appear that he is competent and qualified to make real estate transactions and conduct negotiations therefor, with safety to investors and to those with whom he may undertake a relationship of trust and confidence. An applicant for a salesman's registration shall show that he is a bona fide resident of the state, and an applicant for an active broker's registration shall show that he has been such a resident for one year immediately prior to the filing of the application. If it shall be made to appear that the applicant has been denied registration or a license or has been disbarred, or his registration or license has been revoked or suspended, by this or any other state or nation, or possession or district of the United States, or any court or lawful agency thereof, to practice or conduct any regulated profession, business or vocation, because of any conduct or practices which would have warranted a like result under this chapter, or that the applicant has been guilty of conduct or practices in this state or elsewhere, which would have been grounds for revoking or suspending registration under this chapter had the applicant then been registered, the applicant shall be deemed not to be qualified, unless, because of lapse of time and subsequent good conduct and reputation, or other reason deemed sufficient it shall appear to the commission that the interest of the public and investors will not likely be endangered by the granting of registration. The foregoing qualifications apply to members of partnerships and officers and directors of corporations. A corporate applicant shall have been organized under, or be legally qualified to do business in the state.

(2) No person shall be registered as a real estate salesman unless, in addition to the other requirements of law, he shall make it appear that he is, and has been for at least six months next prior to the filing of his application, a bona fide resident of Florida; provided, however, this subsection shall not apply to an applicant for registration as a real estate salesman who shall make it appear that he has lawfully operated exclusively as a real estate broker or salesman in another state, requiring registration of real estate brokers or salesmen, for at least two years next prior to filing his application in Florida.

(3) No person shall be registered as a real

estate broker unless, in addition to the other requirements of law, he shall make it appear that he has served an apprenticeship as a registered real estate salesman, with and under the instructions and guidance of a registered real estate broker of the state, for at least twelve consecutive months next prior to the filing of his application for registration as a real estate broker. The intent of the legislature in enacting this law is to elevate the profession of a real estate broker for the protection of the public. The apprenticeship provided herein shall not be taken to mean that the salesman be required to attend to the duties of his employment as a real estate salesman to the exclusion of any other employment, nor shall the twelve consecutive months of apprenticeship provided include periods of illness, regular vacations, business trips necessitating absence and emergencies. Provided, that every applicant for registration as a real estate broker at the end of his apprenticeship, shall be required to furnish an affidavit to the Florida real estate commission, on a form provided for that purpose, that he has invested a part of his time as a real estate salesman under a registered real estate broker, and the broker shall be required to furnish an affidavit to the commission, on a form provided for that purpose, that the salesman has satisfactorily completed his apprenticeship, that he is qualified, and has the ability and integrity to be a real estate broker.

(4) When the commission has established an educational course or series of educational courses, to be regularly conducted, offered, or sponsored by it pursuant to §475.04(2), the commission may require the satisfactory completion of one, or more, of the educational courses, or its, or their, equivalent as a condition precedent for any person to become registered as a real estate broker, which requirement shall be in addition to other qualifications required by this chapter. When such requirement is made provisions shall be made to make such course, or courses, available by correspondence or other suitable means to any person who shall make it affirmatively appear to the satisfaction of the commission that by reason of hardship he cannot attend the place, or places, where the course is regularly conducted. The commission is authorized to adopt rules and regulations in the exercise of its powers herein set forth.

475.171 Inapplicability of §§475.04(2) and 475.17(4) to certain persons.—The provisions of §§475.04(2) and 475.17(4) shall not apply to any person who has, or shall have, completed the apprenticeship as required by §475.17(3), on or before the effective date of any rule or regulation adopted by the commission requiring the completion of any educational course as a condition precedent to registration, if such person shall within not more than ninety days

after the effective date of such rule or regulation make and diligently pursue his application to become a registered real estate broker, nor shall these subsections apply to any person who on May 30, 1959, is registered as a real estate broker and holds, or is entitled to receive upon request, an active broker registration certificate.

History.—§3, ch. 59-200.

475.18 Proceedings upon application for registration.—

(1) If the commission shall be of the opinion that an applicant for registration is qualified, the application shall be approved. If the applicant shall fail to pass the examination prescribed by the commission the commission may, in its discretion, permit a second examination, and, if the applicant shall again fail, the application shall be denied, without prejudice to the filing of another application. If, from the application filed, or the replies of persons, designated by the applicant, to inquiries by the commission concerning his qualifications, or from their failure to reply thereto fully, or from answers to inquiries, or the failure to fully answer inquiries, pertinent to his qualifications, propounded to the applicant by the commission, it shall not affirmatively appear that the applicant possesses the necessary residence, character and general competence and qualifications required by this chapter, the commission shall permit reasonable amendments, if offered by the applicant, and if the applicant shall not finally make it affirmatively appear that he is so qualified, the commission may finally deny the application with prejudice. If the application and supporting documents on their face show that the applicant is qualified, but from complaints, or information received, or from investigation, it shall appear to the commission or chairman, at any time before the initial certificate is delivered, that there may be cause to deny registration, the commission or chairman may order an information to be filed, notice served, and hearings before an examiner and the commission held, as hereinafter provided. If an applicant shall be denied registration, except for failure to pass an examination, or by an order giving leave to file a new application, he shall not be permitted to file a new application unless and until the commission shall, in its discretion, and upon petition of the applicant, grant leave to file such new application. No application shall be granted if it shall appear that the applicant has acted, or attempted to act, or has held himself out as entitled to act, as a real estate broker or salesman, in violation of this chapter, during the period of one year next prior to the filing of said application. The commission shall have a broad discretion, in the granting or denial of an application, in view of the difficulty in securing definite and legal proof of bad reputation or of securing satisfactory proof of specific instances of fraudulent or unethical conduct, in the limited time after an application is filed and before a decision should normally be made, and particularly when the applicant

has been beyond the limits of the state until a short time before filing an application. The denial of an application shall not be reversed except upon a clear showing of an abuse of discretion or of an arbitrary and capricious ruling.

(2) The foregoing subsection (1) shall be deemed to bar any person from registration who has done any of the acts or performed any of the services described in §475.01 as constituting the person a real estate broker, or salesman, during the said period of one year next prior to the filing of the application, or during the pendency of said application, and until a valid current registration certificate has been duly issued to him, whether the same was done for compensation or valuable considerations, or not.

475.19 Approved applicants to be examined by commission.—When the application for registration of any natural person, not being then registered, shall be approved, the applicant shall be required to appear in person, at a time and place to be designated by the commission, and answer questions touching his qualifications according to the provisions of this chapter. The operation of this section may be postponed by the commission until such time as it may be practicable to put it in force.

History.—§20, ch. 12223, 1927; CGL 4081.

475.20 Renewal of certificates.—Every certificate shall expire at the end of the license period. Certificates for the next succeeding license period shall be issued upon written request, on a form provided by the commission, accompanied by the required fee, if such request is made while registration is in force. When made in proper form, accompanied by the proper fee, such request shall not be denied or unreasonably delayed.

History.—§21, ch. 12223, 1927; CGL 4082; §5, ch. 59-199, cf.—§475.01(6) Definition of "license period."

475.21 Registrant having applied for renewal entitled to continue operating.—Registrants who have made request for renewal, and paid the fee therefor, shall be entitled to continue to act as brokers or salesmen, unless under suspension.

History.—§22, ch. 12223, 1927; CGL 4083.

475.22 Broker to maintain sign at entrance of office.—Every registered broker shall maintain a sign on or about the entrance of his principal office and all branch offices, which sign shall be easily observed and read by any person about to enter such office, and shall be of such form and minimum dimensions as shall be prescribed by the commission.

History.—§23, ch. 12223, 1927; CGL 4084.

475.23 Certificate to expire on change of address.—A registration certificate shall cease to be in force whenever a broker changes his business address, or a salesman changes employer. In such cases, the old certificate shall

be surrendered, or accounted for, and a new certificate shall be issued, upon request therefor on a form provided by the commission, and the fee for the issuance of the new certificate shall be five dollars.

History.—§24, ch. 12223, 1927; CGL 4085; §4, ch. 29983, 1955.

475.24 Branch office; fees.—Whenever any applicant or registrant desires to conduct business at some other location, either in the same or different city, town, or county than that registered, such other place of business shall be registered as a branch office, and a registration fee of ten dollars shall be paid for each such office. It shall be necessary to maintain and register a branch office, whenever, in the judgment of the commission, the business conducted at a place other than the principal office, is of such a nature that the public interest requires registration of a branch office. Any office shall be deemed to be a branch office if the name or advertising of a broker having a principal office located elsewhere, shall be displayed in such manner as to reasonably lead the public to believe that such office is owned or operated by such broker.

History.—§25, ch. 12223, 1927; CGL 4086.

475.25 Grounds for revocation or suspension.—

(1) The registration of a registrant may be suspended for a period not exceeding two years, or until compliance with a lawful order imposed in the final order of suspension, or both, upon a finding of facts showing that the registrant has:

(a) Been guilty of fraud, misrepresentation, concealment, false promises, false pretenses, dishonest dealing, trick, scheme or device, culpable negligence, or breach of trust in any business transaction, or has violated a duty imposed upon him by law or by the terms of a listing contract, written, oral, express or implied, in a real estate transaction; or has aided, assisted, or conspired with any other person engaged in any such misconduct and in furtherance thereof; or has formed an intent, design or scheme to engage in any such misconduct, and has committed an overt act in furtherance of such intent, design or scheme; and it shall be immaterial to the guilt of the registrant that the victim, or intended victim, of the misconduct has sustained no damage or loss, or the damage or loss has been settled and paid, after discovery of the misconduct, or whether such victim, or intended victim, thereof, was a customer or a person in confidential relation with the registrant, or was an unidentified member of the general public; or,

(b) Been guilty of false advertising in, on or by, signs, bill boards, newspapers, magazines, periodicals, books, pamphlets, circulars, radio, telephone, telegraph, or other means of communication of publicity, of such character as to deceive or defraud investors, or prospective investors, in real property or interests therein, as more particularly described in subsection (2) of §475.01, whether such property is owned, or

purported to be owned by the registrant or by another; or,

(c) Failed to account or deliver to any person any personal property such as money, fund, deposit, check, draft, abstract of title, mortgage, conveyance, lease, or other document, or thing of value, or any secret or illegal profit, or any divisible share or portion thereof, which has come into his hands, and which is not his property, or which he is not in law or equity entitled to retain, under the circumstances, and at the time which has been agreed upon, or is required by law, or, in the absence of a fixed time, upon demand of the person entitled to such accounting and delivery; provided, however, that, if the registrant shall, in good faith, entertain doubt as to his duty to account and deliver said property, or as to what person is entitled to the accounting and delivery, or if conflicting demands therefor shall have been made upon him, and he has not appropriated the property to his own use, or intermingled it with his own property of like kind, he may notify the commission promptly, truthfully stating the facts, and ask its advice thereon, or after notice thereof to the commission, shall promptly submit the issue to arbitration by agreement of all parties, or interplead the parties, or otherwise seek an adjudication of the question, in a proper court, and shall abide, or offer to perform, the advice of the commission or the orders of the court, or arbitrators, no information against him shall be permitted to be maintained; or,

(d) Violated any of the provisions of this chapter, or any lawful order, rule or regulation made or issued under the provisions of this chapter; or,

(e) Been guilty of a crime against the laws of this state or any other state or of the United States, involving moral turpitude, or fraudulent or dishonest dealing; and the record of a conviction certified or authenticated in such form as to be admissible in evidence under the laws of the state, shall be admissible as prima facie evidence of such guilt; or,

(f) Shared a commission with, or paid a fee or other compensation to, a person not properly registered as a real estate broker or salesman under the laws of this state, for the referral of real estate business, clients, prospects, or customers, or for any one or more of the services set forth in §475.01(2). For the purpose of this section it shall be deemed immaterial that the person to whom such payment or compensation is made shall have made said referral, or performed said service, from within this state, or elsewhere; provided, however, a registered real estate broker of this state may pay a referral fee or share a real estate brokerage commission with a real estate broker duly licensed, or registered, under the laws of a foreign state so long as said foreign broker does not violate any law of this state.

(g) Become temporarily incapacitated from acting as a broker or salesman with safety to investors or those in a fiduciary relation with him because of drunkenness, use of drugs, or temporary mental derangement, except that the

suspension in such cases shall be for the period of such incapacity; or

(h) Rendered an opinion that the title to any property sold is good or merchantable, except when correctly based upon a current opinion of a licensed attorney at law, or failed to advise a prospective purchaser to consult his attorney on the merchantability of the title or to obtain title insurance.

(i) Failed, if a broker, to immediately place, upon receipt, any money, fund, deposit, check or draft, entrusted to him by any person dealing with him as a broker, in escrow with a title company or banking institution located and doing business in Florida, or, deposit said funds in a trust or escrow bank account maintained by him with some bank located and doing business in Florida, wherein said funds shall be kept until disbursement thereof is properly authorized, or, if a salesman, failed to immediately place with his registered employer any money, fund, deposit, check or draft, entrusted to him by any person dealing with him as agent of his registered employer. The commission shall establish rules and regulations to provide for records to be maintained by the broker and the manner in which such deposits shall be made.

(2) The registration of a registrant shall be revoked, if such registration, or a certificate issued thereon, is found to have been obtained by the registrant by means of fraud, misrepresentation or concealment, or if the registrant has become a nonresident of the state, or is confined in any state or federal prison, or insane asylum, or through mental disease or deterioration, the registrant can no longer safely be entrusted to deal with the public or in a confidential capacity; and a registration or a certificate may be revoked or cancelled, without prejudice to filing a proper application, or request for certificate, if the same shall have been granted or issued through the mistake or inadvertence of the commission.

(3) The registration of a registrant may be revoked if the registrant shall, for a second time, be found guilty of any misconduct that warrants his suspension under subsection (1) of this section, or if he shall be found guilty of a course of conduct or practices which show that he is so incompetent, negligent, dishonest or untruthful that the money, property, transactions and rights of investors or those with whom he may sustain a confidential relation, may not safely be entrusted to him.

History.—§26, ch. 12223, 1927; CGL 4087; am. §3, ch. 24090, 1947; §11, ch. 25035, 1949; sub. §(1)(g) am. §10, ch. 26484, 1951; sub. §(1), am. §5, ch. 29983, 1955; (1) (f) a. by §1, ch. 61-108.

475.26 Information and notice in denial, revocation or suspension proceedings.—When, by reason of a complaint filed, or upon investigation, it shall appear to the commission or the chairman, that there is reason to believe that registration probably should be denied to an applicant because of facts not sufficiently disclosed in the application record, or that the registration of a registrant probably should be

revoked or suspended, the chairman shall permit an information to be filed with the commission, by an authorized representative of the commission, or some other person having knowledge, information or belief concerning the facts. The information, and all succeeding papers pertaining to the case, shall be filed and marked with the date of the filing, and shall be kept together in one file and given a distinctive number. The party filing the information shall be designated as the plaintiff and the accused applicant or registrant shall be the defendant. In revocation or suspension proceedings as many registrants may be joined in one proceeding as are alleged to have participated in the alleged misconduct charged in one or more of the counts thereof. Where two or more disconnected transactions are alleged in any information, they shall be stated in separate counts, and where the plaintiff is uncertain as to some fact pertinent to a single transaction, the transaction may, in separate counts, be alleged in the alternative and it shall not be an objection that the allegations in said counts are inconsistent; and in a default case, or upon a motion for a final order, or motion to quash, the commission may deny, revoke or suspend registration if the allegations of any count will sustain such a final order, or may make such a final order in any other case, if the evidence supports any count of the information. The facts shall be alleged in concise, simple language, and shall be deemed to afford notice of the charge, if a person of ordinary understanding may reasonably be enabled to present his defense thereto, if any, and both the information and answer shall be aided and deemed amended by the proof, if the opposite party shall be afforded full opportunity to meet and defend against or rebut such proof. Upon the filing of an information, a notice thereof shall be sent by registered mail, in the manner and form prescribed by §475.40, addressed to the defendant at the address which the applicant has designated for official notices, in his application, if a denial proceeding, or, in revocation or suspension proceedings, at the last business address which a broker has registered with the commission, or, in case the defendant is a salesman, in care of the employer, at the last address registered with the commission. A copy of the information shall be enclosed with the notice. The notice shall fix the date, not less than twenty days after the mailing of the notice, on which the defendant is required to file an answer or motion to quash the information. The prayer of the information for revocation or suspension, or both, shall not control or limit the power of the commission to enter such an order as is warranted by the facts and this chapter.

History.—§§27, 28, ch. 12223, 1927; CGL 4088, 4089; am. §4, ch. 24090, 1947.

cf.—§475.44, Disqualification of commission members.

475.27 Appointment of examiner; taking of testimony.—Whenever an issue of material fact shall appear from the information and answer in a denial, revocation or suspension proceeding,

the commission, or its chairman, shall make an order appointing an examiner to hear and report the evidence that may be offered upon said issue. The examiner shall receive the evidence offered together with any objections thereto and shall transcribe or cause to be transcribed the same and shall report the testimony to the commission. The parties shall have reasonable opportunity to present all evidence pertinent to any material issue in the case. The examiner shall administer oaths to the witnesses, afford all parties the right to cross-examine adverse witnesses, give notices of the time and place of hearing, and do any other act authorized by this chapter, or lawfully directed by the commission. The examiner may, unless the commission or chairman shall otherwise direct, make a presentment to the circuit court of the county in which the hearing is or was held, of any misconduct of a witness, described in §475.32, for proceedings therein authorized, or the commission or chairman, may make such presentment. Unless an examiner or reporter is a regular salaried employee of the commission, he may be paid a per diem for holding hearings and such compensation for transcribing and reporting testimony, as may be deemed reasonable by the commission. An examiner may adjourn hearings, but all hearings shall be held in the county where the defendant resides or where the matters and things charged in the information are alleged to have occurred.

History.—§29, ch. 12223, 1927; CGL 4090; am. §5, ch. 24090, 1947.

475.28 Rules of evidence.—In all proceedings before the commission or before the courts, civil or criminal, where the payment, receipt or expectation of a commission, compensation or valuable consideration shall be a necessary element to the investigation, inquiry or offense, proof of the performance of the act, service or condition for which such commission, compensation or valuable consideration is required to be shown, shall be prima facie evidence that such act, service or condition was performed or existed for, or in expectation of, the payment or receipt of a commission, compensation or valuable consideration; and where it shall be material to determine whether or not a party to any action, civil or criminal, is properly registered, the burden of proof shall be on such party.

Photostatic copies of all papers and documents may be introduced in lieu of the originals, in the trial of informations, or type-written copies may be substituted after production of the original to the examiner. The books of account and records of any person shall be admissible upon a showing that they were made in the regular course of business, without introducing the person who made the entries, the weight of such evidence to be decided by the court or commission.

History.—§30, ch. 12223, 1927; CGL 4091.

475.29 Jurisdiction of the commission.—The commission shall have original jurisdiction to receive, hear and determine all informations

permitted to be filed, and shall have power to grant, deny, revoke or suspend registration, or to dismiss an information, as it may find warranted by the facts and the provisions of this chapter. Registration may be revoked or suspended upon one or more of the grounds enumerated in §475.25, or elsewhere in this chapter. An application may be denied under the circumstances enumerated in §475.17 or §475.18, and the commission may enter a final order on an application for registration upon the record made by the applicant as provided in §475.18, or upon an information and proceedings thereon, as otherwise provided in this chapter. The defendant may appear before the court and the commission by attorney or in person.

History.—§31, ch. 12223, 1927; CGL 4092; am. §1, ch. 22861, 1945; am. §6, ch. 24090, 1947.

475.30 Answers, motions and defaults.—

(1) The defendant named in an information shall file with the commission a verified answer thereto, and, if he be so advised, a motion to quash the information, on or before the date fixed in the notice required by §475.26. The filing of an answer to the information shall waive any defect in, or objection to, the notice, or want of notice. The answer shall admit or deny each fact alleged, except mere matters of inducement, or formal allegations, in the information, or avoid the effect thereof by a recital of the facts as defendant conceives them to be, and each issuable fact not denied in one of the manners aforesaid, shall be deemed to be admitted. No admission or allegation of the defendant made in an answer, motion or on the trial, shall be evidence against him in any civil or criminal proceeding, except upon a trial of a charge of perjury against him. All allegations of an answer not admitted in the information shall be deemed denied by the plaintiff.

(2) All questions of jurisdiction, or sufficiency of the information, and other matters of law may be raised by motion to quash, which motion shall be deemed, for the purpose only of said motion, to admit the truth of the facts alleged in the information. The defendant shall be entitled to an immediate hearing upon such motion to quash, and either party to the proceedings, or the commission on its own motion, may call said motion to quash up for hearing on ten days notice to the parties, and all proceedings in the case shall abate until such motion to quash is heard and disposed of by the commission. In the event said motion to quash be denied by the commission, it shall enter its order to such effect, which order shall be reviewable on certiorari as provided in §475.35, but no supersedeas or stay of proceedings shall be granted pending such review except upon application as provided in §475.35. In the event the information shall be adjudged insufficient by the commission or on appeal, the plaintiff shall have the right to amend such information at any time within twenty days after the order holding said information to be insufficient shall have become final. In the event of necessity of procedure not specifically provided

for herein, the procedure applicable in chancery practice and appeals shall govern so far as they may be applicable.

(3) If no answer or motion to quash shall be filed on or before the date fixed in the notice prescribed in §475.26, or within the time as it may be enlarged, the chairman shall enter an order declaring the defendant to be in default, the allegations of the information shall be taken as true, and a final order may be entered, ex parte, at any subsequent meeting of the commission. The default may be opened for good cause shown before a final order is entered, and, if it shall appear to the commission, before October 1 next succeeding the entry of a final order, that the failure to file an answer, or sooner apply for an opening of the default, was not, in any wise, due to the fault, neglect, or disobedience of the provisions of this act requiring immediate filing of notice of change of address or employer, of the registrant, the commission may, in its discretion, set aside the final order and permit the filing of an answer.

(4) Whenever, in this chapter, the words denial, revocation, or suspension, or any two of them, or related words shall appear, they shall be construed to be distributive to the appropriate proceedings.

(5) Whenever, under this chapter, service of any paper on the defendant is required, such service may be made personally, or by mail, on him or his attorney, and proof of such service may be made by affidavit of the person making the service. A defendant shall not be required to serve any paper which is required by this chapter to be filed with the commission, unless specifically so stated.

History.—§32, ch. 12223, 1927; CGL 4093; am. §7, ch. 24090, 1947; §11, ch. 25035, 1949; sub. §(2) am. §10, ch. 26494, 1951; (1), (2), (4) by §2, ch. 59-197.

475.31 Final orders.—

(1) Upon default, or the filing of a motion to quash the information, or motion for a final order, or upon the filing of a final report of the examiner, the cause may be heard by the commission at a regular, special or adjourned meeting. The defendant may file a brief not more than fifteen days after service of a notice that the report of the examiner has been filed. He may request an oral argument within said time, and if the request is granted, shall be given notice of the time and place of hearing at least five days before the date thereof. Upon submission of the cause, in any case, and upon being fully advised in the premises, the commission shall make a final order, which shall be signed, or assented to in writing, by a majority of its members, which order, together with any dissent that a member shall desire to file, shall be entered in an appropriate order book. The final order may dismiss the information, which order shall not be appealable; or said order may deny registration, if in a denial proceeding, or revoke or suspend registration if the defendant is a registrant, as the facts and law may warrant, and no final order shall thereafter be annulled, reversed or called in question, except upon appeal, or because void for want of jurisdiction to

enter it. The commission may remand the cause to an examiner for the taking of further testimony, before entering a final order, if justice appears so to require.

(2) All final orders of the commission revoking or suspending registration of a registrant shall become effective when the time for filing petition for writ of certiorari has expired and all other orders or rulings of the commission shall become effective when entered, unless such final orders or other orders and rulings be superseded as provided in §475.35. Any order or ruling which is superseded shall become effective when the time for appeal from the judgment, order, or decision of the appellate court has expired, unless such order or ruling of the commission be finally reversed or set aside. The commission may postpone the effective date of any order where no supersedeas is filed. The commission shall enforce all orders as of the effective date thereof and may maintain such action in the courts as shall be necessary to the effective enforcement thereof.

(3) An order revoking or suspending the registration of a broker shall automatically suspend the certificates of all salesmen registered with said broker, and if a partnership or corporation, of all members, officers and directors also, while the registration and certificate of said broker shall be inoperative, or until new employment or connection is secured, and a new certificate is issued to the member, officer, director or salesman; but the right to transfer or have a certificate issued or reissued shall not extend beyond a period of six months after the termination of the license year in which said order became effective.

(4) The final order of the commission in revocation or suspension proceedings, shall, except where the information is dismissed, or is based upon a default, or upon a motion to quash, or for a final order, contain a finding of facts, sufficient to support the order. The findings of fact of the commission shall have the same force and effect as the findings of a general master in chancery.

(5) Any registrant whose registration has been suspended may petition the commission for the reissuance of a certificate for the balance of the license year, or for a renewal certificate for the succeeding year, at the expiration of the period of suspension, or during an indefinite suspension, and at any time before the expiration of six months after the termination of the license year in which said term of suspension expired, and in support thereof shall show by his affidavit, on a form to be prescribed by the commission, that he has fully complied with all of the terms and conditions of said suspension, and has not, during the full period thereof, acted, or offered to act, or held himself out as being entitled to act, as either a real estate broker or salesman in the state. Thereupon the commission shall reissue or renew said certificate, unless it shall have reason to doubt that said affidavit is in all material respects true, in

which case it shall cause to be filed and served on such petitioner a rule requiring him to show cause, within a time fixed therein, why his petition should not be denied, and shall cause a hearing thereon to be held substantially as in the case of a trial of an information; and if it shall find the petitioner has failed to show by a preponderance of the evidence that the facts stated in said affidavit are true, said petition shall be denied.

(6) The commission shall have authority to terminate a period of suspension, if satisfied that justice requires it, and for like reason may permit a former registrant, whose registration has been revoked, to file a new application, which shall thereafter be treated as any other application, upon petition filed by the registrant, if satisfied that the petitioner will thereafter conduct himself in accordance with the law and ethics governing registrants; but the action of the commission in such cases is discretionary and shall be final.

(7) The commission may publish and distribute in such manner and form as it may prescribe any or all of its final orders or decisions made under this chapter, after they shall be final by lapse of time, or upon affirmance on appeal, or opinions of appellate courts, for the guidance of registrants and the public, and may publish, or withhold from publication, the names and addresses of any or all parties concerned.

(8) If, in any proceeding before the commission or a court under this chapter, a question of procedure shall arise which is not covered by this chapter or valid rule made hereunder, it shall be decided in the same manner as though the same or a similar question had arisen in a chancery case.

475.32 Subpoenas; issuance; service; failure to answer; witness fees.—Subpoenas for witnesses, whose evidence is deemed material to any investigation or hearing authorized by this chapter, may be issued by the commission or its chairman and under the seal of the commission, or by any circuit clerk, county judge, or clerk of the county court or county judge's court, or examiner appointed under this chapter, commanding such witnesses to be or appear before the commission, the examiner, or any authorized representative of the commission, at a time and place to be therein named, and to bring such books, records, and documents as may be specified, or to submit such books, records, and documents to inspection; and such subpoenas may be served by such examiner or authorized representative of the commission, or by any sheriff or deputy.

Where any witness who has been served with a subpoena fails or refuses to be or appear at the time and place named, or fails or refuses to answer any lawful questions propounded or produce the books, records, or documents required, or who shall be guilty of disorderly or contumacious conduct at the hearing, the facts shall be made known to a circuit judge

of the county, who shall forthwith issue an attachment for such witness, and cause him to be brought before said judge. Upon appearance, if the witness shall fail to purge himself of such failure, refusal or conduct, the judge shall proceed further as in cases of contempt of court; and said witness shall pay the costs of said attachment.

Witnesses shall be entitled to the same fees and mileage as they may be entitled by law for attending as witnesses in the circuit court, except where such examination is held at the place of business or residence of the witness, but no witness shall be required to attend a hearing outside of the county wherein he resides, or may for the time be domiciled, without his consent, unless it be shown to a county or circuit judge that such persons are attempting to avoid appearing as witnesses.

Witnesses who testify under subpoena shall be entitled to the same protection and immunities as are witnesses in judicial proceedings.

475.34 Fees of court officials; payment by commission.—The judges, clerks, sheriffs, and other officers shall be entitled to the same fees as may be provided by law for similar services in other cases. The fees of witnesses and officers shall be paid by the commission upon presentation of vouchers approved by the examiner or representative, but the commission shall not be liable for fees incurred by reason of services performed at the direction of a defendant unless otherwise previously ordered.

475.35 Appellate review of proceedings.—The final orders and rulings entered or issued in any proceeding before the Florida real estate commission shall be reviewable only by a writ of certiorari issued by the district court of appeals of the appropriate appellate district, or the supreme court, when permitted, as and in the manner provided by the Florida appellate rules or by chapter 120. The venue of the proceedings for such review shall be the appellate district which includes the county wherein hearings before the examiner are required to be heard under the provisions of §475.27; provided however, that if venue cannot be determined under §475.27, then the venue of such proceedings shall be the appellate district which includes the county wherein the executive offices of the commission are located. In all such cases the style of the cause in the court of appeals shall

475.361 Application and construction of act.—

(1) This act (amendments to 475.01(12), 475.30, 475.31, 475.35 and 475.36 by ch. 59-197) does not apply to any appellate proceeding pending in any court on May 30, 1959.

(2) The provisions of said act shall be construed to be exclusive and not cumulative, or alternative, and to the extent that there is conflict between the provisions of this act, and any other statute, then such other statutes are to the extent of such conflict hereby repealed.

History.—§§6, 8, ch. 59-197.

475.37 Effect of reversal of order of court or commission.—Should the order of the court or commission denying, revoking or suspending registration, be finally reversed and set aside, the defendant shall be restored to his rights and privileges as a broker or salesman, from and after filing the mandate, or a copy thereof, with the commission, and the matters and things alleged in the information shall not thereafter be reexamined in any other proceeding concerning the registration of the defendant; or if the inquiry concerned was in reference to an application for registration, the application shall stand approved, and such application shall be remanded for further proceedings according to law.

History.—§40, ch. 12223, 1927; CGL 4101.

475.38 Payment of costs.—The commission shall not be required to advance any fee or costs to any officer or witness, or to execute any bond in any proceeding in the courts, any general statute to the contrary notwithstanding, but in every case, where the commission shall be liable for any fees or costs, a voucher therefor shall be presented to the commission, and if approved, shall be audited and paid as are other expenses of the commission. The commission may, where it is satisfied that a defendant is unable to pay or advance any fees or costs and that the service from which such fees or costs have accrued, or will accrue, is probably necessary in the interests of justice, upon application by the defendant, order that such fees or costs be incurred at the expense of the commission, and be paid as are other fees and costs, but the defendant shall remain liable to the commission for all sums so paid.

History.—§41, ch. 12223, 1927; CGL 4102.

475.39 Right of commission to bring injunction or mandamus.—Whenever it shall appear to the commission that any person is operating as a broker or salesman without having been duly registered, or is violating any of the provisions of this chapter or lawful rules, regulations or orders of the commission, the commission may file an application for injunction in its own name, or proceedings by man-

damus, in the name of the state, on its own relation, and by its counsel, alleging the facts, and praying for an injunction or writ of mandamus against such person, partnership or corporation, or its members, officers or directors, restraining them from further operating or acting as real estate brokers or salesmen until such time as the proper certificates shall have been granted, or restraining them from disobeying, or commanding them to obey such law, order, rule or regulation.

Upon proper application, and showing that the defendant is not registered or that renewal certificates have not been applied for, or that registration has been denied, revoked or suspended, or that the law, order, rule or regulations have been or are about to be violated or disobeyed, which showing may be by affidavit, the judge of the court wherein the bill shall be filed, shall issue a restraining order or alternative writ of mandamus and, upon the final hearing, shall grant and issue an injunction, mandatory injunction, or peremptory writ of mandamus, as prayed, upon finding the truth and sufficiency of the allegations of the bill or petition. The court may enforce said injunction or writ by punishment for contempt, and by such other writs and process, mesne or final, as are permitted to circuit courts, and shall make such other orders as its discretion and the rules shall require. Such injunction or writ may be limited in time, perpetual or conditional, as may be necessary and proper to the enforcement of this chapter. Decisions of the circuit courts rendered pursuant to this section shall be appealable to the appropriate district court of appeals in the manner and within the time provided by Florida appellate rules.

475.40 Notices.—Whenever any notice shall be required by this chapter, it shall be sufficient to deliver such notice personally to the person to be notified, or to a member or officer of a partnership or corporation, or to cause the same to be sent by registered mail, fully stamped and addressed to such person at the last business address registered with the commission, or, if to a salesman, addressed in care of the registered employer; or to the attorney of record. Such notice shall contain sufficient information to put such person on inquiry, and reasonably lead to a discovery of all facts necessary to the protection of his rights. The period of notice shall be fixed at a reasonable time by the commission, not less than may, for the particular notice, be fixed in this chapter. The affidavit of the person delivering or mailing the notice shall be proof of the fact, but if done by the sheriff or an examiner may be proved by return.

History.—§43, ch. 12223, 1927; CGL 4104.
cf.—§1.01(13) defines registered mail to include certified mail with return receipt requested.

475.41 Contracts of unregistered person for commissions invalid.—No contract for a com-

mission or compensation for any act or service enumerated in subsection (2) of §475.01 shall be valid unless the broker or salesman shall have complied with this chapter in regard to registration and renewal of the certificate at the time the act or service was performed.

History.—§44, ch. 12223, 1927; CGL 4105.

475.42 Violations and penalties.—

(1) **VIOLATIONS.**—(a) No person shall operate as a real estate broker or salesman without being the holder of a valid current registration certificate.

(b) No person registered as a real estate salesman shall operate as a real estate broker, or operate as a salesman for any person not registered as his employer.

(c) No broker shall employ, or continue in employment, any person as a real estate salesman who is not the holder of a valid current registration certificate as salesman; but a registration certificate as salesman may be issued to a person registered as an active broker, upon request and surrender of the certificate as broker, without a fee in addition to that paid for the issuance of the broker's active certificate.

(d) No salesman shall collect any money in connection with any real estate brokerage transaction, whether as a commission, deposit, payment, rental, or otherwise, except in the name of the employer, and with the express consent of the employer; and no real estate salesman, whether the holder of a valid current registration certificate or not, shall commence or maintain any action for a commission or compensation, in connection with a real estate brokerage transaction, against any person except a person registered as his employer at the time the cause of action is alleged to have arisen.

(e) No person shall violate any lawful order, rule or regulation of the commission, which is binding upon him.

(f) No person shall be guilty of any conduct or practice set forth in §475.25 (1) (a), (b), (c), or (f).

(g) No person shall make any false affidavit or affirmation intended for use as evidence by or before the commission, or a member thereof, or by any of its authorized representatives, in connection with any investigation authorized by this chapter, nor shall any person give false testimony under oath, or affirmation, to or before the commission, or any member thereof, or any examiner appointed hereunder, in any proceeding authorized by this chapter.

(h) No person shall fail or refuse to appear at the time and place designated in a subpoena issued under this chapter, unless because of facts that are sufficient to excuse appearance in response to a subpoena from the circuit court, nor shall a person who is present before the commission, a member thereof, one of its authorized representatives, or an examiner, acting under authority of this chapter, refuse to be sworn or to affirm, or fail or refuse to answer fully any question propounded by the commission, a member thereof, or such representatives

or examiner, or any person by the authority of such officer or appointee, nor shall any person, so being present, conduct himself in a disorderly, disrespectful or contumacious manner.

(i) No person shall obstruct or hinder in any manner the enforcement, or performance of any lawful duty by any person acting under the authority, of this chapter, or interfere with, or intimidate, or offer any bribe to, any member of the commission, or any of its employees or examiners, or any person who is, or is expected to be, a witness in any investigation or proceeding under this chapter.

(j) No real estate broker or salesman shall place, or cause to be placed, upon the public records of any county, any contract, assignment, deed, will, mortgage, lien, affidavit, or other writing which purports to affect the title of, or encumber, any real property, if the same is known to him to be false, void, or not authorized to be placed of record, or not executed in the form entitling it to be recorded, or the execution or recording whereof has not been duly authorized by the owner of the property, maliciously or for the purpose of collecting a commission, or to coerce the payment of money to the broker or salesman or other person, or for any unlawful purpose.

(k) No person shall operate as a real estate broker under a trade name without causing the same to be noted in the records of the commission and placed on his certificate, or so operate as a member of a partnership or as a corporation or as an officer or manager thereof, unless said partnership or corporation is the holder of a valid current registration certificate.

(2) **PENALTIES.**—Any person who shall violate any of the provisions of this section shall, upon conviction, be punished by a fine of not less than fifty dollars nor more than five hundred dollars, or by imprisonment for not more than six months, or if a corporation, by a fine of not less than one hundred dollars nor more than one thousand dollars, except where a different punishment is prescribed by this chapter. Nothing in this chapter shall prohibit the prosecution of any person for an act or conduct prohibited by this section, under any other criminal statute of this state, provided, however, in such cases, the state may prosecute under this section or under such other statute, or may charge both offenses in one prosecution, but the sentence imposed shall not be a greater fine or longer sentence than that prescribed for the offense which carries the more severe penalties. A civil case, criminal case, or a denial, revocation, or suspension proceeding may arise out of the same alleged state of facts, and the pendency or result of one such case or proceeding shall not stay or control the result of either of the others.

(3) **DEFINITIONS.**—

(a) Wherever the words "operate" or "operating" as a broker or a salesman shall appear in this chapter, or in any order, rule or regulation of the commission, or in any pleading, indictment or information, under this chapter, or in any court action or proceeding, or in any

order or judgment of a court, it shall be deemed to mean the commission of one or more acts described in §475.01(2) and §475.01(3) as constituting or defining a real estate broker or salesman, not including however, any of the exceptions stated therein. A single such act shall be sufficient to bring a person within the meaning of this chapter, and each act shall, if prohibited herein, constitute a separate offense.

(b) The term "valid current registration certificate" shall be held to mean an active registration certificate that is based upon a registration that has not expired, or that has not been revoked, or that is not presently suspended, which was issued prior to the date of the act, conduct or operating, which is the subject of an offense, inquiry, or proceeding, and expiring subsequent thereto, which certificate shall show the then address of the business office, if of a real estate broker, or the then name and business address of the employer, if of a real estate salesman.

(c) The word "person" as used in this chapter shall apply to an individual or a corporation, the singular shall include the plural and the male pronoun shall include the female and neuter.

History.—§45, ch. 12223, 1927; CGL 8134; am. §11, ch. 24090, 1947; §11, ch. 25035, 1949; (1)(d) §10, ch. 26484, 1951; (1)(e) R. §22, ch. 63-129.
cf.—§775.06, Alternative punishment.

475.43 Presumptions.—In all criminal cases, and in contempt cases, or other cases filed pursuant to this chapter, if it shall appear that a party has sold, leased or let real estate, the title to which was not in him when it was offered for sale, lease or letting, or such party has maintained an office bearing signs that real estate is for sale, lease or rental thereat, or has advertised real estate for sale, lease or rental, generally, or describing property, the title to which was not in such party at the time, it shall be a presumption that such party was acting or attempting to act as a real-estate broker, and the burden of proof shall be upon him to show that he was not acting or attempting to act as a broker or salesman, as defined herein. All contracts, options or other devices not based upon a substantial consideration, or that are otherwise employed to permit an unregistered person to sell, lease or let real estate, the beneficial title to which has not, in good faith, passed to such party, for a substantial consideration, are hereby declared void and ineffective in all cases, suit or proceedings had or taken under this chapter; provided, however, that this section shall not apply to irrevocable gifts, or to unconditional contracts to purchase, or to options based upon a substantial consideration actually paid and not subject to any agreements to return or right of return reserved.

History.—§3, ch. 22861, 1945.

475.44 Disqualification of members of the commission.—A member of the commission may be disqualified from hearing and participating in the decision of a denial, revocation or suspension case on the same grounds and in substantially the same manner as a circuit judge

may be disqualified. Upon the entry of an order of disqualification, either voluntary, or pursuant to a sufficient showing thereof, the governor shall appoint a real estate broker, qualified under §475.02, who is not of kin to any of the parties nor known to be biased or prejudiced in the cause, and who resides more than fifty miles from the county in which the defendant resides, to sit in the place and stead of such disqualified member, who, in the particular cause, shall have the same duties, powers and authority of a member of the commission, and shall be reimbursed for traveling expenses as provided in §112.061. No step in the proceeding, taken prior to the filing of objections to such member, shall be held invalid, unless it is made to appear that the defendant has sustained substantial injury thereby, which cannot otherwise be remedied. Any registrant who shall make any false affidavit for the purpose of disqualifying a member of the commission in any cause may be charged therewith in an information before the commission, and his registration shall be revoked if he is found guilty thereof, and any defendant or other person who shall make any false affidavit intending that the same shall be filed in support of the disqualification of a member of the commission shall, upon conviction be punished by imprisonment in the state prison for a term of not more than five years or by a fine of not less than five hundred dollars and not exceeding five thousand dollars, or by both such fine and imprisonment.

History.—§4, ch. 22861, 1945; §12, ch. 24090, 1947; §19, ch. 63-400.

475.451 Schools teaching real estate practice.—

(1) Every person, school or institution, except approved and accredited colleges and universities of this state, who shall offer or conduct any course or courses of study in real estate practice, or any course or courses designed or represented to enable or assist applicants for registration as real estate brokers or salesmen to pass examinations conducted by the Florida real estate commission, shall, before commencing or continuing further to offer or conduct such course or courses, on and after October 1, 1957, obtain a permit from the real estate commission, and thereafter abide by the regulations imposed upon such person, school or institution by this chapter and rules and regulations of the real estate commission made pursuant thereto; provided, that this section shall not apply to or be construed to regulate any real estate educational program conducted on a non-profit basis.

(2) An applicant for a permit hereunder shall first pass an examination as a real estate broker and be the holder of a registration status as a real estate broker, either active or non-active. The commission may require references to persons having knowledge concerning the applicant and the enterprise, may propound interrogatories to such references and to the applicant concerning the character of

the applicant, and shall make such investigation of him or the school or institution as it may deem necessary to the granting of the permit, and if an objection is filed, a notice and hearing shall be held in the same manner as provided by law and rules in hearings on objections or informations against applicants for registration by the real estate commission.

(3) It shall be unlawful for any person, school or institution to offer the courses described in subsection (1) or to conduct classes in such courses, regardless of the number of pupils, or by correspondence or otherwise, without first procuring a permit, or to guarantee that their pupils will pass any examinations given by the commission, or to represent that the issuance of a permit is any recommendation or endorsement of the person, school or institution to which it is issued, or of any course of instruction given thereunder.

(4) The application of each school, institution, or person operating such school or institution, shall be accompanied by a fee of one hundred dollars, and the application of each person employed by a school or institution as an instructor shall be accompanied by a fee of twenty-five dollars and the permit, if issued, shall be annually renewed by the payment of the same fee as for original applications, on or before each succeeding September 30, as in cases of registration certificates of brokers and salesmen, and the same shall be paid into the state agency fund, as provided in §475.11.

(5) Any person guilty of a violation of this section shall be deemed guilty of a misdemeanor, and punished as provided for in §475.42(2).

(6) In the event that any person, school or institution shall violate any of the provisions of this section, or violate any rule or regulation adopted pursuant thereto, or attempt to continue to operate as herein defined, after the revocation or during a period of suspension of a permit, the Florida real estate commission shall be entitled to the appropriate remedy given to it in other cases by §475.39.

History.—Comp. §1, ch. 57-817.

475.47 Publication of false or misleading information; promotion of sales.—It shall be unlawful for any person to publish or cause to be published by means of newspaper, periodical, radio, television, or written or printed matter, any false or misleading information for the purpose of offering for sale or for the purpose of causing or inducing any other person to purchase real estate located in the state, or to acquire an interest in the title thereto.

History.—Comp. §1, ch. 31401, 1956.

475.48 Violation §475.47, penalty.—Any person found guilty of violating the provisions of §475.47 shall, upon conviction, be punished by a fine not exceeding \$100,000.00 or by imprisonment not exceeding 5 years, or both such fine and imprisonment.

History.—Comp. §2, ch. 31401, 1956.

475.49 Proceeding to rescind or recover.—Any person who, in reliance upon any false or

misleading information published in violation of §475.47, pays anything of value toward the purchase of or acquiring an interest in the title to real estate located in this state, shall be entitled in an equity proceeding to rescind the contract in accordance with equity principles or in an action at law to recover from the person to whom such payment was made, damages for his loss, and provided, further, that any person who purchases or acquires an interest in the title to real estate or contracts therefor,

after he or his agent has made an actual physical or visual examination of the property involved, shall not be entitled to the benefits of this section. Any action under this section not brought within one year from the date of the first payment on the purchase price or other consideration, or within three months after said purchaser or his agent has physically or visually examined said real estate, whichever time shall occur first, shall be barred.

If the commission shall refuse to grant or renew a certificate of registration, it shall forthwith notify the applicant by mailing to him a copy of the order at his last known address as shown by the files of the commission and such applicant shall have ten days from the date of the mailing of the notice within which time to request a public hearing upon his application. On receipt of such request the commission shall fix the time, place and manner of holding such hearing under rules and regulations adopted by the commission, which shall provide for reasonable notice to the applicant, and reasonable opportunity for the applicant to appear in person or by counsel and to present his defenses to any charge that is to be heard by the commission. Before the commission shall suspend or revoke such certificate of registration it shall, under rules and regulations adopted by the commission, hold a hearing upon charges against the holder of such certificate of registration, and such rules and regulations shall provide for reasonable notice to the holder of a certificate of registration. Such holder of a certificate of registration shall be afforded reasonable opportunity to appear in person or by counsel and to present his defenses to any charge that is to be heard by the commission.

(8) Printed copies of rules and regulations or written copies under the seal of the board, having been duly filed with the secretary of state, shall be prima facie evidence of their existence and substance and the courts shall judicially notice the existence and substance of such rules and regulations without the necessity that they be introduced into evidence for any judicial proceedings.

A person shall be deemed engaged in business in this state for the purpose of this chapter and other statutes of this state relating

to persons engaged in business in this state when the subdivided lands are located in this state; when any part of the operation of such business is conducted in this state; or when any advertisement, promotion, or solicitation is made in this state with respect to subdivided lands located outside this state.

(2) A written application for registration as a subdivider shall be filed in the office of the board in such form as the board may prescribe, verified by oath, which shall state the principal office of the applicant, wherever situated, and the location of the principal office and all branches in this state, if any, the names or style of doing business, the names, residences and business addresses of all persons interested in the business as principals, copartners, officers and directors; specifying as to each his capacity and title, the general plan and character of business and a resume of the applicant's background and experience. The board may require such additional information as to applicant's previous history, record and association as it deems necessary to establish the good repute in business of the applicant.

(3) If the board finds that the applicant is of good moral repute, and has not been convicted of a felony in this state or in any other state, or in the United States courts and has complied with the provisions of this chapter, including the payment of fees hereinafter provided, the board shall issue a registration certificate to the said applicant; provided that if the applicant is not a natural person, its managing and executive officers shall meet the qualifications set out herein except for the payment of fees, and further provided, that if the person has been convicted of a felony, such conviction shall not be considered if the person has been restored to his civil rights.

Each subdivider's certificate issued hereunder shall be renewed annually upon the payment of a fee not to exceed one hundred dollars on or before January 31 in each succeeding year.

(5) No person shall sell or offer for sale subdivided land by way of installment land sales contracts as a salesman until he has obtained a certificate of registration as a salesman from the board; said certificate shall be granted by the board after a showing by the applicant that he is of good moral repute; is familiar with the installment land sales law, and furnishes proof that he is licensed by the Florida real estate commission as an active broker or salesman, provided this section shall not apply to salesmen in other states, territories or countries selling or offering for sale in such other states, territories or countries, subdivided lands in this state, if such salesman is authorized to make sales or offers of sales of real estate in the state, territory, or country in which he makes such sales or offers for sale.

(6) Each application filed for registration as a salesman shall be accompanied by a filing fee not to exceed five dollars, said fee being nonrefundable. (b) By means of any radio or television broadcast, or

(c) By means of any written or printed or photographic matter produced by any duplicating process producing ten copies or more, any information offering for sale or for the purpose of causing or inducing any other person to purchase or to acquire an interest in the title to subdivided lands by the use of an installment land sales contract without first filing with the board full and complete copies or descriptions of said information to be published, including the installment land sales contract to be used and any photographs or drawings or artist's representations of physical conditions or facilities on the property existing or to exist, and obtaining the board's approval of such information.

(2) In addition to the information required to be filed under subsection (1), the persons filing shall also file supporting data in the form of vicinity maps, plats, affidavits of the person filing and of disinterested persons, questionnaires and such other documents as may be required by the rules and regulations of the board to show that said information is neither false nor misleading and that the person filing has made a full and fair disclosure.

(3) The initial filing fee for each subdivision shall not exceed one hundred fifty dollars for subdivisions comprising less than one hundred lots, parcels, or units of land plus a fee not to exceed one dollar for each lot, parcel, or unit over one hundred up to and including one thousand lots, parcels, or units and fifty cents per lot, parcel, or unit in excess of one thousand.

(4) Upon the occasion of each subsequent filing of additional information relating to a subdivision for which an initial filing has been made under this section, a fee of ten dollars shall be paid and the board may require such further or other supporting data as may be deemed necessary at the time of the subsequent filing.

(5) The Florida real estate commission shall

transfer to the board all pertinent records on file with the commission and, on September 1, 1963, all registrants who have filed with the Florida real estate commission any advertising material relating to subdivided lands from which sales are being made pursuant to the provisions of the existing law, shall pay to the board a fee of one hundred fifty dollars for each subdivision in lieu of the fee required by subsection (3).

History.—§13, ch. 63-129.

478.141 Inquiry, inspection and investigation.—

(1) When an initial or subsequent filing is made, the board shall cause such inquiry, inspection and investigation to be made as is deemed necessary to determine whether the information makes full and fair disclosure or is false and misleading.

(2) In making any determination that information makes full and fair disclosure, the board shall review such information and all supporting data, together with facts discovered upon inquiry, inspection and investigation, to ascertain:

(a) Whether the representation of the characteristics of the land, improvements, either existing or proposed, ownership and other matters set forth in said information are couched in such language and form as to fully and fairly inform rather than to mislead prospective purchasers and

(b) Whether the publication or dissemination of said information is in furtherance of any land fraud, or swindle or

(c) Whether the plan of sale or development lacks reasonable and adequate safeguards to reasonably assure purchasers that they can receive the kind and quality of title and improvements called for in their purchase contract or agreement.

(3) An initial filing shall be approved or disapproved by the board within forty-five days from the date of filing, provided, however, that in the event the board fails to approve or disapprove such information within forty-five days, the person filing may publish or cause to be published or distributed all information which has been properly filed.

(4) Any subsequent filing shall be approved or disapproved by the board within ten days from the date of filing, provided, however, that in the event the board fails to approve or disapprove such information within ten days, the person filing same may publish or cause to be published or distributed all information which has been properly filed.

(5) The provisions of subsections (3) and (4) to the contrary notwithstanding, the board may at any time for good and sufficient cause shown after reasonable notice and hearing, enter an order of disapproval of information or advertising filed.

(6) Upon the occasion of all initial filings in proper form as required by the board, the board shall promptly place the information and all supporting data in its files and assign an identifying designation by number, letter or

other suitable means, to said file. The board shall promptly inform the person filing that the information is properly filed, and the identifying designation assigned. The forty-five day period provided in subsection (3) shall commence to run from the date of filing with the board.

Such bond shall remain in full force and effect so long as any obligations of such licensee to the state shall remain unsatisfied.

History.—§5, ch. 20446, 1941.

479.07 Individual device permits; fees; tags.—

(1) Except as in this chapter otherwise

provided, no person shall construct, erect, operate, use, maintain, or cause or permit to be constructed, erected, operated, used or maintained any outdoor advertising structure, outdoor advertising sign or outdoor advertisement, outside any incorporated city or town, without first obtaining a permit therefor from the chairman, and paying the annual fee therefor, as herein provided. Permits for each calendar year shall be made available by the chairman for purchase not later than the preceding July 1. The chairman shall not issue such a permit to any person in the business of outdoor advertising who has not obtained the license provided for in §479.04.

(2) Applications for permits for advertising structures, advertising signs or advertisements shall be made on forms provided by the chairman and shall be signed by the applicant or his duly authorized representative. Said applications shall set forth the number of permits for which application is made, the sizes of all advertising structures, advertising signs or advertisements included in the application, and the amounts of the annual permit fees. Every application for permit shall be accompanied by payment of the fee for each advertising structure, advertising sign or advertisement included in the application, which fee shall be based on the size of the advertising structure, advertising sign or advertisement as follows: Four lineal feet or less one dollar; over four lineal feet two dollars per eight lineal feet or fraction thereof above four. The size in lineal feet shall be determined by measuring the width or the height, whichever is greater of the advertising structure, advertising sign or advertisement, including all boards, lattice work, borders, flags, decorative parts, devices or other attachments, except and exclusive of the essential structural supports. Application shall also be made in like manner for a permit to operate, use, maintain or display any existing advertising structure, advertising sign or advertisement. No fee may be prorated for a period less than the remainder of the permit year to accommodate short term publicity features; however, all first year fees may be prorated by the payment of an amount equal to one fourth of the annual fee for each remaining whole quarter or part quarter of the permit year ending on January 1, provided that any aggregate payment of prorated fees amounting to less than five dollars and submitted with a single application shall be accompanied by a service fee of one dollar.

(3) Permits issued hereunder shall expire on January 1 of each year. On or before December 1 of each year the chairman shall prepare and send to each licensee and permittee a notice of all licenses and permits of said licensee or permittee which were issued prior to December 1 and which shall expire on January 1. Such notice shall be itemized to indicate the amount of the state license fee, the amounts of county license fees, the names of all counties to which the county license fees

are applicable, and the number of permits and permit fees of each size.

(4) For every permit issued the chairman shall deliver to the applicant a serially numbered metal permit tag which shall indicate the year for which the permit is valid and the size of the advertising structure, advertising sign or advertisement. The permittee shall attach a currently valid permit tag to each advertising structure, advertising sign or advertisement which he owns and which is required to be permitted wherever located within the state outside the limits of any incorporated city or town. Such tag shall indicate the amount of permit fee for the advertising structure, advertising sign or advertisement to which it is attached. The tag shall be attached to the face of the advertising structure, advertising sign or advertisement on the end nearest the highway in a manner that shall cause it to be plainly visible. The construction, erection, use or maintenance of any advertising structure, advertising sign or advertisement which is required by this chapter to be permitted, without having affixed thereto a currently valid permit tag shall be prima facie evidence that the same has been constructed or erected and is being operated, used or maintained in violation of the provisions of this chapter, and shall be subject to removal by legal representatives of the state road department. No person shall paint, alter, mutilate, deface or change the color of a permit tag and no one other than the owner of such tag or his lawful representative shall remove such tag from the advertising structure, advertising sign or advertisement to which it has been affixed. Any person violating this provision shall be guilty of a misdemeanor.

(5) If more than one side of an advertising structure, advertising sign or advertisement is used for advertising, a fee for each such side shall be required. Advertisements sculptured in the round shall be treated as using three sides.

(6) No person shall erect or cause to be erected an advertising structure, advertising sign or advertisement upon the property of another without first securing the written permission of the owner or lessee of said property.

479.08 Revocation of permit.—

(1) The chairman may after thirty days notice in writing to the permittee, revoke any permit issued by him under §479.07 upon repayment of a proportionate part of the fee in any case where it shall appear to the chairman that the application for the permit contains knowingly false or misleading information or that the permittee has violated any of the provisions of this chapter unless such permittee shall, before the expiration of said thirty days, correct such false or misleading information and comply with the provisions of this chapter. If the construction, erection, operation, use, maintenance and display of any advertisement, advertising sign or adver-

tising structure for which a permit is issued by the chairman and the permit fee has been paid as above provided, shall be prevented by any zoning board, commission or other public agency which also has jurisdiction over the proposed advertisement, advertising sign or advertising structure or its site, the fee for such advertisement, advertising sign or structure shall be returned by the chairman and the permit revoked. But one half of the fee shall be deemed to have accrued upon the erection of advertising sign or advertising structure or the display of an advertisement followed by an inspection by the chairman or his representatives.

(2) Any person aggrieved by any action of the chairman in refusing to grant or in revoking a permit under §479.07 may, within thirty days from the date of such refusal or revocation apply to the circuit court for a declaratory decree as to the validity of said order of revocation as provided by chapter 87.

484.01 State board of dispensing opticians; jurisdiction; scope of law.—There is hereby created a board to be known as the state board of dispensing opticians, which shall have exclusive jurisdiction over the trade or occupation of dispensing opticians. This chapter provides for the examination and regulation of dispensing opticians; provides a license tax and an occupational tax on persons, partnerships or corporations now or hereinafter engaged in such trade or occupation; prohibits the sale of eyeglasses, spectacles, artificial eyes, lenses, contact lenses and optical devices, except as herein provided, unless and until the dispensing optician has qualified with and obtained a license from the said state board of dispensing opticians; this chapter also provides for the licensing of dispensing opticians having a license to practice and trade on June 8, 1949; this chapter also prescribes the manner of enforcing the provisions of this chapter and fixes the penalties for the violation of the terms and provisions thereof; the said chapter defines the jurisdiction, limitation and powers of said state board of dispensing opticians. Natural persons, partnerships or corporations may engage in the trade or occupation of dispensing opticians, but each place of business maintained in the state shall have a duly licensed dispensing optician to supervise the preparing, fitting and adjusting of optical devices.

History.—Comp. §1, ch. 25255, 1949.

484.02 Dispensing optician defined.—A dispensing optician is defined as one who prepares and dispenses lenses, spectacles, eyeglasses and optical devices to the intended user thereof on the written prescription of a physician or optometrist, duly licensed to practice his profession. A dispensing optician may duplicate lenses without prescription, provided, however, that such duplication shall be exact as to type, form and effective power and provided, further, that said dispensing optician shall not engage in the diagnosis of the diseases of the human eye or attempt to determine the refractive powers of the human eyes or, in any manner, attempt to prescribe for or treat diseases or ailments of human beings. A dispensing optician who qualifies under this chapter shall be determined and recognized as engaging in a lawful trade or occupation in the state. The state board of dispensing opticians shall have exclusive jurisdiction in the enforcement of this chapter over all persons,

partnerships or corporations engaged in business as a dispensing optician, whether licensed or unlicensed; provided, however, that nothing herein contained shall be construed as limiting or in anywise abrogating the power or authority of any board or commission created under any of the Laws of Florida, defining and regulating any profession, to enforce the provisions of such respective laws, or exercising any of the powers contained in such laws against violators thereof, even though engaged in the business of a dispensing optician.

History.—Comp. §2, ch. 25255, 1949.

484.03 Application for license; examination; oath.—

(1) Any person wishing to obtain the right to practice the trade or occupation of dispensing optician as hereinbefore defined shall, before it shall be lawful for him to do so in the state, make application to the Florida state board of dispensing opticians, upon such form and in such manner as shall be adopted and prescribed by said board, and obtain a license from the board so to do. Unless such person shall have obtained a license as aforesaid, it shall be unlawful for him to practice the trade or occupation of dispensing optician in the state and he shall be subject to the penalties hereinafter prescribed. The board shall admit to examination any candidate who pays the fee provided for in this chapter and submits evidence satisfactory to the board, verified on oath, that

(2) Applicants for examination may be examined by the said board upon matters pertaining to mathematics and physics, ophthalmic materials and laboratory technique, ophthalmic optics, ophthalmic dispensing and practical sub-

jects. When any applicant passes the necessary examination and meets the qualifications hereinabove set forth, the state board of dispensing opticians shall issue a license to such person to practice the trade or occupation of dispensing optician. Such license shall be conspicuously displayed in the office or place of business of the dispensing optician and it shall not be necessary to remove the same so long as such dispensing optician continues to practice his trade or occupation in the state and said license is not revoked or suspended by the state board of dispensing opticians.

History.—Comp. §3, ch. 25255, 1949.

484.04 State board to prepare examination; fee.—Examination of applicants for license to practice the trade or occupation of dispensing optician shall be made by the state board of dispensing opticians, consisting of five licensed dispensing opticians, according to the methods and covering subject matter deemed by it to be the most practical and expeditious to test the applicant's qualifications. The board may require the examination to be both written and oral. There shall be paid to the secretary-treasurer of the board by each applicant for license an examination fee of twenty-five dollars, which is accompanied by the application. No part of any fee is returnable under any circumstances.

History.—Comp. §4, ch. 25255, 1949.

The members of said board shall be appointed by the governor of the state and each such appointee shall hold office for a period of four years, or until his successor is appointed and qualified, except as hereinafter provided. Said board shall, however, provide for meetings at least once each year for the purpose of receiving applications and giving examinations as above provided and may meet at other times and at such places as the board shall designate from time to time or fix by regulations. The state board of dispensing opticians may administer oaths, summon witnesses, take testimony in all matters relating to its duties. Said board shall issue license to practice the trade or occupation of dispensing optician to all persons who shall furnish satisfactory evidence of attainments and qualifications under the provisions of this chapter and the rules and regulations of the board, such license shall be signed by the chairman and attested by the secretary-treasurer of the board under its adopted seal and it shall give absolute authority to the person to whom it is issued, to practice the trade or occupation of dispensing optician in this state.

optician shall pay to the secretary of the state board of dispensing opticians a sum to be fixed annually by said board, of not less than ten dollars nor more than twenty-five dollars, as a renewal of the license fee. Should any licensed dispensing optician fail to pay said fee after notice from the secretary by registered mail, and continue to practice optical dispensing, he shall be punished in the same way as provided in this chapter for misdemeanors. Members of the board shall receive ten dollars per day, or any part of a day, while attending official board meetings, not to exceed twelve meetings per year, and shall receive per diem and mileage as provided in §112.061, from place of their residence to place of meeting and return; the secretary-treasurer shall be reimbursed for all expenses incurred by him in the keeping of the records of the board and the carrying on of the business of the board directed to be done by him. imprisonment of not more than six months in the county jail, or both. This chapter, however, shall not apply to licensed physicians or optometrists licensed under the laws of the state and who, on June 8, 1949, shall be engaged in optical dispensing. This chapter, however, shall not now or hereafter apply to physicians or optometrists licensed under the laws of the state, nor shall such licensed physicians or optometrists be subject to the jurisdiction of the state board of dispensing opticians herein created.

(a) Any pesticide which has not been registered pursuant to the provisions of §487.04, or any pesticide if any of the claims made for it or any of the directions for its use differ in substance from the representations made in connection with its registration or if the composition of the pesticide differs from its composition as represented in connection with its registration; provided, that, in the discretion of the commissioner, a change in the labeling or formula of a pesticide may be made within a registration period without requiring reregistration of the product.

(b) Any pesticide unless it is in the registrant's or the manufacturer's unbroken immediate container and there is affixed to such container, and to the outside container or wrapper of the retail package, if there be one, through which the required information on the immediate container cannot be clearly read, a label bearing—

1. the name and address of the manufacturer and/or the registrant;

2. the name, brand or trademark under which said article is sold;

3. the net weight or measure of the contents, subject, however, to such reasonable variations as the commissioner may permit.

(c) If highly toxic to man and its container is not made of such material, and closed in such manner, that there is no leakage or dusting out when shipped, stored or handled.

(d) Any pesticide which contains any substance or substances in quantities highly toxic to man, determined as provided in §487.05, unless the label shall bear, in addition to any other matter required by this chapter,

1. the skull and crossbones;

2. the word "poison" prominently, in red, on a background of distinctly contrasting color;

3. a statement of an antidote for the pesticide.

(e) The pesticides commonly known as standard lead arsenate, basic lead arsenate, calcium arsenate, magnesium arsenate, zinc arsenate, zinc arsenite, sodium fluoride, sodium fluosilicate, and barium fluosilicate, unless they have been distinctly colored or discolored as provided by regulations issued in accordance with this chapter, or any other white powder pesticide which the commissioner, after investigation of and after public hearing on the necessity for such action for the protection of the public health and the feasibility of such coloration or discoloration, shall, by regulation, require to be distinctly colored or discolored; unless it has been so colored or discolored; provided, that the commissioner may exempt any pesticide to the extent that it is intended for a particular use or uses from the coloring or discoloring required or authorized by this section if he determines that such coloring or discoloring for such use or uses is not necessary for the protection of the public health.

(f) Any pesticide which is adulterated or misbranded, (or any device which is misbranded.)

(g) It shall be unlawful for any person to detach, alter, deface, or destroy, in whole or in part, any label or labeling provided for in this chapter or regulations promulgated hereunder, or to add any substance to, or take any substance from, a pesticide in a manner that may defeat the purpose of this chapter.

(2) It shall be unlawful for any person to use for his own advantage or to reveal, other than to the commissioner or proper officials or employees of the state or to the courts of this state in response to a subpoena, or to physicians, or in emergencies to pharmacists and other qualified persons, for use in the preparation of antidotes, any information relative to formulas of products acquired by authority of §487.04.

(1) Every pesticide which is distributed, sold or offered for sale within this state or delivered for transportation or transported in intrastate commerce or between points within this state through any point outside this state shall be registered in the office of the commissioner, and such registration shall be renewed annually. The registrant shall file with the commissioner a statement including:

(a) The name and address of the registrant and the name and address of the person whose name will appear on the label, if other than the registrant;

(b) The name of the pesticide;

(c) An ingredient statement and a complete copy of the labeling accompanying the pesticide which shall conform to the registration and a statement of all claims to be made for it including directions for use and a guaranteed analysis showing the names and percentages by weight of each active ingredient, the total percentage of inert ingredients, and the names and percentages by weight of each "added ingredient" contained therein; provided, that if it is a household pesticide and is not highly toxic to man, the label statement may name each active ingredient in the descending order of its predominance, together with the name of each and the total percentage of the inert ingredients. When compounds of metallic elements are an active ingredient of the pesticide, the guarantee shall be made in terms of the metallic element. If free sulphur is present as dusting sulphur, it must be guaranteed as to fineness.

(2) Persons registered to manufacture or sell pesticides, under the provisions of this chapter, may make and sell special lots of pesticides not already registered with the commissioner, provided that request for registration of such special lot of pesticide is mailed to the commissioner on the same day the lot is made.

(3) In case a manufacturer discontinues the manufacturing or distribution of a pesticide, which has been registered in this state, he will be required to continue registration of this pesticide until no more remains on the retailer's shelves, or not to exceed two years from date of discontinuance.

(4) For the purpose of defraying expenses of the commissioner of agriculture and state chemist in connection with carrying out the provisions of this chapter, each person manufacturing or importing for sale any pesticide within this state shall register each and every brand of such pesticide, giving the information required above. The registrant, if a manufacturer or importer, shall pay a registration fee of ten dollars for each and every brand registered annually, for the first ten brands, and two dollars and fifty cents for each and every brand in excess thereof; provided, that manufacturers or importers who have paid the required license fee under chapter 17992 for the year 1953 may register all additional brands

for two dollars and fifty cents each for the remainder of 1953. All registrations expire on December 31 of each year and new registrations must be filed before January 15 of the current year. Nothing in this section shall be construed as applying to jobbers or retail dealers selling pesticides when such pesticides have been registered by manufacturer or importer.

(5) The commissioner, whenever he deems it necessary in the administration of this chapter, may require the submission of evidence of the efficiency of any pesticide. This evidence shall be examined by the technical committee who shall make recommendations to the commissioner as to whether or not it should be accepted for registration. After the technical committee has made its recommendation, the commissioner may register or refuse to register the pesticide. However, before registration is refused the commissioner shall notify the applicant of his intention to refuse, giving his reasons therefor. The applicant shall have fifteen days thereafter in which to request a hearing on his application for registration, and upon his failure to do so refusal shall become final. The commissioner, for reasons of adulteration, misbranding or other good cause may refuse or revoke the registration of any pesticide, upon notice to the applicant or registrant of his intention to so refuse or revoke, giving his reasons therefor. The applicant shall have fifteen days thereafter in which to request a hearing on the commissioner's intention to refuse or revoke registration and upon his failure to do so refusal or revocation shall become final. In no event shall registration of a pesticide be construed as a defense for the commission of any offense prohibited under §487.03.

The pesticide technical committee is hereby authorized to recommend rules and regulations pertaining to the composition and use of pesticides as defined in this chapter without limiting the foregoing general terms.

(5) The commissioner of agriculture or any member of the pesticide technical committee or any firm or corporation, manufacturing, offering for sale, selling, consuming, or otherwise using commercial pesticides in the state may propose a rule or regulation and such proposal shall be acted upon by the pesticide technical committee within a reasonable time, not exceeding ninety days, after it is filed with the state chemist. Any firm or corporation, with officers or agent in the state, interested in the manufacture or sale of commercial pesticides in the state may file its name and address with the state chemist and request that it be furnished with a copy of any proposed rule or regulation, and thereafter the state chemist shall not less than five days before a meeting of the pesticide technical committee for the consideration of the proposed regulation mail a copy of such proposed regulation to every firm so requesting same. Any such firm shall have the right to be fully heard in person or through an attorney by the technical committee upon any proposed rule or regulation.

(6) It shall be the duty of the commissioner of agriculture within a reasonable time to either approve or reject rules and regulations recommended to him by the pesticide technical committee, and if approved, to adopt and promulgate such rules and regulations under the classification of "technical rules and regulations." A majority of the members of the pesticide technical committee shall constitute a quorum; however, any official action by the said committee shall require four affirmative votes.

(7) It shall further be the duty of the technical committee to review and make recommendations to the commissioner on any registrations submitted to it by the commissioner or by the state chemist.

(8) The commissioner of agriculture is hereby authorized to make, adopt, and promulgate all rules and regulations under the

classification "administrative rules and regulations" which he shall deem necessary or helpful in the efficient administration and enforcement of this chapter.

(9) In order to avoid confusion endangering the public health, resulting from diverse requirements, particularly as to the labeling and coloring of pesticides, and to avoid increased costs to the people of this state due to the necessity of complying with such diverse requirements in the manufacture and sale of such pesticides, it is desirable that there should be uniformity between the requirements of the several states and the federal government relating to such pesticides. To this end, the commissioner is authorized to adopt by regulation such regulations applicable to and in conformity with primary standards established by this chapter, as have been or may be prescribed in the United States department of agriculture with respect to pesticides.

History.—§5, ch. 28214, 1953; (4)-(6) a. by §§1-3, ch. 59-244; (4)-(6) a. by §2, ch. 61-411.

487.06 Enforcement.—

(1) The examination of pesticides (or devices) shall be made under the direction of the state chemist for the purpose of determining whether they comply with the requirements of this chapter. If it shall appear from such examination that a pesticide (or device) fails to comply with the provisions of this chapter, and the commissioner contemplates instituting criminal proceedings against any person, the commissioner shall cause appropriate notice to be given to such person. Any person so notified shall be given an opportunity to present his views, either orally or in writing, with regard to such contemplated proceedings and if thereafter, in the opinion of the commissioner, it shall appear that the provisions of the chapter have been violated by such person, then the commissioner shall refer the facts to the (prosecuting attorney) for the county in which the violation shall have occurred, with a copy of the results of the analysis or the examination of such article; provided, however, that nothing in this chapter shall be construed as requiring the commissioner to report for prosecution or for the institution of libel proceedings minor violations of the chapter whenever he believes that the public interests will be best served by a suitable notice of warning in writing.

(2) It shall be the duty of each (prosecuting attorney) to whom any such violation is reported, to cause appropriate proceedings to be instituted and prosecuted in a court of competent jurisdiction without delay.

(3) The commissioner shall, by publication in such manner as he may prescribe, give notice of all judgments entered in actions instituted under the authority of this chapter.

History.—Comp. §6, ch. 28214, 1953.

487.07 Exemptions.—

(1) The penalties provided for violations of §487.03(1) (a) shall not apply to:

(2) An article when intended solely for export to foreign country, and when prepared or packed according to the specifications or directions of the purchaser. If not so exported, all the provisions of this chapter shall apply.

(3) Notwithstanding any other provision of this chapter, registration and tagging is not required in the case of a pesticide stored or shipped from one manufacturing plant within this state to another manufacturing plant within this state operated by the same person or from one manufacturer to another manufacturer, provided they are properly labeled whenever poison labels are required under §487.03(1)(d).

(4) Nothing in this chapter shall be construed to apply to any persons duly licensed or certified under chapter 482, in their performing any structural pest control, or other operation for which they are licensed or certified under said statutes, and provided further, that licensees under chapter 482 would not be required to register pesticides sold at retail if such pesticides are registered with the department of agriculture under the Florida pesticide act.

History.—Comp. §7, ch. 28214, 1953.

487.08 Tolerances, deficiencies and penalties.—

The commissioner of agriculture, or his duly authorized representative, may withhold from sale by stop sale notice any pesticide which does not meet the requirements of this chapter as follows:

- (a) In the case of a pesticide—
 1. if it is adulterated or misbranded;
 2. if it has not been registered under the provision of §487.04;
 3. if it fails to bear on its label the information required by this chapter;
 4. if it is a white powder pesticide and is not colored as required under this chapter;
 5. if highly toxic to man and the labeling or container does not meet the requirements of this chapter.

(b) In the case of a device, if it is misbranded.

(c) If the article is condemned, it shall, after entry of decree, be disposed of by destruction or sale as the court may direct and the proceeds, if such article is sold, less legal costs, shall be paid to the general inspection trust fund; provided, that the article shall not be sold contrary to the provisions of this chapter; and provided further, that upon payment of costs and execution and delivery of a good and sufficient bond conditioned that the article shall not be disposed of unlawfully, the court may direct that said article be delivered to the owner thereof for relabeling or repro-

cessing as the case may be; and provided, that when a pesticide (or device) has been found in violation of the provisions of this chapter, the owner or claimant may, in lieu of prosecution, surrender the article for confiscation and destruction to a duly appointed representative of the commissioner.

494.04 Licensing of mortgage brokers and mortgage solicitors.—

(1) No person shall act as a mortgage broker or mortgage solicitor without a license therefor as provided in this act.

(2) No mortgage broker's or mortgage solicitor's license shall be granted to any person who has not been a bona fide resident of the state for a period of at least six months immediately preceding the date of application for license, or who is not a citizen of the United States.

(3) Application for license as mortgage solicitor must be accompanied by the recommendation of the mortgage broker who is to be applicant's employer and who is to be responsible for applicant's actions.

(4) Each application for a license or for a renewal thereof shall be made in writing, on such forms and in such manner and accompanied by such evidence in support of such application as prescribed by the commissioner. The commissioner shall require such information with regard to the applicant as he may deem desirable, with due regard to the paramount interests of the public, as to the experience, background, honesty, truthfulness, integrity, and competency of the applicant as to financial transactions involving primary or subordinate mortgage financing, and where the ap-

plicant is a person other than an individual, as to the honesty, truthfulness, integrity, and competency of any officer or director of such corporation, association, or other group, or the members of such partnership.

(5) The license fee for a license year or part thereof ending the following August 31 shall be the sum of twenty-five dollars for a mortgage broker and fifteen dollars for a mortgage solicitor, which fees shall be deposited in the state treasury and are hereby appropriated to the comptroller to be used in administering this act.

(6) If the licensee is a person other than an individual, the license issued to it entitles one officer or member thereof, on behalf of the corporation, partnership, association, or other group, to engage in the business of mortgage broker, and such officer or member to be designated in the application for license. For each officer or member other than the officer so designated, through whom it engages in the business of mortgage broker, the annual fee shall be fifteen dollars in addition to the fee paid for the first license.

(7) Upon the filing of such application, and the payment of said fee, the commissioner shall, upon determination of proper qualifications issue a license to the applicant to act as a mortgage broker or mortgage solicitor under and in accordance with the provisions of this act for a period which shall expire the last day of August next following the date of its issuance. Such license shall not be transferable or assignable.

(8) When a mortgage broker's license is issued to a person other than an individual, if it desires any of its officers or members other than the officer or member designated by it to act on behalf of the corporation, partnership, association or other group, as a mortgage broker, it may procure an additional license to so employ each of such additional officers or members. Each additional officer or member so licensed shall be licensed only to act as a mortgage broker for and on behalf of the corporation, partnership, association or other group.

(9) The licenses of both mortgage broker and mortgage solicitor shall be prominently displayed in the office of the mortgage broker. The bond shall run to the state for the benefit of any person injured by the wrongful act, default, fraud or misrepresentation of the broker and/or its solicitors. (4) No license shall be suspended or revoked except after a hearing thereon. 500.02 Purpose of chapter.—This chapter is intended (1) to safeguard the public health and promote the public welfare by protecting the consuming public from injury by product use and the purchasing public from injury by merchandising deceit, flowing from intra-state commerce in food, drugs, devices, and cosmetics; and (2) to provide legislation which shall be uniform, as provided in this chapter, and administered so far as practicable in conformity with the provisions of and regulations issued under the authority of the federal food, drug and cosmetic act; and likewise uniform with the federal trade commission act, to the extent that it expressly prohibits the false advertisement of food, drugs, devices and cosmetics; and (3) to promote thereby uniformity of such state and federal laws and their administration and enforcement, throughout the United States and in the several states.

History.—§1, ch. 19656, 1939; CGL 1940 Supp. 4151(665).

(10) The term "labeling" means all labels and other written, printed, or graphic matters (a) upon an article or any of its containers or wrappers, or (b) accompanying such article.

its intended use; except that such term does not include:

(a) A pesticide chemical in or on a raw agricultural commodity; or

(b) A pesticide chemical to the extent that it is intended for use or is used in the production, storage, or transportation of any raw agricultural commodity; or

(b) The term "color" includes black, white and intermediate grays.

(c) Nothing in paragraph (a) shall be construed to apply to any pesticide chemical, soil or plant nutrient, or other agricultural chemical solely because of its effect in aiding, retarding, or otherwise affecting, directly or indirectly, the growth or other natural physiological process of produce of the soil and thereby affecting its color, whether before or after harvest.

500.05 Injunction to restrain violations.—In addition to the remedies herein provided the commissioner may apply to a circuit court for, and such court shall have jurisdiction upon hearing and for cause shown to grant a temporary or permanent injunction restraining any person from violating any provision of §500.04; irrespective of whether or not there exists an adequate remedy at law.

History.—§4, ch. 19656, 1939; CGL 1940 Supp. 4151(668). cf.—§500.32, Penalty for violations.

500.06 Embargoing, destroying, etc., of adulterated or misbranded articles.—

(1) When a duly authorized agent of the commissioner finds, or has probable cause to believe, that any food, drug, device, or cosmetic is adulterated, or so misbranded as to be dangerous or fraudulent, within the meaning of this chapter, he shall affix to such article a tag or other appropriate marking giving notice that such article is, or is suspected of being, adulterated or misbranded and has been detained or embargoed, and warning all persons not to remove or dispose of such article by sale or otherwise until permission for removal or disposal is given by such agent or the court. It is unlawful for any person to remove or dispose of such detained or embargoed article by sale or otherwise without such permission.

(2) When an article detained or embargoed under subsection (1) has been found by such agent to be adulterated, or misbranded, he shall

within a reasonable period of time after the affixing of such notice, petition the judge of the municipal court, county court, criminal court of record, or circuit court in whose jurisdiction the article is detained or embargoed for an order for condemnation of such article. When such agent has found that an article so detained or embargoed is not adulterated or misbranded, he shall remove the tag or other marking.

(3) If the court finds that a detained or embargoed article is adulterated or misbranded, such article shall, after entry of the decree, be destroyed at the expense of the claimant thereof, under the supervision of such agent; and all court costs and fees and storage and other proper expenses, shall be taxed against the claimant of such article or his agent; provided that when the adulteration or misbranding can be corrected by proper labeling of the article and after such costs, fees, and expenses have been paid and a good and sufficient bond, conditioned that such article shall be so labeled or processed, has been executed, the court may by order direct that such article be delivered to the claimant thereof for such labeling or processing under the supervision of an agent of the commissioner. The expense of such supervision shall be paid by the claimant. Such bond shall be returned to the claimant of the article on representation to the court by the commissioner that the article is no longer in violation of this chapter, and that the expenses of such supervision have been paid.

(4) When the commissioner or any of his authorized agents shall find in any room, building, vehicle of transportation or other structure, any meat, seafood, poultry, vegetable, fruit or other perishable articles which are unsound or contain any filthy, decomposed or putrid substances, or that may be poisonous or deleterious to health or otherwise unsafe, the same being hereby declared to be a nuisance, the commissioner, or his authorized agent, shall forthwith condemn or destroy the same, or in any other manner render the same unsalable as human food.

History.—§6, ch. 19656, 1939; CGL 1940 Supp. 4151(669).
(2) a. by §18, ch. 59-302.

500.07 Duty of prosecuting officer.—Each state attorney, county attorney, or city attorney to whom the commissioner reports any violation of this chapter, shall cause appropriate proceedings to be instituted in the proper courts without delay and to be prosecuted in the manner required by law. Before any violation of this chapter is reported to any such attorney for the institution of a criminal proceeding, the person against whom such proceeding is contemplated shall be given appropriate notice and an opportunity to present his views before the commissioner or his designated agent, either orally or in writing, in person or by attorney, with regard to such contemplated proceeding.

History.—§7, ch. 19656, 1939; CGL 1940 Supp. 4151(670).

500.08 Minor violations not required to be

reported.—Nothing in this chapter shall be construed as requiring the commissioner to report, for the institution of proceedings under this chapter, minor violations of this chapter, when the commissioner believes that the public interest will be adequately served in the circumstances by a suitable written notice or warning.

History.—§8, ch. 19656, 1939; CGL 1940 Supp. 4151(671).

500.09 The commissioner of agriculture may promulgate regulations.—When in the judgment of the commissioner such action will promote honesty and fair dealing in the interest of consumers, the commissioner of agriculture with the advice and consent of the state chemist shall promulgate regulations fixing and establishing for any food or class of food under its common or usual name so far as practicable a reasonable definition and standard of identity, or reasonable standard of quality or fill of container, or reasonable sanitary regulations governing the manufacture, processing or handling of such food products. In the prescribing of any standard of quality for any canned fruit or canned vegetable, consideration shall be given and due allowance made for the differing characteristics of the several varieties of such fruit or vegetable. In prescribing a definition and standard of identity for any food or class of food in which optional ingredients are permitted, the commissioner of agriculture with the advice and consent of the state chemist shall, for the purpose of promoting honesty and fair dealing in the interest of consumers, designate the optional ingredients which shall be named on the label. The definitions and standards so promulgated shall conform so far as practicable to the definitions and standards promulgated by the secretary of the United States department of agriculture under authority conferred by §401 of the federal act.

History.—§9, ch. 19656, 1939; CGL 1940 Supp. 4151(672).

500.10 Food deemed adulterated.—A food is deemed to be adulterated:

(1) (a) If it bears or contains any poisonous or deleterious substance which may render it injurious to health; but in case the substance is not an added substance such food shall not be considered adulterated under this clause if the quantity of such substance in such food does not ordinarily render it injurious to health; or

(b) If it bears or contains any added poisonous or added deleterious substance, other than one which is a pesticide chemical in or on a raw agricultural commodity; a food additive; or a color additive, which is unsafe within the meaning of §500.13(1)(a) or

(c) If it is a raw agricultural commodity and it bears or contains a pesticide chemical which is unsafe within the meaning of §408 (a) of the federal act as amended or §500.13(1) or

(d) If it is or it bears or contains, any food additive which is unsafe within the meaning of §409 of the federal act as amended, or §500.13(1); provided that where a pesticide chemical has been used in or on a raw agricultural commodity

in conformity with an exemption granted or tolerance prescribed under §408 of the federal act, or §500.13 (1), and such raw agricultural commodity has been subjected to processing such as canning, cooking, freezing, dehydrating, or milling, the residue of such pesticide chemical remaining in or on such processed food shall, notwithstanding the provisions of §500.13, and this paragraph, not be deemed unsafe if such residue in or on the raw agricultural commodity has been removed to the extent possible in good manufacturing practice, and the concentration of such residue in the processed food when ready to eat, is not greater than the tolerance prescribed for the raw agricultural commodity; or

(e) If it consists in whole or in part of a diseased, contaminated, filthy, putrid, or decomposed substance, or if it is otherwise unfit for food; or

(f) If it has been produced, prepared, packed, or held under insanitary conditions whereby it may become contaminated with filth, or whereby it may have been rendered diseased, unwholesome, or injurious to health; or

(g) If it is the product of a diseased animal or an animal which has died otherwise than by slaughter, or that has been fed upon the uncooked offal from a slaughter house, or

(h) If its container is composed, in whole or in part, of any poisonous or deleterious substance which may render the contents injurious to health.

(2) (a) If any valuable constituent has been in whole or in part omitted or abstracted therefrom; or (b) if any substance has been substituted wholly or in part therefor; or (c) if damage or inferiority has been concealed in any manner; or (d) if any substance has been added thereto or mixed or packed therewith so as to increase its bulk or weight, or reduce its quality or strength or make it appear better or of greater value than it is.

(3) If it is confectionery and it bears or contains any alcohol or non-nutritive article or substance except harmless coloring, harmless flavoring, harmless resinous glaze not in excess of four-tenths of one per cent, harmless natural gum, and pectin; provided, that this paragraph shall not apply to any confectionery by reason of its containing less than one half of one per cent by volume of alcohol derived solely from the use of flavoring extracts, or to any chewing gum by reason of its containing harmless non-nutritive masticatory substances.

(4) If it is or bears or contains any color additive which is unsafe within the meaning of the federal act or §500.13.

History.—§10, ch. 19656, 1939; CGL 1940 Supp. 4151(678); (1), (4) §2, ch. 63-259.
cf.—§865.07, Adulterated syrup.

500.11 Food deemed misbranded.—

A food is deemed to be misbranded—

(1) If its labeling is false or misleading in any particular; provided, however, that corn meal shall not be considered misbranded be-

cause of its being labeled "Water Ground," where such corn meal so labeled shall have been ground on rocks having a diameter of not less than forty-two inches and which revolves during the grinding of same at a speed not greater than one hundred and eighty-six revolutions per minute.

(2) If it is offered for sale under the name of another food.

(3) If it is an imitation of another food, unless its label bears, in type of uniform size and prominence, the words "imitation" and, immediately thereafter, the name of the food imitated.

(4) If its container is so made, formed, or filled as to be misleading.

(5) If in package form, unless it bears a label containing

(a) The name and place of business of the manufacturer, packer, or distributor;

(b) An accurate statement of the quantity of the contents in terms of weight, measure or numerical count; provided, that under paragraph (b) of this subsection reasonable variations shall be permitted, and exemptions as to small packages shall be established, by regulations prescribed by the commissioner.

(6) If any word, statement, or other information required by or under authority of this chapter to appear on the label or labeling is not prominently placed thereon with such conspicuousness (as compared with other words, statements, designs, or devices, in the labeling) and in such terms as to render it likely to be read and understood by the ordinary individual under customary conditions of purchase and use.

(7) If it purports to be or is represented as a food for which a definition and standard of identity has been prescribed by regulations as provided by §500.09, unless (a) it conforms to such definition and standard, and (b) its label bears the name of the food specified in the definition and standard, and, in so far as may be required by such regulations, the common names of optional ingredients (other than spices, flavoring and coloring) present in such food.

(8) If it purports to be or is represented as—

(a) A food for which a standard of quality has been prescribed by regulations as provided by §500.09 and its quality falls below such standard unless its label bears, in such manner and form as such regulations specify, a statement that it falls below such standard; or

(b) A food for which a standard or standards of fill of container have been prescribed by regulation as provided by §500.09 and it falls below the standard of fill of container applicable thereto, unless its label bears, in such manner and form as such regulations specify, a statement that it falls below such standard.

(9) If it is not subject to the provisions of

subsection (7) of this section, unless its label bears (a) the common or usual name of the food, if any there be, and (b) in case it is fabricated from two or more ingredients, the common or usual name of each such ingredient; except that spices, flavorings, and colorings, other than those sold as such, may be designated as spices, flavorings, and colorings, without naming each; provided, that, to the extent that compliance with the requirements of clause (b) of this subsection is impractical or results in deception or unfair competition, exemptions shall be established by regulations promulgated by the commissioner of agriculture with the advice and consent of the state chemist.

(10) If it purports to be or is represented for special dietary uses, unless its label bears such information concerning its vitamin, mineral, and other dietary properties as the commissioner determines to be, and by regulations prescribes as, necessary in order to fully inform purchasers as to its value for such uses.

(11) If it bears or contains any artificial flavoring, artificial coloring, or chemical preservative, unless it bears labeling stating that fact; provided, that to the extent that compliance with the requirements of this paragraph is impracticable, exemptions shall be established by regulations promulgated by the commissioner of agriculture with the advice and consent of the state chemist.

(12) Where a beverage food drink is offered for sale in sanitary glass containers, sealed or securely capped, impervious to contamination by leakage or contact with foreign substance, which containers are, after use of the product, successively refilled and reused by the manufacturer for the same purpose, and the trade name of such product, the net content, and declaration of artificial flavor or color, if used, at all times appear upon the cap, crown or lid of said container, and the manufacturer at least once every year, and oftener if required by the commissioner of agriculture, files in the office of said commissioner an affidavit stating the trade names of the beverages manufactured by him, and the territorial limits within the state in which said beverages are offered for sale, the provisions of this chapter requiring additional labeling or branding of said product shall not apply; provided always, however, that nothing in this subsection contained shall in any manner otherwise restrict, modify or impair the jurisdiction, right and power of the commissioner of agriculture, or of the state chemist, over, or upon or with reference to said food product and the conditions pertaining to its manufacture, nor shall anything herein contained authorize or permit misleading statements or deceptive trade names involving fruit juice or fruit concentrate beverages.

History.—§11, ch. 19656, 1939; CGL 1940 Supp. 4151(674); (1) §1, ch. 26723, 1951; (5) §1, ch. 28269, 1953; (5) §30, ch. 63-572. cf.—§502.28, Selling substitutes for butter. §601.99, Misbranding citrus fruit.

500.12 Permits to manufacturers, processors or packers.—

(1) When the commissioner finds after investigation that the distribution in the state of any class of food may, by reason of contamination with micro-organisms during manufacture, processing, or packing thereof in any locality, be injurious to health, and that such injurious nature cannot be adequately determined after such articles have entered commerce, he then, and in such case only, shall promulgate regulations providing for the issuance, to manufacturers, processors, or packers of such class of food in such locality, of permits to which shall be attached such conditions governing the manufacture, processing, or packing of such class of food, for such temporary period of time, as may be necessary to protect the public health; and after the effective date of such regulations, and during such temporary period, no person shall introduce or deliver for introduction into commerce any such food manufactured, processed, or packed by any such manufacturer, processor, or packer unless such manufacturer, processor, or packer holds a permit issued by the commissioner as provided by such regulations.

(2) The commissioner may suspend immediately upon notice any permit issued under authority of this section if it is found that any of the conditions of the permit have been violated. The holder of a permit so suspended may at any time apply for the reinstatement of such permit, and the commissioner shall, immediately after prompt hearing and an inspection of the establishment, reinstate such permit if it is found that adequate measures have been taken to comply with and maintain the conditions of the permit, as originally issued, or as amended.

(3) The state chemist or assistant state chemist or any officer or inspector duly designated by the commissioner shall have access to any factory or establishment the operator of which holds a permit from the commissioner, for the purpose of ascertaining whether or not the conditions of the permit are being complied with, and denial of access for such inspection shall be ground for suspension of the permit until such access is freely given by the operator.

(4) The commissioner shall promulgate regulations exempting from any labeling requirement of this chapter (a) small open containers of fresh fruits and fresh vegetables and (b) food which is, in accordance with the practice of the trade, to be processed, labeled, or repacked in substantial quantities at establishments other than those where originally processed or packed, on condition that such food is not adulterated or misbranded under the provisions of this chapter upon removal from such processing, labeling, or repacking establishment.

500.13 Addition of poisonous or deleterious substance to food.—

(1) Any added poisonous or deleterious substance, any food additive, any pesticide chemical in or on a raw agricultural commodity, or any color additive, shall, with respect to any particular use or intended use, be deemed unsafe for the purpose of application of §500.10 (1) (b) with respect to any food, unless there is in effect a regulation pursuant to subsection (2) limiting the quantity of such substance, and the use or intended use of such substance conform to the terms prescribed by such regulation. While such regulation relating to such substance is in effect, a food shall not, by reason of bearing or containing such substance in accordance with the regulation, be considered adulterated within the meaning of §500.10(1) (a).

(2) The commissioner, whenever public interest in the state so requires, is authorized to adopt, amend, or repeal regulations whether or not in accordance with regulations promulgated under the federal act, prescribing therein tolerances for any added poisonous or deleterious substances, for food additives, for pesticide chemicals in or on raw agricultural commodities or for color additives, including, but not limited to, zero tolerances, and exemptions from tolerances in the case of pesticide chemicals in or on raw agricultural commodities, and prescribing the conditions under which a food additive or color additive may be safely used and exemptions where such food additive or color additive is to be used solely for investigational or experimental purposes, upon his own motion or upon the petition of any interested party requesting that such a regulation be established, and it shall be incumbent upon such petitioner to establish by data submitted to the commissioner that a necessity exists for such regulation, and that its effect will not be detrimental to the public health. If the data furnished by the petitioner is not sufficient to allow the commissioner to determine whether such regulation should be promulgated, the commissioner may require additional data to be submitted and a failure to comply with the request shall be sufficient grounds to deny the request. In adopting, amending or repealing regulations relating to such substances the commissioner shall consider among other relevant factors, the following which the petitioner, if any, shall furnish:

(a) The name and all pertinent information concerning such substance including where available, its chemical identity and composition, a statement of the conditions of the proposed use, including directions, recommendations and suggestions and including specimens of proposed labeling, all relevant data bearing on the physical or other technical effect and the quantity required to produce such effect.

(b) The probable composition of, or other relevant exposure from the article and of any substance formed in or on a food, resulting from the use of such substance.

(c) The probable consumption of such sub-

stance in the diet of man and animals taking into account any chemically or pharmacologically related substance in such diet.

(d) Safety factors which, in the opinion of experts qualified by scientific training and experience to evaluate the safety of such substances for the use or uses for which they are proposed to be used, are generally recognized as appropriate for the use of animal experimentation data.

(e) The availability of any needed practicable methods of analysis for determining the identity and quantity of such substance in or on an article, any substance formed in or on such article because of the use of such substance, and the pure substance and all intermediates and impurities, and

(f) Facts supporting a contention that the proposed use of such substance will serve a useful purpose.

(2) If it purports to be or is represented as a drug the name of which is recognized in an official compendium, and its strength differs from, or its quality or purity falls below, the standard set forth in such compendium. Such determination as to strength, quality, or purity shall be made in accordance with the tests or methods of assay set forth in such compendium, or in the absence of or inadequacy of such tests or methods of assay, those prescribed under authority of the federal act. No drug defined in an official compendium shall be deemed to be adulterated under this subsection because it differs from the standard of strength, quality, or purity therefor set forth in such compendium, if its difference in strength, quality or purity from such standard is plainly stated on its label. Whenever a drug is recognized in both the United States pharmacopoeia and the homeopathic pharmacopoeia of the United States it shall be subject to the requirements of the United States pharmacopoeia unless it is labeled and offered for sale as a homeopathic drug, in which case it shall be subject to the

provisions of the homeopathic pharmacopoeia of the United States and not to those of the United States pharmacopoeia.

(3) If any word, statement, or other information required by or under authority of this chapter to appear on the label or labeling is not prominently placed thereon with such conspicuousness, as compared with other words, statements, designs or devices, in the labeling, and in such terms as to render it likely to be read and understood by the ordinary individual under customary conditions of purchase and use.

(4) If it is for use by man and contains any quantity of the narcotic or hypnotic substances alpha-eucaine, barbituric acid, beta-eucaine, bromal, cannabis, carbromal, chloral, coca, cocaine, codeine, heroin, marihuana, morphine, opium, paraldehyde, peyote, or sulfonmethane, or any chemical derivative of such substances, which derivative has been by the state health officer after investigation, found to be, and by regulations under this chapter, designated as habit-forming, unless its label bears the name and quantity or proportion of such substance or derivative and in juxtaposition therewith the statement Warning—May be habit-forming.

(7) If it purports to be a drug the name of which is recognized in an official compendium, unless it is packaged and labeled as prescribed therein; provided, that the method of packing may be modified with the consent of the state health officer. Whenever a drug is recognized in both the United States pharmacopoeia and the homeopathic pharmacopoeia of the United States, it shall be subject to the requirements of the United States pharmacopoeia with respect to packaging and labeling unless it is labeled and offered for sale as a homeopathic drug, in which case it shall be subject to the provisions of the homeopathic pharmacopoeia of the United States, and not to those of the United States pharmacopoeia.

(a) It is from a batch with respect to which a certificate has been issued pursuant to §507 of the federal act, and

(b) Such certificate is in effect with respect to such drug; provided, that this subsection shall not apply to any drug or class of drugs exempted by regulations promulgated under §507 (c) or (d) of the federal act.

(13)(a) If it is a drug intended for use by man which is a habit-forming drug, to which subsection (4) applies; or which because of its toxicity or other potentiality for harmful effect, or the method of its use, or the collateral measures necessary to its use, is not safe for use except under the supervision of a practitioner licensed by law to administer such drugs; or which is limited by an effective application under §505 of the federal act or §500.16 to use under the professional supervision of a practitioner licensed by law to administer such drug, unless it is dispensed only

This exemption shall not apply to any drug dispensed in the course of the conduct of a business of dispensing drugs pursuant to diagnosis by mail, or to any drug dispensed in violation of paragraph (a) of this subsection. Provided further, that the state health officer may, by regulation, remove drugs subject to subsection (4) of this section and 500.16, from the requirements of paragraph (a) of this subsection when such requirements are not necessary for the protection of public health.

501.01 Legislative finding; statement of policy.—This chapter is enacted in the exercise of the police power of the state, and its purpose generally is to protect the public health, safety and welfare. It is declared that the production and distribution of milk, cream and other milk products in the state is an industry upon which to a large degree, the prosperity and health of the people of the state depend, and that the present economic emergency is in part a result of the disparity between the prices of milk, cream and milk products and other commodities, which disparity has diminished the power of milk producers to purchase industrial products, and has broken down the orderly production and marketing of milk, cream and other milk products, and has seriously impaired the agricultural assets supporting the credit structure of the state and political subdivisions thereof; that unhealthy, unfair, unjust, destructive, demoralizing and uneconomic trade practices have grown up and have been carried on in the production, sale and distribution of milk, cream and milk products in this state which impair dairy industry in this state and imperil the constant supply of pure and wholesome milk to the inhabitants thereof, and constitute a menace to the health and welfare of the inhabitants of this state; that such conditions existed at the time of the creation of the milk control board and constituted a menace to the health welfare and reasonable comfort of the inhabitants of this state, and will again constitute such menace should all regulations as set forth in said law creating said board go out of existence. In order, therefore, to protect the well-being of our citizens, and to promote the public welfare, and in order to preserve the strength and vigor of the race, the production, transportation, manufacture, storage, distribution and sale of milk, cream and milk products in the state is declared to be a business affecting the public health and interest of its citizens; and the production, transportation, manufacture, storage, distribution and sale of milk, cream and milk products to be a paramount industry upon

which the prosperity of the state and the welfare of its citizens in a large measure depends. In order to correct abuses arising from the destructive and unfair manipulation of prices which are found to spring from a selfish disregard of the public interest in the manner of carrying on the dairy industry, which is an organized industry, it is found necessary to resort to the legislative remedy of regulating prices to save both producers and consumers from such manipulation of prices in the industry; because such practices amount to evils which menace the health, safety, and welfare of the people at large, this chapter is passed. It is further found that the acute economic emergency which existed at the time of the creation of the milk control board was partly the consequence of a severe and increasing disparity between the prices of milk and other commodities, as aforesaid stated; that such practices were and are curtailed by the existence of said board, but will immediately recur should said board and the regulations set up to be administered thereby pass out of existence; that the purchasing power of milk producers is in imminent danger of again being broken down and demoralized; that the danger to the public health and welfare is immediate and impending, the necessity urgent and such as will not admit of interruption in public supervision and control in accord with proper standards of production, sanitation and marketing; that it is therefore necessary that said business be supervised and regulated by proper legislation. The foregoing statement of fact, policy and application of this chapter are declared as a matter of legislative finding and determination.

501.04 Powers of milk commission.—The milk commission is declared to be an instrumentality of the state for the purpose of attaining the ends recited in the legislative findings, and may:

(1) Supervise and regulate the entire milk industry of the state, including the production, transportation, manufacture, storage, distribution, delivery and sale of milk, cream and milk products, in any market established by the commission in the state; provided, however, that nothing contained in this chapter shall be construed to abrogate or affect the status, force or operation of any provision of any law relating to public health or sanitation, the purity of food or food products, (the public health law, the public service law, the state sanitary code), milk products law, except as provided for in §501.09(4), state ice cream law, or any local health ordinance or regulation; and provided, further, that nothing in this chapter shall give the commission power to make rules or regulations prohibiting the giving away gratis of milk or milk products in cases of charity.

(2) Investigate all matters pertaining to the production, processing, storage, transportation, distribution and sale of milk in the state.

(3) Act as mediator or arbitrator in any controversial issue that may arise among or between milk producers, distributors and producer-distributors as between themselves or that may arise between them as groups. This provision is not mandatory and does not limit the rights of the parties to litigate any disputes or controversies among them arising.

(4) Institute and maintain such suits and actions as may be necessary to the enforcement of the rules and orders of the commission or any provisions of this chapter.

(5) Examine into the business, books, records, and accounts of any producer, distributor, producer-distributor, or milk dealer; issue subpoenas directed to said persons and require them to produce their records, books and accounts, and subpoena any other persons from whom information is desired.

(6) Take depositions of witnesses within or without the state.

(7) Any member of the commission, the administrator, or any employee designated by the commission, may administer oaths to witnesses and sign and issue subpoenas. The

provisions of the civil law of the state in relation to enforcing obedience to a subpoena lawfully issued by a judge or other person duly authorized under the laws of the state to issue subpoenas in civil cases shall apply to a subpoena issued by the commission as authorized in this section and may be enforced in the manner herein provided.

(8) Prohibit the using, buying, purchasing, selling, offering for sale, disposal of, or trafficking in any milk or cream bottle, can or container, by any person, junk dealer or second hand dealer other than the owner or his duly authorized agent; a violation of this provision is expressly declared to be unlawful and to constitute a misdemeanor.

(a) When any milk or cream bottle, can or container shall have stamped thereon the name, trade-mark or design of some particular person the same shall be deemed prima facie evidence of ownership in the person whose name, trade-mark or design shall appear thereon.

(b) Possession by any person, junk dealer or second hand dealer other than the owner or his duly authorized agent, of any milk or cream bottle, can or container bearing the name, trade-mark or design of such owner shall be deemed prima facie evidence of violating the provisions of this chapter, unless such person, junk dealer or second hand dealer shall have been the purchaser of the contents of the said milk or cream bottle, can or container, or shall have exchanged one of his own milk or cream bottles in due course of distribution of milk to his trade.

(c) Upon application to the commission by any person whose name, trade-mark or design is affixed to any milk or cream bottle, can or container, who is the owner thereof, stating under oath that the same is in possession of some other person than the owner, after its contents have been consumed, and that such person refuses to deliver possession thereof to the owner after demand except upon claim of ownership, the commission shall issue a rule to show cause directed to such person requiring such person, within five days after service upon him, to show cause why delivery and possession should not be given to the rightful owner. The commission upon hearing the testimony offered by the parties shall determine the right of possession thereof in a summary manner and enter an order according to the justice of the cause. Any person who violates the turnover order entered by the commission after a full hearing, shall be subject to punishment for contempt, and the commission shall forthwith report such action to the county judge of the county in which such hearing is held, and the county judge upon an affidavit filed reasonably establishing any such or other offense shall punish such person guilty thereunder, after rule to show cause, in the same manner as any other contempt may be punished by said judge in any proceeding over which the county judge may lawfully preside. Upon being adjudged in contempt by the county judge, such person shall be punished by fine not to

exceed fifty dollars, or imprisonment not to exceed sixty days. All rights for relief under the laws of the state in contempt proceedings shall be applicable to persons affected by this provision.

(9) Make, adopt and enforce all rules, regulations and orders necessary to carry out the purpose of this chapter; hold hearings after reasonable notice thereof has been given; receive sworn testimony and evidence at hearings as to the reasonableness of any order, rule or regulation of the commission; reasonably classify and establish definite market areas, and provide different rules, regulations and charges therefor; establish health and sanitary requirements. The commission after public hearing and investigation may fix the prices to be paid producers by distributors, milk dealers or producer-distributors in any market or markets; may fix the minimum and maximum wholesale and retail prices to be charged for milk in any market, and may also fix different prices for different grades of milk; may establish the grades of milk; may establish reasonable rules and regulations for fair competition, and fix reasonable rules and regulations for the conduct of the commission's business and for the regulation of its employees; may require reasonable examinations of license applicants to test their general fitness to engage in any business defined in this chapter; may establish rules and regulations for hearings in keeping with the procedure herein authorized; may revoke, suspend or refuse to issue the license of any person hereunder for the violation of any rule, regulation or order of the commission, after due notice and a fair hearing as herein provided; may provide for the collection of license fees authorized by this chapter, and may regulate all matters reasonably incidental to the general or specific powers herein recited; may provide for deputy administrators in any market area created by the commission, with such authority as may be designated by the commission, including the power to investigate complaints, report violations of the commission's orders, and to have such other powers reasonable or incidental thereto, including the right to administer oaths, make investigations, conduct hearings when ordered by the commission, and on due notice to take testimony in connection with investigations of complaints, and to cause the same to be stenographically transcribed and reported and transmitted to the commission for final action thereon, together with such other authority as the commission may designate in keeping with the general powers and purposes created under this chapter.

(10) The commission may designate and use a legal seal and formulate and determine the wording and form thereof; such seal may be affixed by the chairman or secretary of the commission, or its administrator, to all original legal orders of the commission and to any and all legally certified copies of orders or records of said commission.

(11) The operation and effect of any provision of this chapter conferring a general power upon the commission shall not be impaired or qualified by the granting to the commission by this chapter of a specific power or powers.

(12) Not fix the wholesale or retail price of milk sold and delivered to lunch rooms of the public schools of Florida for consumption by students therein, and to all charitable organizations of a public or semi-public nature who buy milk for free distribution to the needy. §775.06, Alternative punishment.

501.05 Rules and orders of milk commission.—

(1) The commission shall adopt and enforce all rules and orders necessary to carry out the provisions of this chapter, and may formulate procedures and regulations whereby the commission may through the services of the administrator and its various area deputies render all possible assistance to milk distributors and dairy farmers in ascertaining current milk supply needs in all areas of the state and in securing the cooperation of distributors and dairy farmers in the transfer of milk not needed for class 1 purposes from one distributor to another and from one area to another, in order that the consumer may be assured of a more adequate supply of fresh wholesome milk at all times and the dairy farmer may receive the best market classification possible for the milk which he produces. It shall be the duty of the deputy administrators and all licensees to cooperate with the commission in carrying out the provisions of this subsection.

(2) Every rule or order of the commission shall be posted for public inspection in the main office of the commission and a certified copy filed in the office of the secretary of state. Copies of all orders and records of the commission authenticated by the signature of the administrator shall for all purposes be deemed to be certified copies. An order applying only to person or persons named therein shall be served on the person or persons affected. An order required to be served shall be served by personal delivery of a certified copy or by mailing a certified copy in a sealed envelope with postage prepaid to each person affected thereby, or, in the case of a corporation, to any officer or agent of the corporation upon whom a summons may be served in accordance with the provisions of the laws of the state. The posting in the main office of the commission of any rule, and of any order not herein required to be served, and such filing in the office of the secretary of state, shall constitute due and sufficient notice to all persons affected by such rule or order. A rule of the commission when duly posted and filed as provided in this section

shall have the force and effect of law. The provisions of this section as to service of orders shall not apply to orders fixing prices of milk as to which provision is made in §501.13.

(3) The relationship between a producer and a distributor, under which milk produced by the producer is regularly delivered to and accepted by the distributor, when once established, shall not be terminated either by the producer or by the distributor without just cause therefor, and the approval of the commission. Just cause will be considered by the commission as any cause deemed just by a prudent and reasonable man.

Arbitrary, capricious and vindictive reasons will not be considered as just cause for any such termination.

(4) The commission shall set a standard date as the date from which not less than ninety days written notice in writing and in advance must be given by the producer or the distributor involved to the other before any such theretofore established relationship may be terminated; unless such notice is given, such relationship will not be terminated, even though just cause exists for termination, unless just cause exists excusing the failure to give such notice.

501.051 Official actions of commission, place for transaction.—The commission is hereby expressly authorized and empowered to hold meetings at any place in the state, and at any such meeting to make, adopt and promulgate all lawful rules, regulations, resolutions and orders, and take all lawful action. Any such rule, regulation, resolution or order made, adopted or promulgated, or any such action taken, pursuant to or based upon, in whole or in part, a public hearing, shall be valid and enforceable whether or not such public hearing was also held at the place where such rule, regulation or order was made, adopted or promulgated, or such action is taken. All rules, regulations, resolutions and orders made, adopted or promulgated, and all action taken by the commission, at meetings held at places other than Tallahassee shall have the same full force and effect as such rules, regulations, resolutions and orders made, adopted and promulgated, and action taken at meetings held in the city of Tallahassee.

History.—§1, ch. 61-316.

501.06 Investigations by commission.—The practice and procedure of the commission with respect to any investigation by the commission authorized by this chapter shall be in accordance with rules and regulations to be promulgated by the commission which shall provide for a reasonable notice to all persons affected by orders to be made by the commission after such investigation, opportunity to be heard either in person or by counsel, and to introduce testimony in their behalf at a public hearing to be held for that purpose. For the purpose of such investigation or any hearing which the

commission is authorized or required to conduct, the commission, any member thereof, administrator, or deputy administrator, may conduct such hearing, administer oaths, take depositions, issue subpoenas, compel the attendance of witnesses and the production of books, accounts, papers, records, documents and testimony. In case of disobedience of any person to comply with the order of the commission or a subpoena issued by any person herein authorized to issue same, or on the refusal of a witness to testify to any matter regarding which he may be lawfully interrogated, the county judge of the county in which the person resides, on application of any member of the commission, the administrator, or deputy administrator shall compel obedience by attachment proceedings as for contempt, as in the case of disobedience of the requirements of a subpoena issued from such court or a refusal to testify therein. Each public officer who serves such subpoena shall receive the same fee as a sheriff and each witness who appears in obedience to a subpoena before the commission, any member thereof, the administrator, or deputy administrator, shall receive for his attendance the fees and mileage provided for witnesses in civil cases in circuit courts of this state, which shall be audited and paid as other expenses are audited and paid, upon the presentation of proper vouchers, approved by the commission. No witness subpoenaed at the instance of a party other than those herein authorized to issue subpoenas shall be entitled to compensation from the commission unless the commission shall certify that his testimony was material to the matter investigated.

501.07 Entry on and inspection of premises where milk is sold, etc.—Any member of the commission, the administrator, deputy administrator, or an employee designated for the purpose, shall have access to and may enter at all reasonable hours all places where milk is being sold, offered for sale, stored, bottled or manufactured into food products, in any market, established by the commission, and may inspect all books, papers, records or documents in any place within the state for the purpose of ascertaining facts to enable the commission to administer this chapter.

History.—§7, ch. 19231, 1939; CGL 1940 Supp. 3219(44).

501.08 Injunction to restrain violation.—The commission may institute such actions at law or in equity as may appear necessary to enforce compliance with any provision of this chapter, or to enforce compliance with any rule or order of the commission made pursuant to the provisions of this chapter, and in addition to any other remedy herein provided may apply to any circuit court for relief by injunction to protect the public interest without being compelled to allege or prove that an adequate remedy at law does not exist. Said court may issue a temporary injunction, without notice, and no bond shall be required to be posted

by the commission in any such action, it being an instrumentality of the state.

cf.—Ch. 64, Injunctions.
§501.23, Penalties.

501.09 Issuance, revocation, etc., of licenses to milk dealers.—(1) No milk dealer shall buy milk from producers or others for sale within this state, or sell or distribute milk therein unless such dealer be duly licensed as provided in this section, and it is unlawful for a milk dealer to buy milk from or sell milk to a milk dealer who is unlicensed, or, in any way to deal in or handle milk which he has reason to believe has previously been dealt in or handled in violation of the provisions of this chapter.

(2) An application for a license to operate as a milk dealer shall be made on or before July first of each year, by mail or otherwise, to the commission upon blanks prepared under the authority of the commission. The application shall state the nature of the business to be conducted, the full name of the person applying for the license, and if the applicant be a firm, or association, the full name of each member, and if a corporation the names and addresses of all officers and directors, and the city, town or village and the street number, if any at which the business is to be conducted; facts showing that the applicant has adequate technical personnel, adequate technical and physical facilities to properly conduct the business of receiving and handling milk; that he has complied with all rules and orders of the commission filed or served as required by this chapter, and such other facts with respect to the license or permit as may be required by the commission pursuant to this chapter. Such application shall be accompanied by the license fee required to be paid by this chapter. A license or permit shall be granted to the applicant by the commission, subject to the provisions of this chapter.

(3) The commission may decline to grant any license or permit required hereby or may suspend or revoke a license or permit already granted upon due notice and opportunity of hearing to the applicant, licensee or permittee, when satisfied of the existence of any of the following: The commission shall not in any event grant a license to any distributor who shall not before the issuance of such license produce to the commission a certificate from state, county or municipal health authorities, certifying that such distributor has complied with all health and sanitary laws, ordinances and regulations in effect in this state and in the city and county where any such distributor does business. When such health certificate is revoked, the commission shall immediately suspend the license of such distributor whose certificate was revoked until such time as such distributor shall obtain another certificate showing full compliance with such laws, ordinances and regulations; provided, however, that in localities where such certificates cannot be obtained because there is no law, ordinance or

regulation authorizing the issuance of such a certificate, a certificate by an inspector under the milk products law that such distributor has complied with the standards of the United States public health service standard milk ordinance, shall be accepted in lieu thereof.

(a) That a milk dealer has rejected, without reasonable cause, any milk delivered to and accepted by the milk dealer from a producer delivered by or on behalf of the producer in ordinary continuance of a previous course of dealing, or that a milk dealer has rejected without reasonable cause, or has rejected without reasonable advance notice, any milk tendered or offered for delivery to the milk dealer by or on behalf of a producer in ordinary continuance of a previous course of dealing. It is intended hereby to provide and require that a milk dealer shall not reject or refuse to accept any milk tendered or offered for delivery by or on behalf of a producer in ordinary continuance of a previous course of dealing unless there exists reasonable cause for the rejection or refusal to accept such milk and unless the milk dealer has also given such advance notice as may be reasonable under the circumstances of intention to reject or refuse to accept such milk.

(b) That the milk dealer has failed without reasonable cause to account and make payment for any milk purchased from a producer.

(c) That the milk dealer has committed any act injurious to the public health, public welfare, or to trade or commerce in demoralization of the price structure of pure milk to such an extent as to interfere with an ample supply thereof, for the inhabitants of the state affected by this chapter, which is declared to be injurious to the public health, public welfare and to trade and commerce and evidence of a course of conduct on the part of the licensee tending to such demoralization shall be construed to be prima facie evidence of a violation of this section, proof of one act being sufficient to constitute a violation of this section.

(d) Where the milk dealer has made a general assignment for the benefit of creditors or has been adjudged a bankrupt or where a money judgment has been secured against him, upon which an execution has been returned wholly or partly unsatisfied.

(e) Where the milk dealer has continued in a course of dealing of such a nature as to satisfy the commission of his inability or unwillingness properly to conduct the business of receiving or selling milk.

(f) Where the milk dealer has continued in a course of dealing of such nature as to satisfy the commission of an intent to deceive or defraud producers or consumers.

(g) Where there has been a failure either to keep records or to furnish the statements or information required by the commission.

(h) Where it is shown that any statement upon which the license or permit was issued is or was false or misleading in any particular.

(i) Where the applicant is a partnership or corporation and any individual holding any po-

sition or interest or power of control therein has previously been responsible in whole or in part for any act on account of which a license may be denied, suspended or revoked, pursuant to the provisions of this chapter.

(j) Where the licensee has violated any of the provisions of this chapter.

(k) The failure of any person to pay any license fee or other moneys required by the terms of this chapter when due shall constitute due cause for revocation of such person's license or permit.

In case of conduct by a licensee or permittee which would authorize the commission to suspend or revoke a license or permit, the licensee or permittee may propose to the commission the imposition of a fine in lieu of revocation or suspension, and the commission in its discretion may accept such offer and impose a fine. If such fine be promptly paid, revocation or suspension shall not be imposed, but if such fine be not promptly paid, the commission shall proceed to such revocation or suspension. Such fine, however, shall not be imposed unless the commission in its discretion determines that such fine would be adequate punishment and will probably procure future compliance with this law and the rules of the commission by such licensee or permittee; nor shall such fine be imposed unless the permittee or licensee shall in writing state to the commission his desire that a fine be imposed in lieu of revocation or suspension.

(4) No person shall engage in the business of distributing milk within any marketing area established by the commission, nor shall any person act as a distributor of milk within any such area, unless such person shall have obtained from the commission a license to act as a distributor of milk within such area.

On or before the first day of July in each year, all persons desiring to obtain licenses to act as distributors of milk in any marketing area shall file with the commission at its office an application in writing for license, which application shall be upon a form to be prescribed by the commission and shall contain such information as the commission shall require including among other things, the name of the applicant, the address of his place of business, the period of time during which he has been distributing milk within the area, the approximate number of gallons of milk distributed by applicant during each of the twelve months preceding July first of the year in which application is filed, and the names and addresses of the producers from whom the applicant has purchased milk during the period of twelve months preceding July first of the year in which the application is filed. Each application shall be verified by the oath of the applicant or his agent, or, if the applicant be a corporation, by the oath of an officer of such corporation.

Upon the filing of the application and the payment by the applicant to the commission of the sum of five dollars which is fixed as a fee to cover the cost of receiving such appli-

cation and issuing the license applied for, the commission shall issue or cause to be issued to the applicant a license in such form as the commission shall prescribe, which shall entitle the licensee to conduct the business of a distributor of milk until the first day of July next succeeding the date of the license, and which license shall be conditioned upon compliance by the licensee with all of the provisions of this chapter and all rules and regulations lawfully made pursuant to the provisions of this chapter.

If a person who was not engaged in the business of distributing milk in one of the marketing areas established by the commission on or before July first of any year shall desire to procure a license to engage in such business, he shall file an application in the form aforesaid in like manner as other applicants are required to file the same and the commission may issue to such applicant a license for the unexpired portion of the year expiring on July first next succeeding the date of such license, but every such applicant shall pay to the commission the sum of five dollars to cover the cost of receiving such application and issuing such license.

Unless previously revoked in the manner provided by this chapter all licenses issued to distributors shall remain in force and effect until midnight of the first day of July next succeeding the date of the issuance thereof.

On or before the tenth day of each month each distributor shall make a report under oath to the commission upon such form and containing such information as the commission shall prescribe, but each report shall specifically, and in addition to all other information which may be required by the commission, contain and set forth:

(a) The number of gallons of milk produced; the number of gallons of milk received; and the number of gallons of milk distributed by such distributor during the preceding calendar month; and

(b) The name and address of each producer or any other person from whom the distributor purchased milk for distribution during the preceding calendar month and the quantity of milk purchased from each producer or other person, and the price per gallon paid to each producer or other person for milk so purchased, and the number of gallons purchased by such distributor if such distributor be also a producer.

For the privilege of continuing in or engaging in the business of distributing milk or acting as a distributor under the provisions of this chapter, there is imposed upon every distributor a tax in an amount equal to fifteen-one hundredths of one cent upon each gallon of milk distributed by each distributor during each calendar month. The amount of such tax shall be remitted by each distributor to the commission at the time that the monthly reports are required to be filed by the distributor with the commission as provided by this chapter.

Every person required to make a report and pay any tax upon the distribution of milk under this chapter shall keep and preserve suitable records of sales and distribution of milk and such other books of account as may be necessary to enable the commission at any time to determine the amount of tax due hereunder, and all books and records shall be open to examination at any time by the commission or any of its authorized agents or by the administrator.

The commission may prescribe rules and regulations for the collection of the license fees as provided and specified herein, and provide any and all necessary machinery for the prompt collection of any and all license fees assessed, and may take all such steps as are reasonably necessary and as authorized hereunder to prevent any person engaging in any business herein regulated without first taking out or paying the license fee prescribed, including the right to seek an injunction without notice or bond.

Any and all registration, license fees and other moneys required to be paid hereunder shall be paid to the commission and promptly receipted for by the administrator, and he shall be placed under such reasonable bond in connection therewith, at the expense of said commission, as the governor of the state may require in order to furnish reasonable security in keeping with the total amount of such proceeds coming into his possession. All proceeds shall be promptly deposited in the state treasury into a separate trust fund to the credit of the commission. Such moneys are hereby appropriated for the administration of the provisions of this chapter unless the legislature provides otherwise in the biennial general appropriations act. All such appropriations shall be disbursed by the comptroller upon vouchers signed by the administrator and countersigned by the chairman of the commission.

Any person subject to the provisions of this chapter failing or refusing to furnish any return required to be made or failing or refusing to furnish a supplemental return or other data required by the commission or who shall violate any of the provisions of this chapter, including failure to secure a license or who shall violate any valid rule or regulation of the commission, or who shall secure a license upon false or fraudulent application, shall be guilty of a misdemeanor and upon conviction shall be punished by a fine of not exceeding five hundred dollars or by imprisonment in the county jail for not exceeding six months and each offense and each day of violation shall constitute a separate offense.

Any person required to make, render, sign or verify any report as aforesaid, who makes or signs any false or fraudulent statement with intent to evade the tax hereby levied, shall be guilty of a misdemeanor and shall upon conviction be fined not less than \$300.00 and not more than \$1,000.00 or be imprisoned in the county jail for not exceeding one year.

If any licensee shall fail to pay the tax required to be paid within thirty days after the same shall become due, then there shall be added to said tax as a penalty for such failure an amount equal to two per cent of the amount thereof for each month or portion of a month during which such tax shall be delinquent, but this may be waived for cause by the commission.

All route salesmen, solicitors and each milk truck driver shall pay an annual license fee of one dollar.

Every distributor, producer-distributor and bob-tail distributor operating or using a truck, car or any vehicle, motor or otherwise, in the sale or delivery of milk products in connection with any regular retail route or wholesale route shall pay an annual license fee of five dollars for each truck, car or vehicle used for such purpose. This is in addition to other license fees or charges set forth, and application and payment therefor shall be made at the same time as other licenses; provided, however, that every bob-tail, distributor or producer-distributor is allowed to operate one vehicle without payment of this license fee, but on all other vehicles so operated this license fee must be paid.

Each store shall before making sales or being permitted to purchase at wholesale from distributors, producer-distributors or bob-tails, obtain a permit from the commission, which permit shall be subject to revocation as herein provided for violation hereof as licenses may be revoked hereunder.

Every producer and producer-distributor within the state must secure from the commission an annual permit to engage in business. No charge shall be required therefor, but no producer or producer-distributor shall engage in business within the state unless such permit be secured and continued in full force and effect. Same may be suspended or revoked for violation of any of the terms of this chapter or lawful rules or orders of the commission after due notice and hearing. Any person feeling aggrieved thereby may appeal to the circuit court as is provided herein for review of such order by the commission.

No payment of fees provided for in the milk products law, chapter 502 shall be required while this chapter is in full force and effect, but the said fees are expressly suspended for such period of time.

(5) The commission may classify licenses and may issue licenses to milk dealers to store, manufacture or sell milk limited to a particular city or village or to a particular market or markets in the state.

Any applicant, permittee, or licensee deeming himself aggrieved by any action of the commission taken under any of the provisions of this chapter may within thirty days after receipt of a copy of the order of the commission file a petition for certiorari in the manner prescribed by the Florida appellate rules. Said court shall have jurisdiction to re-

verse, vacate, or modify the order complained of. Upon service of a copy of the petition as provided by the appellate rules, the commission shall forthwith transmit to the clerk of the circuit court a transcript of the record of the commission and the original papers or transcript thereof, and a certified transcript of all evidence adduced upon the hearing before the commission in the proceedings complained of, which shall be filed in the court. No proceedings to reverse, vacate or modify a final order rendered by the commission shall operate to stay the execution or effect thereof unless the circuit court or a judge thereof on application shall allow such stay, in which event the plaintiff in error shall be required to execute an undertaking payable to the milk commission in such a sum as the court may prescribe, with surety to be approved by the clerk of the circuit court, conditioned for the prompt payment by the plaintiff in error of all damages, expenses, costs and attorney's fees arising from or caused by the delay in the effectiveness or enforcement of the order complained of.

No court other than the circuit court may review, suspend or delay any order made by the commission with respect to the granting of a license or permit, refusal to grant a license or permit, the granting of a conditional and limited license, or the suspension or revocation of a license or permit, or enjoin, restrain, or interfere with the commission or any member thereof, in the performance of official duties with respect thereto. Nor shall the writ of mandamus be issued against the commission or any member thereof by any court other than the circuit court.

All rights of appeal from a decree in the circuit court, in chancery, shall exist and be preserved as in other cases.

(6) For the privilege of continuing in or engaging in the business of producing milk, or acting as a dairy farmer under the provisions of this law, there is hereby imposed upon every dairy farmer a tax in an amount equal to fifteen-one hundredths of one cent upon each gallon of class I milk produced, as defined by the commission, by each such dairy farmer, and delivered to the platform of the distributor or producer-distributor during each calendar month. The amount of such tax shall be deducted by the distributor and the producer-distributor from the moneys due to the dairy farmer, and by such distributor or producer-distributor remitted to the commission at the time that the monthly reports are required to be filed by the distributors or producer-distributors with the commission, as provided by this chapter, and in the event the dairy farmer acts as his own distributor he shall remit the said tax to the commission at the time that the monthly reports are required to be filed by the distributor and producer-distributor with the commission, as provided by this chapter.

If at any time during a fiscal year the revenues received by the commission under this chapter exceed by at least twenty-five per cent

the total amount of expenditures as budgeted by the commission for that fiscal year, the payment of taxes provided for in this subsection, and in §501.09(4), on milk distributed by distributors, will be discontinued and such taxes are not imposed for the calendar months remaining in that fiscal year commencing with the first calendar month following the time when such revenues so collected exceed by at least twenty-five per cent the total amount of expenditures so budgeted for that fiscal year. All such taxes are imposed and shall be paid for each calendar month of each fiscal year through and including the month preceding the month in which any such discontinuance provided for herein becomes effective, and those liable for their payment shall continue to be liable therefor, regardless whether such taxes, and any penalties for late payments, are paid before or after the time of any such discontinuance.

(7) The commission may, in issuing a permit to a store after the effective date of this act, provide on it the period of time for which it is effective. Unless the commission, in issuing any such permit, expressly provides upon it the period of time for which it is effective, such permit when issued shall be effective until the store to which it is issued ceases to operate, provided, however, such permit may always be suspended or revoked, as provided herein. All permits now issued to stores shall be effective until the store to which it is issued ceases to operate, provided, however, any such permit may always be suspended or revoked, as provided herein.

(8) A store holding or obtaining a license issued by the hotel and restaurant commission under chapter 509 shall be deemed, for all purposes of this chapter, to hold the permit required of stores under this chapter, and shall not be required to obtain a permit also from this commission, provided, however, the commission may decline to grant, or suspend or revoke, such license as a permit under this chapter for the same reasons or causes and as fully and to the same extent as it may other permits to stores provided for by this chapter.

No store required to hold a license under chapter 509, shall make any sales of milk, or any purchases thereof at wholesale, during any period of time in which it does not hold such license from, or during which such license has been suspended or revoked by, the hotel and restaurant commission.

501.10 Records of licensees.—The commission may require licensees and permittees to keep the following records:

(2) A record of all milk sold classified as to grade, location and market outlet and size and style of container, with prices and amounts received therefor.

(3) A record of quantities and prices of milk sold.

(4) A record of the quantity of each milk product manufactured and quantity of milk or cream used in the manufacture of each product, also the quantity and value of milk products sold.

(5) A record of wastage or loss of milk or butter fat.

History.—§10, ch. 19231, 1939; CGL 1940 Supp. 3219(47).

501.11 Reports by licensees.—Each licensee and permittee shall, from time to time as required by rule or order of the commission, make and file a verified report on forms prescribed by the commission of all matters on account of which a record is required to be kept, together with such other information or facts as may be pertinent and material within the scope of the purpose and intent of this chapter. Such report shall cover a period of time specified in the order.

History.—§11, ch. 19231, 1939; CGL 1940 Supp. 3219(48).

501.13 Order by commission fixing price of milk.—

(1) The commission shall ascertain by such investigation and proofs as the emergency permits and requires what prices for milk in the several localities and markets of the state and under varying conditions will best protect the milk industry in the state and insure a sufficient quantity of pure and wholesome milk to adults and minors in the state, having special regard to the health and welfare of children, and be most to the public interest.

In determining prices to be paid producers, the commission shall take into consideration all conditions affecting the milk industry, including the amount necessary to yield a reasonable return to the producer. In determining what is a reasonable return to the producer the commission shall take into consideration the necessary cost incurred in that particular locality in maintaining dairy animals in a healthy condition, paying wages and supplying working conditions to employees sufficient for their subsistence at levels generally obtaining, and for the safeguarding of their health in defraying the ordinary fixed charges and operating expense incidental to the ownership, control and management of a herd of average numerical size, including a reasonable amount representing annual rent of land and equipment necessarily utilized therein and in addition to afford such producers a reasonable return in excess of their cost of production, and the volume of milk that might reasonably be ex-

pected to be produced by that average herd, and the average standard of its butterfat or milk fat content.

In fixing prices to be paid producers under this chapter, the commission may make them subject to adjustment up or down on account of butterfat or milk fat content in excess of or less than the standard determined by the commission to be average.

Each order of the commission fixing any price to be paid producers for whole fresh liquid milk may be static until further order or may provide that any of the respective prices thereby fixed shall fluctuate as provided therein based upon any reasonably related and ascertainable standard, such as an economical index based upon any set of reliable economical or agricultural statistics reasonably determined by the commission to be appropriately related to milk marketing.

In fixing minimum prices to be paid producers under this chapter for their milk utilized as whole fresh liquid milk the commission shall take into consideration the reasonable return, determined as aforesaid, and the average production volume, determined as aforesaid, and may take into consideration any additional volume of milk that may reasonably be required to be produced in order to provide the volume of milk utilized in such manner.

In fixing the prices to be paid producers for that portion of their milk utilized as whole fresh liquid milk the commission shall take into consideration the factors enumerated hereinabove. In fixing the minimum prices to be paid producers for the remainder of the milk produced by them the commission shall establish prices therefor not to exceed the market value in Florida of the component parts thereof. Each order of the commission fixing prices for milk may be static as to any or all of such prices so fixed until further order or may provide that any of the respective prices fixed thereby shall fluctuate as provided therein based upon any reasonably related and ascertainable standard, such as the Chicago butter or other recognized commodity market, with due allowance made for cost of transportation from such market to the market in Florida.

In determining wholesale and retail prices to be paid to or charged by milk dealers, the commission shall take into consideration all conditions affecting the milk industry including the amount necessary to yield a reasonable return to the milk dealer. In determining the reasonable return to the milk dealer, the commission shall take into consideration reasonable average operating expense in processing, storage, transportation and delivery charges and all necessary reasonable expenses connected therewith.

Whole fresh liquid milk, as used herein, includes all fluid milk or milk products sold in fluid form, including, but not limited to, skim milk or fortified skim milk.

(2) The commission after making such investigation shall fix by official order the mini-

mum wholesale and retail prices and may fix by official order the maximum wholesale and retail prices to be charged for milk handled within the state for fluid consumption, and wheresoever produced, including the following classes:

(a) By milk dealers to consumers.
(b) By milk dealers to stores either for consumption on the premises or resale to consumers.

(c) By stores to consumers for consumption on the premises where sold.

(d) By stores to consumers for consumption off the premises where sold.

(e) When, pursuant to statute, regulations adopted thereunder or ordinances, various grades of milk are specified, the commission shall fix the minimum price and may fix the maximum price applicable to each in each of the foregoing classes. Orders fixing minimum and maximum prices may vary in different markets and shall designate the markets to which applicable. In construing this section it shall be done taking into consideration for fixing the price, the healthfulness and grade of milk produced and whether or not the sale price gives a fair return to the producer.

(3) It is the intent of the legislature that the public emergency requires that the producers and milk dealers receive a fair return for their products. To that end, if the commission after investigation made either upon its own initiative or upon complaint of a representative group of producers supplying a particular dealer shall determine that such milk dealer purchasing milk from the producers or from or through a cooperative corporation of producers organized under the laws of the state in making such purchases has failed to give fair and reasonable effect to such intent, the commission shall upon due notice and after hearing suspend or revoke the license or permit of the milk dealer so offending and, in addition thereto, a violation of this subdivision shall render such offending milk dealer subject to the provisions of §501.08.

(4) The commission after making such investigation either on its own initiative or on complaint of a representative group of producers supplying a particular dealer or a particular market may fix by official order the prices to be paid by milk dealers to producers and others for milk and its various grades and uses. The order of the commission with respect to the prices to be paid to the producers and others shall apply to the locality or zone in which the milk is produced, the market or markets in which the milk so produced is sold, and may vary in different localities or markets according to varying uses and different conditions. Each order may classify milk by forms, classes, grades or uses as the commission may deem advisable and may specify the price therefor. A violation of this subdivision shall render such

persons offending this chapter specifically subject to the provisions of §501.08.

(5) After the commission has fixed prices to be charged or paid for milk whether by class, grade or use, it is unlawful for a milk dealer to sell or buy or offer to sell or buy milk at any price less or more than such price or prices as shall be applicable to the particular transaction and no method or device shall be lawful whereby milk is bought or sold or offered to be bought or sold at a price less or more than such price or prices as shall be applicable to the particular transaction, whether by any discount, or rebate or free service, or advertising allowance or a combined price for such milk together with another commodity or commodities, or service or services, which is less or more than the aggregate of the prices for milk and the price or prices for such other commodity or commodities, or service or services, when sold or offered for sale separately or otherwise.

(6) Any offender against the matters and things set forth in the foregoing paragraph shall be guilty of a misdemeanor and punished as provided by §501.23. It is unlawful for any person to knowingly aid, encourage or abet any violation of this chapter or any order of this commission whatsoever, or by the use of any advertising method of any character or description whatever on pain of being punished as for a misdemeanor and being subject to being temporarily enjoined by a court of equity without notice and without the furnishing or giving of any bond by the commission.

(7) The commission may upon its own motion or upon application from time to time, alter, revise or amend an official order theretofore made with respect to the prices to be charged or paid for milk. After making such investigation and before making, revising or amending any order fixing the price to be charged or paid for milk, the commission shall give a hearing thereon to all parties interested upon reasonable notice to such interested parties and to the public of such hearing in such newspaper or newspapers as in the judgment of the commission shall afford sufficient notice and publicity. Such order of the commission may be reviewed by certiorari as provided by the Florida appellate rules at the instance of any aggrieved person appearing of record at the hearing either in person or by personal representative and opposing the making of the order.

(8) It is the intent of the legislature that the instant, whenever that may be, that the handling within the state by a milk dealer of milk produced outside of the state becomes a subject of regulation by the state, in the exercise of its police powers, the restrictions set forth in this chapter respecting such milk so produced shall apply and the powers conferred by this chapter on the commission shall attach. After any milk so produced comes to rest within the state, any sale, within the state by a licensed milk dealer required by this chapter to be licensed, or any milk purchased

from the producer at a price lower than that required to be paid for milk produced within the state purchased under similar conditions is unlawful.

501.15 Interstate and federal compacts.—The commission may confer with legally constituted authorities of other states of the United States, with respect to a uniform milk control within the state or as between states, and may enter into a compact or compacts for uniform milk control subject to such federal approval as may be required by law.

501.16 Audits and reports to governor and legislature.—The commission shall have its books and records audited annually by the state auditor or a private auditor and make a full report of its proceedings, including said audit, to the governor and the chairman of the finance committee of the senate and the finance committee of the house, annually.

History.—§16, ch. 19231, 1939; CGL 1940 Supp. 3219(53).

501.17 Divulging of information by commission members, etc., forbidden; penalty.—No member of said commission, nor any officer, agent or employee thereof, shall divulge to any person the contents of any document, paper or record examined by him in the performance of his duties hereunder, or any information obtained by him in the course of his investigations, except as may be required to carry out the purposes of this chapter. Any person violating the provisions of this section shall be guilty of a misdemeanor and shall be punishable by a fine not exceeding five hundred dollars or imprisonment not exceeding one year.

History.—§17, ch. 19231, 1939; CGL 1940 Supp. 3219(54), 7677(4).

cf.—§775.06, Alternative punishment.

501.18 Law declared not applicable to interstate commerce.—No provision of this chapter shall apply or be construed to apply to foreign or interstate commerce except in so far as the same may be effective pursuant to the United States Constitution and to the laws of the United States enacted pursuant thereto.

History.—§20, ch. 19231, 1939; CGL 1940 Supp. 3219(57).

501.19 Owner of three cows or less exempt.—Any producer of milk that owns, controls or milks three cows or less shall not be subject to pay the license fee, but shall come under the milk price provision.

History.—§21, ch. 19231, 1939; CGL 1940 Supp. 3219(58a).

501.20 Exercise and withdrawal of exercise of supervisory and regulatory powers in markets.—

(1) The commission shall not supervise and regulate any market in the state which it does not now supervise and regulate, or from which the exercise of its supervisory and regulatory powers is hereafter withdrawn unless there is presented to it a written petition signed by not

less than ten per cent in number of the producers and producer-distributors in such market, and representing not less than fifty per cent of the distributors buying milk from the base earned producers in such market, requesting it to exercise its supervisory and regulatory powers therein and unless, in a secret ballot election, to be called by the commission as promptly as reasonably possible after the presentation to it of such petition, a majority in number of the producers and producer-distributors eligible to vote in such election vote in favor of the exercise by the commission of its supervisory and regulatory powers in such market. If in the election such majority in number vote in favor thereof, the commission shall supervise and regulate such market, but otherwise shall not do so.

(2) Whenever there is presented to the commission a written petition signed by not less than ten per cent in number of the producers and producer-distributors in any market in the state over which the commission is exercising its supervisory and regulatory powers, pursuant to this chapter, requesting the commission to withdraw the exercise of such powers from such market, there shall be called by the commission, as promptly as reasonably possible after the presentation to it of such petition, a secret ballot election among the producers and the producer-distributors in that market. In the event, in such election, a majority in number of the producers and producer-distributors eligible to vote in such election vote in favor of the withdrawal therefrom by the commission of the exercise of its supervisory and regulatory powers, the commission shall withdraw the exercise of such powers by it from such market, but otherwise shall not do so.

(3) The commission shall prescribe the procedure to be followed in calling, holding, conducting and ascertaining the results of the elections provided for herein and may adopt reasonable rules, regulations and orders in regard thereto, but it shall insure that any election held hereunder is held by secret ballot, and that all those entitled to vote therein are given reasonable notice of the time and place of such election and reasonable opportunity to vote therein, provided, however, that the commission shall appoint a person or firm not a producer, producer-distributor or distributor or the commission or any member or employee thereof to conduct any such election called under the provisions of this section. Expenses of calling, holding, conducting and ascertaining the results of any such election shall be paid by the commission. The person or firm so appointed shall certify the results of the election to the commission promptly after such election is held.

The commission may schedule one election at one time and one place but in no event shall an election be held less than six months following an election; if, because of the size of the market involved, or for other reasons, the commission deems it advisable so to do for the

convenience of those entitled to vote in such election, it may hold such election at more than one place within such market, and may designate different times and places within such market at which voting may be done. However, none of the votes shall be canvassed, nor shall any information concerning them be given or disseminated to anyone by the person or firm appointed to conduct the election, until all times fixed for holding such election have elapsed. In the event that any election is conducted at more than one location only one ballot box shall be used by the person or firm appointed by the commission.

(4) Determinations respecting numbers of producers and producer-distributors in any market shall all be made by the commission as of the end of the second calendar month preceding the month in which an election hereunder is called. All persons who were producers or producer-distributors in such market at the end of such second preceding calendar month shall be entitled to sign any such petition, and to vote in any election called hereunder, and shall be counted, regardless whether at the time of signing any such petition, or of its presentation, or of any election held hereunder, they are producers or producer-distributors in the market. Any who were not at the end of such second preceding calendar month producers or producer-distributors in the market shall not be counted in number, in determining the results of any election held hereunder, and shall be eligible neither to sign any such petition nor to vote in any such election, even though they may become producers or producer-distributors in such market after the end of such second preceding calendar month.

The number of producers and producer-distributors voting in the election shall be determined by the commission. In making such determination, the commission may obtain information from all available sources, including, but not limited to, its own records and reports, the books and records of producers in the market, and the books and records of producer-distributors and distributors in the market, whether such books and records are kept, or are available, within or without the geographical limits of the market. It shall make all such determinations as promptly as reasonably possible and with as much accuracy as is reasonably possible in order to make such determinations without undue delay, and its decisions in regard thereto shall be final.

(5) Whenever, under this section, the commission shall commence exercising, or withdraw the exercise of, its supervisory and regulatory powers in any market, it shall do so by order, and the time when such commencement or such withdrawal shall be effective shall be the date when the results of any election conducted under the provisions of this section are filed with the commission by the person or firm authorized to conduct such election.

History.—§22, ch. 19231, 1939; CGL 1940 Supp. 3219(58b); §2, ch. 61-314.

501.21 Duration of commission.—A continuing emergency for the regulation of the business and industry herein named shall be presumed and deemed continuing and existing, calling for the need for the existence of this chapter, and the same shall be effective until such date as it is repealed or amended by some subsequent act of the legislature, whenever any such continued emergency may be deemed essential to the continued validity of any of the provisions hereof.

History.—§23, ch. 19231, 1939; CGL 1940 Supp. 8219(58).

501.23 Penalty for violations.—A violation of any provision of this chapter or of any rule or order of the commission lawfully made, except as otherwise expressly provided by this chapter, shall be a misdemeanor punishable by a fine not exceeding five hundred dollars or by imprisonment not exceeding one year, and each day during which such violation shall continue shall be deemed a separate violation.

509.211 Safety regulations.—

(1) Every public lodging or public food service establishment shall have signs displayed in all hallways indicating all fire escapes, stairways and exits.

(2) Whenever it shall be proposed to erect a building three stories or more in height intended for use as a public lodging establishment in this state, the owner, contractor or builder of such establishment shall construct said establishment so that one main hall, on each floor above the ground floor, shall extend to the outside wall at each end; or such main hall may turn at either or both ends, provided the distance from the main hall to the outside of the building, at any point, is no more than the depth of the room facing the outside of the building, and provided further that the hall so turned shall extend to an exterior wall in which a door or window must be provided; provided, further, however, that the commissioner, upon recommendation of the supervising architect, may waive the requirement of halls running to the exterior wall of the building in

those instances where such construction provides two means of exit from all areas on the floor; and provided that, in two-story construction of individual units not exceeding five-room count in a multiple unit building, it may be permitted to have one means of ascent or descent to the level of egress provided two-hour fire rated partitions and floor construction is employed within the unit and the unit is separated from all other units by four-hour fire rated floor, walls and ceiling. No heating, cooking or electrical distribution equipment shall be permitted in the space directly under the stairs.

(3) No building of four or more stories in height shall be constructed for or converted for use as a public lodging establishment unless it be of noncombustible material or fireproof construction. This provision shall not apply to buildings now being used for such purposes.

(4) Before the erection or remodeling of any building for use as a public lodging or public food service establishment is begun, the registered architect's plans or registered engineer's plans, with detailed specifications, shall be approved by the supervising architect or engineer of the hotel and restaurant commission; all plans, specifications and drawings submitted for the purpose of securing building permits from any state, county or municipal building inspector, or other officer having like jurisdiction, shall bear the signature and seal of the architect or engineer and supervising architect or engineer of the hotel and restaurant commission before said building permit is issued; when such plans and specifications are submitted to the supervising architect or engineer of the hotel and restaurant commission for approval, they shall be accompanied by a remittance of an amount equal to the license fee prescribed for an establishment of such size as provided in this chapter, except that permit fees for remodeling not affecting the room count or seating capacity shall be as set forth below, based on the cost of construction:

Cost of Work	Lodging Establishment	Food Service Establishment
	Total Fees	Total Fees
\$ 2,000 or less	\$ 8.00	\$ 12.00
5,000 or less	12.00	16.00
10,000 or less	20.00	20.00
20,000 or less	26.00	26.00
Over 20,000	36.00	36.00

In the event the remodeling also includes additional room count or seating capacity, then, in either of such events, the permit fee payable to the commission for such alterations shall be based on the above enumerated fees or upon the fee determined by the additional room count or seating capacity, whichever is the higher fee. Provided further, that new construction or remodeling costing ten thousand dollars or less need not be accompanied by plans of a registered architect or engineer but scaled drawings shall be submitted to the hotel commission's architect or engineer for approval, as a condition precedent to securing a building permit.

(5)(a) Within sixty days after receipt of notice from the hotel and restaurant commissioner every public lodging establishment or public food service establishment in this state consisting of two stories in height must provide at least two means of exit, which shall consist of either fire escapes or stairways accessible to all occupants of the second floor which shall extend from the second floor to the ground or ground floor.

(b) Within sixty days after receipt of notice from the hotel and restaurant commissioner, every public lodging establishment or public food service establishment in the state consisting of more than two stories in height, shall be equipped with two means of exit, one of which shall be a complete fire escape consisting of iron, steel, concrete or other fireproof material, extending from the uppermost floor to the ground or ground floor and connecting with each floor above the ground floor by means of landings not less than six feet in length or four feet in width which shall be secured to the stairs not less than two feet in width with steps not less than six inches in tread with not more than a forty-five degree angle, such landing or stairs if constructed on the exterior of the building, to be guarded by an iron, steel, or concrete railing not less than thirty inches in height.

(c) Where, in the opinion of the supervising architect or engineer of the hotel and restaurant commission it is evident on inspection that strict compliance with the above two paragraphs, (a) and (b), regarding construction of second means of exit of buildings would in no substantial way increase or improve the safety of a building, the supervising architect or engineer shall suggest that the licensee appeal to a board made up of at least two supervising architects or engineers and the commissioner for relief from the provisions of this section.

(d) Egress to all such fire escapes shall at all times be kept free and clear of all obstructions and doors leading to such fire escapes shall be constructed of fire resistant materials, equipped with automatic closing devices and panic bolts and such doors shall only open outward to fire escapes on the exterior of the building.

(e) Fire escapes installed inside any such building shall be constructed of fireproof material including walls, floors, ceiling, windows, casements, stairs, hand railings and doors and all other parts comprising same. All egress to inside fire escapes shall be guarded by doors with an automatic closing device, panic bolts and such doors shall only open toward the descent of the fire escape.

(f) All fire escapes shall be constructed, installed, and placed under the supervision of the hotel commissioner, who shall enact rules and regulations governing the same, which shall be in substantial conformity to the now existing code of national fire underwriters, relating to fire exits.

(g) All inside fire escapes shall be kept artificially lighted day and night by a circuit or means, separate and apart from the circuit or means providing for the general lighting of the said building.

(6) At every opening to a fire escape a red light shall be kept burning at all times and said light shall be connected to a circuit or means of lighting, separate and apart from the circuit or means providing for the general lighting of said building; there shall be posted and maintained in conspicuous places in each hall and in each guest room except in the hall or rooms on the ground floor of such buildings, plainly written notices reading "fire escapes are indicated by red lights."

(7) Every public lodging or food service establishment shall be provided with one fire extinguisher of a style and size approved by the national board of fire underwriters on each floor containing twenty-five hundred square feet or less of floor area, and one additional fire extinguisher on each floor for each twenty-five hundred square feet or less of additional floor space. Such extinguishers shall be placed in a convenient location in a public hallway outside of the sleeping rooms at or near the head of the stairs and shall always be in a condition for use.

(8) Each bedroom or apartment in each public lodging establishment shall be equipped with a good substantial lock and key on each door opening to the outside or to an adjoining room or apartment, or to a hallway.

(9)(a) The hotel and restaurant commissioner shall inspect or cause to be inspected by a competent engineer, every elevator used to carry passengers and freight, in public lodging and public food service establishments in this state, and when it is found that elevators are in an unsafe condition, the hotel commissioner shall require that such elevators be put in safe condition. Thereupon the owner, manager or lessee of the building or the party in charge thereof, wherein such elevators may be located, shall immediately repair and put such elevator or elevators in a safe condition.

(b) This section shall not apply to hotels, apartment houses, rooming houses or restaurants which now or hereafter maintain elevator service contracts or elevator public liability insurance; provided such public lodging and public food service establishments shall annually file with the hotel and restaurant commissioner a copy of an inspection report made under said service contract, or elevator insurance policy.

(10) All elevator shafts located in public lodging and public food service establishments in this state shall be of noncombustible material, and they shall be constructed in accordance with rules and regulations made and promulgated by the hotel commissioner.

(11) The plans and specifications of all cooperative and condominium apartments for residential use, irrespective of intended occupancy

by the owner of such apartments, shall be submitted to the supervising architect of the commission for approval prior to the permit for such construction being issued by any governmental authority, and said apartments shall be constructed in accordance with the requirements of public lodging establishments within the jurisdiction of the hotel and restaurant commission under chapter 509 and the rules and regulations promulgated thereunder. The regular construction permit fees shall be paid the commission for approval of such plans by the supervising architect and for inspection during construction; provided, however, such apartments shall not be required to be licensed under chapter 509 so long as the owners of such apartments actually occupy them or none of the apartments are rented to tenants or guests.

(4) **APPLICATION FOR LICENSE; PENALTY FOR FAILURE TO APPLY.**—It shall be the duty of every individual who enters the public lodging or public food service business to make application for the licensing of his establishment prior to the commencement of operation. (g) **Rooming houses, guest houses, cabins.**—All establishments not within the foregoing category shall be classified as rooming houses, guest houses, cabins, tourist camps, or otherwise according to choice, but shall not be allowed a classification that could be confused with one of the foregoing. Converted dwelling houses, unless they can qualify for another classification, shall be classified under this paragraph.

(2) When twenty-five per cent or more of the units in any establishment fall within a classification different from the particular classification applicable to it, such establishment shall obtain a separate classification for such twenty-five per cent or more units, unless otherwise provided herein. All notices to be served by the hotel and restaurant commissioner, provided for in this chapter, shall be delivered personally, or by a deputy commissioner, or by registered letter, to the owner, agent, lessee or manager of such building or premises, setting forth the facts constituting the alleged violation, the law or regulation alleged to have been violated, and the time and place of hearing thereon. Any such owner, agent, lessee, or manager shall at any such hearing have the right to cross-examine witnesses, produce wit-

suspension or revocation arose, and even though it may have been issued to a licensee other than the person, firm or corporation who held the license at the time such cause for such suspension or revocation arose.

(c) Proceedings for suspension or revocation under this section, and for review of such proceedings, shall be in accordance with those provisions of §509.261, which govern proceedings for suspension and revocation for the causes specified in said section.

At least ten days before entering the order granting or denying the application, he shall mail a notice of the receipt of the application to the local small loan exchange (if there be one) in

—If the licensing official shall find (a) that the financial responsibility, experience, character, and general fitness of the applicant, and of the members thereof, if the applicant is a co-partnership or association, and of the officers and directors thereof if the applicant be a corporation, are such as to command the confidence of the public and to warrant belief that the business will be operated lawfully, honestly, fairly and efficiently within the purposes of this chapter, and (b) that allowing such applicant to engage in the business will promote the convenience and advantage of the community in which the business of the applicant is to be conducted, (in making such determination the licensing official shall take into consideration the services rendered borrowers of the said community by the registrants, if any, under chapter 519 as well as licensees, if any, under this chapter in said community) and (c) that the applicant has available for the operation of such business at the specified location liquid assets of at least ten thousand dollars, if the specified location is in a community of twenty-five thousand or less population, according to the last United States census, or twenty-five thousand dollars, if the specified location is in a community of more than twenty-five thousand population, according to said census, he shall thereupon file his findings of fact with the department and enter an order granting such application and issue and deliver a license to the applicant to make loans in accordance with the provisions of this chapter at the location specified in the said application (provided that nothing in this chapter shall be construed to prevent a licensee from lending to residents of any part of this state or any other state or country nor to prohibit the making of loans by mail when authorized by the department). Said license shall remain in full force and effect until surrendered by the licensee or revoked or suspended as provided by law or as may be prohibited by the provisions of this chapter. If the licensing official shall not so find, he shall thereupon enter an order denying such application and notify the applicant of the denial and return the sum paid as a license fee, retaining the one hundred dollars investigation fee to cover the cost of investigating the application. In the event any person shall purchase substantially all of the assets of any existing licensed office, the purchaser, if not a licensee hereunder, upon application, shall be granted a ninety-day temporary license hereunder, applicable to the same location, within ten days of such purchase, and the licensing official shall cause an investigation to be made as provided by subsection (1) to determine whether a license shall be issued, provided such purchaser shall not be required to meet the provisions of subsection (2) (b) of this section. (b) The licensee either knowingly or without the exercise of due care to prevent the same has violated any provision of this chapter or any regulation lawfully made by the licensing official under and within the authority of this chapter; or that

(c) Any fact or condition existed at the time of the original application for such license which clearly would have warranted the licensing official in refusing originally to issue such license.

(2) **SUSPENSION OF LICENSE.**—If the licensing official shall find that probable cause for revocation of any license exists and that enforcement of this chapter requires immediate suspension of such license pending investigation, he may, upon three days' notice and a hearing, enter an order suspending such license for a period not exceeding thirty days.

(3) **LICENSES AFFECTED BY REVOCATION OR SUSPENSION.**—The licensing official may revoke or suspend only the particular license with respect to which ground for revocation or suspension may occur or exist, or, if he shall find that such grounds for revocation are of general application to all offices or to more than one office operated by such licensee, he shall revoke or suspend all of the licenses issued to said licensee or such licensees as such grounds apply to, as the case may be.

(4) **SURRENDER OF LICENSE.**—Any licensee may surrender any license by delivering it to the licensing official with a written notice that he thereby surrenders it, but such surrender shall not affect his civil or criminal liability for acts committed prior thereto.

(5) **PRE-EXISTING CONTRACTS.**—No revocation, suspension, or surrender of any license shall impair or affect the obligation of any pre-existing lawful contract between the licensee and any borrower.

(6) **REINSTATEMENT OF LICENSE.**—Every license issued hereunder shall remain in force and effect until the same shall have been surrendered, revoked or suspended in accordance with the provisions of this chapter, but the licensing official shall have authority on his own initiative to reinstate suspended licenses or to issue new licenses to a person whose license or licenses have been revoked if no fact or condition then exists which clearly would have warranted the licensing official in refusing originally to issue such license under this chapter.

(7) **RIGHT OF REVIEW.**—Whenever the licensing official shall revoke or suspend a license issued pursuant to this chapter, he shall forthwith enter an order to that effect and file in his office a written record which shall include a transcript of the evidence, the findings with respect thereto, the order, and the reasons supporting the revocation or suspension, and forthwith serve upon the licensee a copy thereof, which order may be reviewed as provided by law.

(1) **PLACE OF BUSINESS.**—Not more than one place of business for the making of loans under this chapter shall be maintained under the same license, but the licensing official shall issue additional licenses to the same licensee upon compliance with all the provisions of this chapter governing issuance of a single license.

(2) **REMOVAL.**—No change in the place of business of a licensee to a location outside of the original city or town shall be permitted under the same license. When a licensee wishes to change his place of business within the same city or town, he shall give written notice thereof to the licensing official who shall investigate the facts, and if he shall find that the proposed location is reasonably accessible to borrowers under existing loan contracts, he shall enter an order permitting the change and shall file his findings with the department and shall amend the license accordingly. If the licensing official shall not so find, he shall file his findings with the department and shall enter an order denying the removal of the license to the requested location.

(3) **OTHER BUSINESS IN THE SAME OFFICE.**—A licensee may conduct the business of making loans under this chapter within a place of business in which other business is solicited or engaged in, unless the licensing official shall find, after a hearing, and based on written findings of fact, that the conduct of such other business by the licensee results in an evasion of this chapter. Upon such finding, the licensing official shall order the licensee, in writing, to desist from such evasion, provided, however, that no license shall be granted to or renewed for any person or organization engaged in the pawnbroker business.

516.11 Investigation by licensing officials.—

(1) **EXAMINATIONS.**—For the purpose of discovering violations of this chapter or securing information lawfully required by him hereunder, the licensing official may at any time, either personally or by a person or persons duly designated by him, investigate the loans and business and examine the books, accounts, records, and files used therein, of every licensee and of every person who shall be engaged in the business described in §516.02. If the licensing official shall have reason to believe that any act or business is being done, or is about to be done, which is illegal under this chapter, he may make all examinations and take all steps authorized under this subsection, whether such person shall act or claim to act as principal or agent, or under or without the authority of this chapter. Any person who shall advertise for, solicit, or hold himself out as willing to make loan transactions in the amount or of the value of six hundred dollars or less, whether as principal, agent, broker, or otherwise shall, for the purposes of this subsection, be presumed to be engaged in such business. For the purposes of this section the licensing official and his duly designated representatives shall have and be given free access to the offices and places of business, books, accounts, papers, records, files, safes and vaults, of all such persons. The licensing official and all persons duly designated by him shall have authority to require the attendance of witnesses and to examine under oath all persons whomsoever whose

testimony he may require relative to such loans or such business or to the subject matter of any examinations, investigation or hearing.

(2) **ANNUAL EXAMINATION.**—At least twice each year, but no oftener than is reasonably necessary in order to verify reasonably founded suspicions of violations, the licensing official or his duly authorized representatives shall make an examination of the place of business of each licensee and of the loans, transactions, books, papers and records of such licensee in so far as they pertain to the business licensed under this chapter. Every licensee shall pay to the licensing official an examination fee based upon the amount of outstanding loans due the licensee at the time of said examination, as follows:

From \$0 to \$25,000.00	\$ 30.00
From \$25,000.01 to \$50,000.00	40.00

From \$100,000.01 to \$250,000.00	75.00
From \$250,000.01 and over	100.00

(3) **LIEN FOR FEES.**—The above examination fees shall be secured by a lien upon the assets of the licensee and if not paid within thirty days from and after the licensee is billed therefor by the licensing official the license of the licensee shall stand suspended until said examination fee is paid in full.

516.12 Records to be kept by licensee.—

(1) **BOOKS AND RECORDS.**—The licensee shall keep and use in his business such books, accounts, and records in accordance with sound and accepted accounting practices, to enable the licensing official to determine whether such licensee is complying with the provisions of this chapter and with the rules and regulations lawfully made by the licensing official hereunder. Every licensee shall preserve such books, accounts and records, including cards used in the card system, if any, for at least two years after making the final entry on any loan recorded therein.

(2) **ANNUAL REPORTS.**—Each licensee shall annually on or before the first day of April file a report with the licensing official for the preceding calendar year. Such report shall give information with respect to the financial condition of such licensee and shall include the name and address of the licensee; balance sheets at the beginning and end of the accounting period; a statement of income and expense for said period; a schedule of assets used and useful in the small loan business; an analysis of charges, size of loans and types of security on loans of six hundred dollars or less; an analysis of delinquent accounts; an analysis of suits, repossessions and sales of chattels and such other relevant information as he may reasonably require concerning the business and operations during the preceding calendar year of each licensed place of business conducted by such licensee within the state. 516.13 False publications prohibited.—No licensee subject to this chapter shall advertise, display, distribute, broadcast or televise, or cause or permit to be advertised, displayed, distributed, broadcast or televised, in any manner whatsoever, any false, misleading or deceptive statement concerning the business authorized under this chapter.

History.—§12, ch. 10177, 1925; CGL 4010; §8, ch. 57-201.

516.14 Interest rates.—

(1) Every licensee may lend any sum of money not exceeding six hundred dollars on such security, if any, satisfactory to both the borrower and the licensee and may charge, contract for and receive thereon interest at a rate not to exceed three per cent per month on that part of the unpaid principal balance not exceeding three hundred dollars and two per cent per month on that part of the unpaid balance in excess of three hundred dollars but not exceeding six hundred dollars, provided that at the expiration of a period of twelve months following the last contractual installment date the interest on any balance still unpaid shall not exceed ten per cent per year. Interest shall not be payable in advance or compounded and shall be computed on unpaid balances on the basis of the number of days actually elapsed and, for the purpose of such computations, a month shall be any period of thirty consecutive days. If part or all of the consideration for a loan contract is the unpaid principal balance of a prior loan, then the principal amount payable under such loan contract may include any unpaid charges which have accrued within two months on the prior loan and, for the purposes of this chapter, such loan contract shall be deemed a new and separate loan transaction. In addition to the interest herein provided for, no further or other charges or amount whatsoever for any examination, service, brokerage, commission or other thing or otherwise shall be directly or indirectly charged, contracted for or received, except the documentary excise tax and lawful fees, if any, actually and necessarily paid out by the licensee to any public officer for filing or recording or releasing in any public office, any instrument securing the loan, which fees may be collected when the loan is made or at any time thereafter, or actual and reasonable attorney fees as determined by the court in which suit is filed and court costs, including actual and reasonable expenses of repossession, storing and selling of any property pledged as security, as determined by the court in which suit is filed. If interest or charges in excess of those permitted by this chapter shall be charged, contracted for or received, except as the result of a bona fide or accidental error, the contract or loan shall be void and the li-

licensee shall have no right to collect or receive any principal, interest or charges whatsoever. In the event of an accidental or bona fide error, the licensee shall refund or credit the borrower with the amount of such overcharge within five days of the discovery of such error.

(2) No licensee shall induce or permit any borrower to split up or divide any loan. No licensee shall induce or permit any person, nor any husband and wife, jointly or severally, to become obligated to him, directly or contingently or both, under more than one contract of loan at the same time, for the purpose or with the result of obtaining a higher rate of interest than would otherwise be permitted by this section.

(3) No licensee shall directly or indirectly charge, contract for or receive any interest or consideration greater than ten per cent per annum upon the loan, use or forbearance of money, goods, or things in action or upon the loan, use or sale of credit, of the amount or value of more than six hundred dollars. The foregoing prohibition shall also apply to any licensee who permits any person, as borrower, or as endorser, guarantor, or surety for any borrower, or otherwise, to owe directly or contingently or both to the licensee at any time the sum of more than six hundred dollars for principal.

Upon such statement there shall be printed in English a copy of §516.14;

(2) Give to the borrower a plain and complete receipt for all payments made on account of any loan at the time payments are made;

(3) Permit payment of the loan in whole or in part prior to its maturity with interest on such payment to the date thereof;

(4) Upon repayment of the loan in full mark indelibly every paper signed by the borrower with the word "Paid" or "Cancelled" and release any mortgage, restore any pledge, cancel and return any note, and cancel and return any assignment given by the borrower as security.

History.—§14, ch. 10177, 1925; CGL 4012.

516.16 Confession of judgment; power of attorney; contents of notes and security.—No licensee shall take any confession of judgment or any power of attorney. Nor shall he take any note, promise to pay or security that does not state the actual amount of the loan, the time for which it is made, and the rate of interest charged, nor any instrument in which blanks are left to be filled after execution.

History.—§15, ch. 10177, 1925; CGL 4013.

516.17 Assignment of wages, etc., given to secure loans.—No assignment of or order for the payment of any salary, wages, commissions or other compensation for services, earned or to be earned, given to secure any such loans shall be valid unless the amount of such loan is paid to the borrower simultaneously with its execution; nor shall any assignment or order, or any chattel mortgage or other lien on household furniture then in the possession and use of the borrower be valid unless it be in writing signed in person by the borrower; or, if the borrower is married, unless it be signed in person by both husband and wife; provided, that written assent of a spouse shall not be required when husband and wife have been living separate and apart for a period of at least five months prior to such assignment, order, mortgage or lien.

516.18 Rate of interest or consideration.—

(1) No person engaged in the business of making loans of money, except as authorized by this chapter, shall directly or indirectly charge, contract for or receive any interest or consideration greater than ten per cent per annum upon the loan, use or forbearance of money, goods or things in action, or upon the loan, or use of credit, of the amount or value of six hundred dollars or less.

(2) The foregoing prohibition shall apply to any lender who, as security for any such loan, use or forbearance of money, goods or things in action, or for any such loan or use of credit, makes a pretended purchase of property from any person and permits the owner or pledgor to retain the possession thereof, or who by any device or pretense of charging for services or otherwise seeks to obtain a greater compensation than is authorized by this chapter.

(3) No loan for which a greater rate of interest or charge than is allowed by this chapter that has been contracted for or received, wherever made, shall be enforced in this state, and every person in anywise participating therein in this state shall be subject to the provisions of this chapter.

History.—§18, ch. 10177, 1925; CGL 7880.

cf.—§775.06, Alternative punishment.

516.20 Interest defined.—

(1) Any profit or advantage of any kind whatsoever that any licensee may contract for, collect, receive or in anywise obtain by a collateral sale, purchase, or agreement, in connection with any loan of six hundred dollars or less, shall be deemed to be interest or consid-

eration for the purposes of regulation under this chapter. Such transactions shall be governed by and subject to the provisions of this chapter, except commissions received as a person licensed by the insurance commission of Florida on insurance written as hereinafter permitted, shall be deemed to be interest or consideration for the purposes of regulation under this chapter. However, security consisting of tangible property offered as security may be reasonably insured against loss for a reasonable term, considering the circumstances of the loan, and such insurance shall not be deemed such collateral sale, purchase, or agreement when the policy is payable to the borrower or any member of his family, even though the customary mortgagee clause is attached or the licensee is a coassured; provided, that such insurance is sold at standard rates through a person duly licensed by the insurance commissioner of Florida.

(2) No licensee shall enter into any contract for a loan for a period of longer than twenty-four months from the date the loan is made.

History.—§7, ch. 20728, 1941; §11, ch. 57-201.

516.21 Restriction of borrower's indebtedness.—No licensee shall directly or indirectly charge, contract for, or receive any interest, discount, or consideration greater than ten per cent per annum upon any loan, or upon any part or all of any aggregate indebtedness of the same borrower, of the amount of more than six hundred dollars. The foregoing prohibition shall also apply to any licensee who permits any person, as borrower or as endorser, guarantor, or surety for any borrower, or otherwise, or any husband and wife jointly or severally, to owe directly or contingently or both to the licensee at any time a sum of more than six hundred dollars for principal; provided, however, that if the proceeds of any loan of six hundred dollars or less are used to discharge a pre-existing debt of the borrower for goods or services owed directly to the person who provided such goods or services, the licensee may accept from such person a guaranty of payment of the principal of such loan with interest at a rate not exceeding ten per cent per annum and the acceptance of one or more such guaranties in any aggregate amount shall not affect the rights of such licensee to make the charges against the primary borrower authorized by §516.14, nor shall the limitation apply to the isolated acquisition directly or indirectly by purchase or by discount of bona fide obligations of a borrower. Provided, however, in the event a licensee shall make a bona fide purchase of substantially all of the loans, made under this chapter, from another licensee, or other lender not affiliated with the purchaser and such licensee or other lender shall have an existing loan outstanding to one or more of the borrowers whose loans are purchased, such licensee making such purchase shall be entitled to liquidate and collect the balances due

on such loans, including all lawful charges and interest at the rates or amounts agreed upon in such loan contracts.

In any court or proceeding such copy shall be prima facie evidence of the fact of the issuance of such license, regulation or order.

In any such action, an order or judgment may be entered awarding such temporary or permanent injunction as may be deemed proper. (3) In addition to all other means provided by law for the enforcement of a temporary restraining order, temporary injunction, or permanent injunction, said circuit court shall have power and jurisdiction to impound, and to appoint a receiver for, the property and business of the defendant including books, papers, documents, and records appertaining thereto or so much

In such action the proceedings shall be, in all respects, *de novo*. In such action the record, transcript, evidence, findings, and order of the licensing official shall be admissible as evidence.

History.—§10, ch. 20728, 1941.

516.26 Purchase or assignment of wages, salaries, etc.—That hereafter the payment of six hundred dollars or less in money, credit, goods or things in action as consideration for any sale or assignment of or order for the payment of wages, salary, commissions or other compensation for services, whether earned or to be earned, shall, for the purposes of regulation under, and the enforcement and interpretation of, any law, civil or criminal, relating to loans, interest charges or usury, be deemed a loan secured by such assignment and the amount by which such assigned compensation exceeds the amount of such consideration actually paid shall, for the purpose of regulation under, and the interpretation and enforcement of, such law, be deemed interest upon such loan from the date of such payment until the date such compensation is payable. (2) PROCEDURE FOR REGISTRATION BY NOTIFICATION.—

(a) Securities entitled to registration by notification shall be registered by the filing by the issuer or by any registered dealer interested in the sale thereof in the office of the commission of a statement with respect to such securities containing the following:

1. Name of issuer, location and, if incorporated, place of incorporation;

2. A brief description of the security, including amount of the issue;

3. Amount of securities to be offered in the state;

4. A brief statement of the facts which show that the security falls within one of the classes in this section defined;

5. The maximum price at which the securities are to be offered for sale to the public.

(b) In the case of securities falling within the class defined by subsection (1), paragraph (a) or (b), a copy of the circular to be used for the public offering shall be filed in the office of the commission with the statement or within two days thereafter or within such further time as the commission shall allow.

(c) In the case of securities falling within the classes defined by subsection (1), paragraphs (c), (d), (e), (f) and (g), the circular to be used for the public offering shall be filed with the statement.

(d) The filing of such statement in the office of the commission and the payment of the fee hereinafter provided shall constitute the registration of such security. Upon such registration, such securities may be sold in this state by any registered dealer; subject however, to the further order of the commission as hereinafter provided.

(e) If, at any time in the opinion of the commission, the information contained in the statement or circular filed is or has become misleading, incorrect, inadequate or incomplete, or the sale or offering for sale of the security may work or tend to work a fraud, the commission may require from the person filing such statement and/or the issuer such further information as may in its judgment be necessary to establish the classification of such security as claimed in said statement or to enable the commission to ascertain whether the registration of such security should be revoked on any ground specified in §517.11, and the commission may also suspend the right to sell such security pending further investigation by entering an order specifying the grounds for such action, and by notifying by mail, or personally, or by telephone confirmed in writing, or by telegraph, the person filing such statement and every registered dealer who shall have notified the commission of an

intention to sell such security. The refusal to furnish information required by the commission within a reasonable time to be fixed by the commission may be a proper ground for the entry of such order of suspension. Upon the entry of any such order of suspension no further sales of such security shall be made until the further order of the commission.

(f) In the event of the entry of such order of suspension the commission shall upon request give a prompt hearing to the parties interested. If no hearing is requested within a period of twenty days from the entry of such order, or if upon such hearing the commission shall determine that any such security does not fall within a class entitled to registration under this section, or that the sale thereof should be revoked on any ground specified in §517.11, it shall enter a final order prohibiting sales of such security, with its findings with respect thereto; provided, that if the finding with respect to such security is that it is not entitled to registration under this section, the applicant may apply for registration by qualification by complying with the requirements of §517.09. Until the entry of such final order the suspension of the right to sell, though binding upon the persons notified thereof, shall be deemed confidential, and shall not be published, unless it shall appear that the order of suspension has been violated after notice. Appeals from such final order may be taken as hereinafter provided. If, however, upon such hearing the commission shall find that the security is entitled to registration under this section, and that its sale will neither be fraudulent nor result in fraud, they shall forthwith enter an order revoking such order of suspension and such security shall be restored to its status as a security registered under this section as of the date of such order of suspension.

(g) At the time of filing the statement, as prescribed in this section, the applicant shall pay to the commission a fee of one-twentieth of one per cent of the aggregate sales price of the securities to be sold in this state for which the applicant is seeking registration, but in no case shall such fee be less than twenty dollars.

Applications shall be in writing and shall be duly signed by the applicant, and sworn to by any person having knowledge of the facts, and filed in the office of the commission and may

be made either by the issuer of the securities for which registration is applied or by any registered dealer desiring to sell the same within the state.

(3) The commission may require the applicant to submit to the commission the following information respecting the issuer and such other relevant information as the commission may in its judgment deem necessary to enable it to ascertain whether such securities shall be registered pursuant to the provisions of this section:

(h) The amount of capital stock which is to be set aside and disposed of as promotion stock, and a statement of all stock issued from time to time as promotion stock.

(i) If the issuer is a corporation, there shall be filed with the application a certified copy of its articles of incorporation with all amendments and of its existing bylaws, if not already

on file in the office of the commission or of the secretary of state of this state. If the issuer is a trustee there shall be filed with the application a copy of all instruments by which the trust is created or declared and in which it is accepted and acknowledged. If the issuer is a partnership or an unincorporated association, or joint stock company, or any other form of organization whatsoever, there shall be filed with the application a copy of its articles of partnership or association and all other papers pertaining to its organization, if not already on file in the office of the commission or of the secretary of state of this state.

(4) All of the statements, exhibits and documents of every kind required by the commission under this section, except properly certified public documents, shall be verified by the oath of the applicant or of the issuer in such manner and form as may be required by the commission.

(5) With respect to securities required to be registered by qualification under the provisions of this section, the commission may by order duly recorded fix the maximum amount of commission or other form of remuneration to be paid in cash or otherwise, not to exceed twenty per cent, directly or indirectly, for or in connection with the sale or offering for sale of such securities in this state.

(6) At the time of filing the information, as hereinbefore prescribed in this section, the applicant shall pay to the commission a fee of one-tenth of one per cent of the aggregate sales price of the securities to be sold in this state, for which the applicant is seeking registration, but in no case shall such fee be less than forty dollars or more than one thousand dollars.

(7) If upon examination of any application the commission shall find that the sale of the security referred to therein would not be fraudulent and would not work or tend to work a fraud upon the purchaser, and that the terms of sale of such securities would be fair, just and equitable, and that the enterprise or business of the issuer is not based upon unsound business principles, it shall record the registration of such security in the register of securities, and thereupon such security so registered may be sold by the issuer or by any registered dealer, subject, however, to the further order of the commission.

(1) Securities that have been outstanding and in the hands of the public for not less than one year as the result of prior original marketing by the issuer, or by an underwriter on behalf of an issuer, shall be entitled to registration by announcement in the manner and subject to the conditions provided by this section.

(2) Securities entitled to registration by announcement can be registered only by a dealer registered in the office of the commission as provided by §517.12, by such a dealer filing in the office of the commission a written an-

(3) The filing of such announcement in the office of the commission shall constitute the registration of the security, and such dealer shall pay to the commission a filing fee of ten dollars within thirty-six hours after the time of such filing. Upon such registration, such securities may be sold in this state by any registered dealer at a price or prices reasonably related to the current market price of such security at the time of sale; subject however, to any and all rights and authority granted the commission and to any person or purchaser under chapter 517 in respect of securities registered in the office of the commission by notification or qualification. Any such action shall be brought either in the county of the plaintiff's residence or in the county in which the commission has its office. The written consent shall be authenticated by the seal of said issuer, if it has a seal, and by the acknowledged signature of a member of the copartnership or company, or by the acknowledged signature of any officer of the incorporated or unincorporated association, if it be an incorporated or unincorporated association, duly authorized by resolution of the board of directors, trustees or managers of the corporation or association, and shall in such case be accompanied by a duly certified copy of the resolution of the board of directors, trustees or managers of the corporation or association, authorizing the officers to execute the same. In case any process or pleadings mentioned in this chapter are served upon the commission it shall be by duplicate copies, one of which shall be filed in the office of the commission and another immediately forwarded by the commission by registered mail to the principal office of the issuer against which said process or pleadings are directed.

517.11 Revocation of registration of securities.—The commission may revoke the registration of any security by entering an order to that effect, with its findings in respect thereto, if upon examination into the affairs of the issuer of such security it shall appear that the issuer:

 - (3) Has been or is engaged or is about to engage in fraudulent transactions;
 - (4) Is in any other way dishonest or has made any fraudulent representations in any prospectus or in any circular or other literature that has been distributed concerning the issuer or its securities;

- In making such examination the commission shall have access to and may compel the production of all the books and papers of such issuer, and may administer oaths to and examine the officers of such issuer or any other person connected therewith as to its business and affairs and may also require a balance sheet exhibiting the assets and liabilities of any such issuer or his income statement, or both, to be certified to by a public accountant either of this state or of any other state where the issuer's business is located, approved by the commission.

Whenever the commission may deem it

necessary, it may also require such balance sheet or income statement, or both, to be made more specific in such particulars as the commission shall point out or to be brought down to the latest practicable date.

If any issuer shall refuse to permit an examination to be made by the commission it shall be proper ground for revocation of registration.

If the commission shall deem it necessary it may enter an order suspending the right to sell securities pending any investigation, provided that the order shall state the commission's grounds for taking such action.

Notice of the entry of such order shall be given by mail, or personally, or by telephone confirmed in writing, or by telegraph, to the issuer and every registered dealer who shall have notified the commission of an intention to sell such security.

Before such order is made final, the issuer or dealer applying for registration shall on application be entitled to a hearing.

The annual registration fee shall be one hundred dollars for dealers and twenty dollars for salesmen. Each dealer shall pay fifty dollars annually for each additional or branch office in the state. Dealers and salesmen may obtain registration after July first at one-half the fee hereinabove stated.

(7) Changes in registration occasioned by changes in the personnel of a partnership or in the principals, copartners, officers or directors of any dealer may be made from time to time by written application setting forth the facts with respect to such change.

The examiner shall give all parties a reasonable opportunity to present all pertinent and relevant testimony and to cross-examine all adverse witnesses; but may refuse, subject to review by the court or commission, to hear cumulative, irrelevant, incompetent or immaterial testimony unless the party offering it shall pay the expense incurred thereby in advance. Evidence of witnesses outside of the state may be taken by interrogatories in the manner prescribed by the regulations of the commission. The commission may define the rules of evidence applicable to such hearings, examinations and investigations consistent with due process of law, and a fair and impartial determination of the facts. The reasonableness of such rules shall be subject to review by the court.

Where any witness who has been served with a subpoena fails or refuses to be or appear at the time and place named, or fails or refuses to answer any lawful questions propounded, or produce the books, records or documents required, or is guilty of disorderly or contumacious conduct at the hearing, the facts shall be made known to a circuit judge of the county who shall forthwith issue an attachment for such witness, and cause him to be brought before the judge. Upon appearance, if the witness shall fail to purge himself of such failure, refusal or conduct, the judge shall proceed further as in cases of contempt of court; and said witness shall pay the costs of said attachment.

Witnesses shall be entitled to the same fees and mileage as they may be entitled by law for attending as witnesses in the circuit court, except where such examination, investigation, or hearing, is held at the place of business or residence of the witness, but no witness shall be required to attend a hearing outside of the

county wherein he resides, or may for the time be domiciled, without his consent, unless it be shown to a county or circuit judge that such person is attempting to avoid appearing as a witness.

The fees of witnesses and officers shall be paid by the commission upon presentation of vouchers approved by the examiner or representative; and compensation of the examiner shall be paid by the commission.

In hearings to revoke the license of any dealer or salesman under the provisions of §517.16, a copy of the charges against such dealer or salesman shall be served upon him by registered United States mail or in accordance with the provisions of chapters 47 and 48, relating to personal service. The charges shall designate a time, not less than ten days from the date on which said copy of the charges is mailed or served as aforesaid, upon which date the dealer or salesman may file written answer thereto. When issues of fact are thus made up, or when said dealer or salesman fails to file such answer, the commission or its chairman may appoint an examiner, as provided in this section, to take the proof in the matter by depositions and to report same to the commission for determination.

When testimony and evidence are taken before an examiner pursuant to the provisions of this section, the examiner shall at the earliest possible time report such testimony and evidence to the commission and the commission may thereupon proceed to determine the matter involved without further hearing, unless it elects to hear the matter further.

such purchaser down to the date of repayment, such interest to be computed:

(a) In case such securities consist of interest bearing obligations at the same rate as provided in such obligations; and

(2) Any person having a right of action against a dealer or salesman under this section shall have a right of action under the bond provided in §517.12.

(3) A registration by notification made in good faith and after the commission, on application, shall have given tentative consent to such registration, shall not, as to sales made prior to revocation of such registration, result in the liabilities prescribed in this section, although the securities may not be entitled to such registration.

(a) It shall be a railroad corporation incorporated under the laws of the United States or of any state or commonwealth thereof or of the District of Columbia.

(b) It shall own and operate within the United States not less than five hundred miles of standard gauge railroad lines, exclusive of sidings.

As used in this subsection, the words "income available for fixed charges" mean the amount obtained by deducting from gross income all items deductible in ascertaining the net income other than contingent income interest and those constituting fixed charges as used in the accounting reports of common carriers as prescribed by the accounting regulations of the interstate commerce commission.

As used in this subsection, the words "fixed charges" mean rent for leased roads, miscellaneous rents, funded debt interest and amortization of discount on funded debt.

(7) **BOND OF GAS, WATER OR ELECTRIC COMPANIES.**—In bonds issued by, or guaranteed as to principal and interest by, or assumed by, any gas, water or electric company, subject to the following conditions:

(c) The company shall be subject to regulation by a public service commission, a public utility commission or any other similar regulatory body duly established by the laws of the United States or any state or commonwealth or of the District of Columbia in which such company operates.

(d) The company shall have all the franchises necessary to operate in the territory in which at least seventy-five per cent of its gross revenues are obtained, which franchises shall either be indeterminate permits of, or agreements with, or subject to the jurisdiction of a public service commission or other duly constituted regulatory body, or shall extend at least five years beyond the maturity of the bonds.

(e) The company shall have been in existence for a period of not less than eight fiscal years, and at no time within the period of eight fiscal years immediately preceding the date of such investment shall such company have failed to pay punctually and regularly the matured principal and interest of all its indebtedness, direct, assumed or guaranteed, but the period of life of the company, together with the period of life of any predecessor company, or company from which a major portion of its property was acquired by consolidation, merger or purchase, shall be considered together in determining such required period.

(f) For a period of five fiscal years immediately preceding the date of the investment, net earnings shall have averaged per year not less than two times the average annual interest charges on its entire funded debt, applicable to that period and for the last fiscal year preceding the date of investment, such net earnings shall have been not less than two times such interest charges for that year.

(g) The bonds of any such company must be part of an issue of not less than one million dollars and must be mortgage bonds secured by a first or refunding mortgage upon property owned and operated by the company issuing or assuming them or must be underlying mortgage bonds secured by property owned and operated by the companies issuing or assuming them. The aggregate principal amount of bonds secured by such first or refunding mortgage, plus the principal amount of all the underlying outstanding bonds, shall not exceed sixty per cent of the value of the physical property owned, which shall be book value less such reserves for depreciation or retirement, as the company may have established, and subject to the lien of such mortgage or mortgages securing the total mortgage debt. If such mortgage is a refunding mortgage, it must provide for the retirement on or before

the date of maturity of all bonds secured by prior liens on the property.

As used in this subsection, the words "gross operating revenues and expenses" mean, respectively, the total amount earned from the operation of, and the total expenses of maintaining and operating, all property owned and operated by, or leased and operated by, such companies, as determined by the system of accounts prescribed by the public service commission or other similar regulatory body having jurisdiction.

As used in this subsection, the words "net earnings" mean the balance obtained by deducting from its gross operating revenues, its operating and maintenance expenses, taxes (other than federal and state income taxes), rentals, and provisions for depreciation, renewals and retirements of the physical assets of the company, and by adding to such balance its income from securities and miscellaneous sources, but not, however, exceeding fifteen per cent of such balance.

(8) **BONDS OF TELEPHONE COMPANIES.**—In bonds issued by, or guaranteed as to principal and interest by, or assumed by, any telephone company, subject to the following conditions:

(a) The telephone company by which such bonds are issued shall be incorporated under the laws of the United States or of any state or commonwealth thereof or of the District of Columbia, and shall be engaged in the business of supplying telephone service in the United States and shall be subject to regulations by the federal communications commission, a public service commission, a public utility commission or any similar regulatory body, duly established by the laws of the United States or of any state or commonwealth or of the District of Columbia in which such company operates.

(b) The company by which such bonds are issued, guaranteed or assumed shall have been in existence for a period of not less than eight fiscal years, and at no time, within the period of eight fiscal years immediately preceding the date of such investment, shall such company have failed to pay punctually and regularly the matured principal and interest of all its indebtedness, direct, assumed or guaranteed, but the period of life of the company, together with the period of life of any predecessor company, or company from which a major portion of its property was acquired by consolidation, merger, or purchase, shall be considered together in determining such required period. The company shall file with the federal communications commission, or a public service commission or similar regulatory body having jurisdiction over it, and make public in each year a statement and a report giving the income account covering the previous fiscal year, and a balance sheet showing in reasonable detail the assets and liabilities at the end of the year.

(c) For a period of five fiscal years immediately preceding the investment, the net earnings of such telephone company shall have

averaged per year not less than twice the average annual interest charges on its outstanding obligations applicable to that period, and for the last fiscal year preceding such investment, such net earnings shall have been not less than twice such interest charges for that year.

(d) The bonds must be part of an issue of not less than five million dollars and must be mortgage bonds secured by a first or refunding mortgage upon property owned and operated by the company issuing or assuming them, or must be underlying mortgage bonds similarly secured. As of the close of the fiscal year preceding the date of the investment by the fiduciary, the aggregate principal amount of bonds secured by such first or refunding mortgage, plus the principal amount of all the underlying outstanding bonds, shall not exceed sixty per cent of the value of the real estate and tangible personal property owned absolutely, which value shall be book value less such reserves for depreciation or retirement as the company may have established, and subject to the lien of such mortgage, or mortgages, securing the total mortgage debt. If such mortgage is a refunding mortgage, it must provide for the retirement, on or before the date of their maturity, of all bonds secured by prior liens on the property.

As used in this subsection, the words "gross operating revenues and expenses" mean, respectively, the total amount earned from the operation of, and the total expenses of maintaining and operating all property owned and operated by, or leased and operated by, such company as determined by the system of accounts prescribed by the federal communications commission, or any other similar federal or state regulatory body having jurisdiction in the matter.

As used in this subsection, the words "net earnings" mean the balance obtained by deducting from the telephone company's gross operating revenues its operating and maintenance expenses, provision for depreciation of the physical assets of the company, taxes (other than federal and state income taxes), rentals, and miscellaneous charges, and by adding to such balance its income from securities and miscellaneous sources but not, however, to exceed fifteen per cent of such balance.

(9) **FIRST MORTGAGES.** — In mortgages signed by one or more individuals or corporations, subject to the following conditions:

(a) If the taking of the mortgages as an investment for any particular trust, estate or guardianship will not result in more than forty per cent of the then value of the principal of such trust, estate or guardianship being invested in mortgages.

(b) Within thirty days preceding the taking of a mortgage as an investment the property encumbered or to be encumbered thereby shall be appraised by two or more reputable persons especially familiar with real estate values. The fair market value of the property as disclosed by the appraisal of such per-

(c) The mortgage shall encumber improved real estate located in the state and in or within five miles of the corporate limits of a city or town having a population of two thousand or more, according to the federal census next preceding the date of making any such investment.

(d) The mortgage shall be or become, through the recordation of documents simultaneously filed for record, a first lien upon the property described therein prior to all other liens, except taxes previously levied or assessed but not due and payable at the time the mortgage is taken as an investment.

(e) The mortgage shall secure no indebtedness other than that owing to the executor, administrator, trustee, or guardian taking the same as an investment.

(f) The amount of the indebtedness secured by the mortgage shall not exceed sixty per cent of the fair market value (as determined in accordance with the provisions of paragraph (b) of this subsection) of the property encumbered or to be encumbered by said mortgage.

(g) If the amount of the indebtedness secured by the mortgage is in excess of fifty per cent of the fair market value (as determined in accordance with the provisions of paragraph (b) of this subsection) of the property encumbered or to be encumbered by said mortgage, then the mortgage shall require principal payments, at annual or more frequent intervals, sufficient to reduce by or before the expiration of three years from the date the mortgage is taken as an investment, the unpaid principal balance secured thereby to an amount not in excess of fifty per cent of the fair market value of said property, as determined in accordance with the provisions of paragraph (b) of this subsection.

(h) The mortgage shall contain a covenant of the mortgagor to keep insured at all times the improvements on the real estate encumbered by said mortgage, with loss payable to the mortgagee, against loss and damage by fire, in an amount not less than the unpaid principal secured by said mortgage.

(i) Provided, however, that the foregoing limitations and requirements shall not apply to notes or bonds secured by mortgage or trust deed insured by the federal housing administrator, and that notes or bonds secured by mortgage or trust deed insured by the federal housing administrator, are declared to be eligible for investment under the provisions of this chapter.

or less in money, credit, goods, or things in action as consideration for any sale or assignment of, or order for, the payment of wages, salary, commissions, or other compensation for services, whether earned or to be earned, shall for the purpose of regulation under this chapter be deemed a loan of money secured by such sale, assignment or order. However, the registrant may require reasonable insurance against loss of tangible personal property offered as security for a loan, if obtained at standard rates through a duly licensed insurance agent of this state and the cost of such insurance or any part thereof shall not be deemed a charge or amount prohibited by this chapter nor deemed to be a charge subject to the provisions of §519.06.

such fine and imprisonment in the discretion of the court. Any contract of loan in the making or collection of which any act shall have been done which violates §519.03 of this chapter shall be void and the lender shall have no right to collect, receive, or retain any principal, interest or charges whatsoever.

History.—Comp. §6, ch. 25343, 1949.

519.07 Application, fee, investigation; issuance of certificate, etc.—

(1) Application for a certificate of authority to make loans under this chapter shall be in writing, under oath, and in the form prescribed by the comptroller, and shall contain the name, residence and business addresses of the applicant, and if the applicant is a co-partnership or association, of every member thereof, and if a corporation, of each officer and director thereof, also the county and municipality with the approximate location, where the business is to be conducted and such further relevant information as the licensing official may require. At the time of making such application the applicant shall pay to the comptroller the sum of one hundred dollars as a fee for investigating the application and the additional sum of one hundred dollars as a fee for a certificate of authority for a period terminating on the last day of the current calendar year.

(2) All fees herein provided for shall be collected by the comptroller and shall be turned in to the state treasury to the credit of the general revenue fund. The comptroller shall have full power to employ such examiners or clerks to assist the comptroller as may from time to time be deemed necessary and fix their compensation. A sufficient appropriation for carrying out the provisions of this chapter shall be included in the biennial appropriations act.

(3) Upon the filing of such application and the payment of such fees, the comptroller shall make an investigation of the facts concerning the application and the requirements provided for in subsection (4). At least ten days before entering the order granting or denying the application, he shall mail a notice of the receipt of the application to the local small loan exchange in the community where the applicant proposes to do business. If any registrant or licensee files an objection to the issuance of the certificate of authority to said applicant, or if the comptroller has any doubts of the applicant meeting the standards of subsection (4), he shall set a date and time for a hearing on such application not less than forty days nor more than sixty days from the date of mailing such notice. In addition to such hearing, the comptroller may make such further and other investigation relative to the application and the requirements as he may deem fit.

(4) If the comptroller shall find (a) that the financial responsibility, experience, character, and general fitness of the applicant, and of the members thereof, if the applicant be a co-partnership or association, and of the officers and directors thereof if the applicant be a cor-

poration, are such as to command the confidence of the public and to warrant belief that the business will be operated lawfully, honestly, fairly and efficiently within the purposes of this chapter, and (b) that allowing such applicant to engage in the business will promote the convenience and advantage of the community in which the business of the applicant is to be conducted, (in making such determination the comptroller shall take into consideration the services rendered borrowers of the said community by the licensees, if any, under chapter 516 as well as registrants, if any, under this chapter in said community) and (c) that the applicant has available for the operation of such business at the specified location liquid assets of at least ten thousand dollars, if the specified location is in a community of twenty-five thousand or less population, according to the last United States census or twenty-five thousand dollars, if the specified location is in a community of more than twenty-five thousand population, according to said census, he shall thereupon file his findings of fact with the department and enter an order granting such application and issue and deliver a certificate of authority to the applicant to make loans in accordance with the provisions of this chapter at the location specified in the said application (provided that nothing in this chapter shall be construed to prevent a registrant from lending to residents of any part of this state or any other state or country, nor to prohibit the making of loans by mail when authorized by the department). Said certificate of authority shall remain in full force and effect until surrendered by the registrant or revoked or suspended as provided by law, or as may be prohibited by the provisions of this chapter. If the comptroller shall not so find, he shall thereupon enter an order denying such application and notify the applicant of the denial and return the sum paid as a fee for the certificate of authority, retaining the one hundred dollars investigation fee to cover the cost of investigating the application. The comptroller shall approve or deny every application for license hereunto within ninety days from the filing thereof with the said fees.

(5) If such applicant is presently holding a license under the provisions of chapter 516 at the address for which application is now being made, it will not be necessary for such applicant to establish the convenience and advantage to the community for a license to be issued, assuming the other requirements of this chapter are met, if the license under chapter 516 is to be surrendered at the time the license under this chapter is issued.

(6) Any registrant having a certificate of authority under this chapter at the effective date of this amendment shall be conclusively presumed to have established the convenience and advantage of its business to the community wherein it has a certificate of authority. In the event any person shall purchase substantially all of the assets of any existing registrant's

office and the registrant selling such assets surrenders its certificate of authority for such office to the comptroller, the comptroller shall:

(a) Upon application, grant to any purchaser, not a registrant hereunder, a ninety-day temporary certificate of authority applicable to the same location within ten days from the date of such application, thereupon the comptroller shall cause an investigation to be made as provided by subsection (1) to determine whether a permanent certificate of authority shall be issued provided, however, the purchaser shall not be required to meet the provisions of subsection (4) (b);

(b) Upon application, grant a certificate of authority to any purchaser, which is a registrant hereunder, within ten days of such application, provided the purchaser shall meet the requirements of this chapter except such purchaser shall not be required to meet the provisions of subsection (4) (b) of this section.

(7) If the application is denied, the comptroller shall within ten days thereafter file in his office a written record which shall include a transcript of the evidence, the findings with respect thereto, the order and the reasons supporting the denial and forthwith serve upon the applicant a copy thereof. Such order and findings or an order granting an application may be reviewed as provided by law.

(8) All findings of facts and orders filed with the department shall be a public record.

(9) Not more than one place of business for the making of loans under this chapter shall be maintained under the same certificate of authority, but the comptroller shall issue additional certificates of authority to the same registrant upon compliance with all the provisions of this chapter governing issuance of a single certificate of authority.

(10) No change in the place of business of any registrant shall be permitted unless he give written notice to the licensing official and if the licensing official shall find the proposed location is reasonably accessible to the borrowers under existing contracts he shall permit the change of location within the original community for which the certificate was issued.

(11) A registrant may conduct the business of making loans under this chapter within a place of business in which other business is solicited or engaged in, unless the comptroller shall find, after a hearing, and based on written findings of fact, that the conduct of such other business by the registrant results in an evasion of this chapter. Upon such finding, the comptroller shall order the registrant, in writing, to desist from such evasion, provided, however, that no certificate of authority shall be granted to or renewed for any person or organization engaged in the pawnbroker business.

History.—§7, ch. 25343, 1949; §4, ch. 57-164.

519.08 Maximum charge.—Every registrant hereunder, notwithstanding anything contained in the usury law, may, if agreed upon in writing, contract for, collect or receive on loan

obligations made on such security, if any, satisfactory to both the borrower and registrant in which the proceeds, exclusive of interest and the initial charges, is in the amount of six hundred dollars or less, if repayable in substantially equal monthly or other periodic installments, charges not in excess of the following:

(1) An initial charge in an amount not exceeding ten dollars per one hundred dollars of the amount of the loan, repayable over a period of one year, and proportionately at that rate for a greater or lesser sum or for a longer or shorter period, which charge may be computed on the amount of the loan from date thereof until date of maturity of the final installment notwithstanding any agreement to pay the loan obligation in installments, such charge to be added to the amount of the loan at the time it is made, and two dollars on each ten dollars of this charge shall constitute, in whole or in part, reimbursement of expenses incurred and compensation for services rendered in connection with the making of the loan and the remainder of the initial charge shall be interest; provided, however, that when the balance of any loan is repaid before maturity, whether by payment in cash, new loan, renewal, or otherwise, the unearned part of the interest for the period following the next scheduled payment date, shall be returned or credited to the borrower. The amount of the refund shall represent at least as great a proportion of the total interest as the sum of the periodical time balances after the date of prepayment bears to the sum of all the periodical time balances under the schedule of payments in the original contract, provided, further, however, if the loan is repaid within ninety days from the date of making, then such refund shall be computed on the full amount of the initial charges.

(2) A monthly service charge, to cover services rendered and expenses incurred in connection with the loan transaction, may be contracted for and collected until the loan is fully paid for each month, and the fraction of a month at the end of the loan, provided such charge shall not be in excess of twenty cents for each full twenty-five dollars of the original loan obligation and not in excess of two dollars and forty cents per month. Such service charge shall not be collected at the time the loan is made, provided, however, the service charge covering the number of monthly payments required by the loan contract may be aggregated and included in the face amount of the loan obligation. In the event the balance of any loan is repaid before maturity, whether it be payment in cash, a new loan, renewal or otherwise, the amount of the unearned monthly service charges shall be canceled or credited to the borrower.

(3) If payment of all unpaid installments on which no delinquent charges, as provided for in subsection (4), has been charged and collected is deferred one or more full months, the

registrant may charge and collect an amount which shall be equal to the difference between the refund that would be required for prepayment in full as of the scheduled due date of the first deferred installment and the amount which will be required for prepayment in full as of one month prior to such date, multiplied by the sum of the number of months in which no scheduled payment has been made and in which no payment is to be required by reason of the deferment. Such charge may be collected at the time of deferment or may be collected at any time thereafter.

If a refund of interest is required during a period in which no scheduled payment is required by reason of a deferment, the borrower shall also receive a pro rata refund of the deferment charge, computed to the nearest number of full months.

(4) In addition to the charges and fees herein provided for, no further or other amount whatsoever shall be directly or indirectly charged, contracted for or received, except that a registrant hereunder may, if agreed to in writing, contract for, impose and collect a delinquent charge of five cents per dollar for each full dollar of an installment which is delinquent for five or more days, which charge may be imposed only once on each delinquent installment. However, such restriction shall not apply to the actual fees paid a public official or agency of a state for filing, recording or releasing any instrument securing the loan, or actual and reasonable attorney fees as determined by the court in which suit is filed and court costs including reasonable expenses of repossession, storing, and selling of any property pledged as security as determined by the court in which suit is filed. If any amount in excess of the charge permitted by this chapter is charged, contracted for or received, except as the result of an accidental or bona fide error, the contract of loan shall be void and the registrant shall have no right to collect or receive any principal, charges, or recompense whatsoever. In the event of an accidental or bona fide error, the registrant shall refund or credit the amount to the borrower within five days of the discovery of such error.

(5) No registrant shall permit any person as borrower, endorser, guarantor, or surety for any borrower, or otherwise, or any husband and wife, jointly or severally, to become obligated, directly or contingently or both, for more than one contract of loan at the same time for the purpose or with the effect of obtaining a higher rate of charge than would otherwise be permitted by this chapter; but such limitation shall not apply to the acquisition by purchase of bona fide obligations of the borrower incurred for goods or services, and provided further, if a registrant purchases all or substantially all the loan contracts of another registrant or licensee under chapter 516 and has at the time of purchase loan contracts with one or more of the borrowers whose loans are purchased, the

purchaser shall be entitled to collect principal and charges thereon according to the terms of each loan contract.

History.—§8, ch. 25343, 1949; §5, ch. 57-164.

519.09 Provision against manipulation.—The comptroller shall have authority to issue a rule, regulation, specific ruling, cease and desist order, suspension, or revocation order to stop any registrant who abuses or proposes to abuse or manipulate the schedule of charges herein permitted contrary to the constructive purposes and standards set forth in this chapter.

History.—Comp. §9, ch. 25343, 1949.

519.10 Loan contracts; requirements, length of loan; advertising.—

(1) Every registrant shall: (a) At the time any loan is made, deliver to the borrower, or if there are two or more borrowers to one of them, a statement in the English language disclosing the amount and date of the loan contract or note and a schedule of the installments or description thereof, or a copy of the note in lieu of such statement; (b) for each cash payment made on account of any such loan, issue to the person making it at the time payment is made a receipt which need show only the total amount of such cash payment, provided the registrant shall not be required to give a receipt for payments made by check or money order, and the use of a coupon book system shall be in compliance herewith; (c) permit payment to be made in advance in any amount on any contract of loan at any time, but the registrant may apply such payment first to all accrued charges in full at the agreed rate or schedule up to the date of such payment; (d) upon repayment of the loan in full, marked plainly every obligation and security signed by the obligor with the word "paid" or "canceled," and within a period of thirty days, restore any pledge, return any note and any assignment and where a mortgage has been recorded, deliver to the borrower or agent a written release thereof.

(2) No person subject to this chapter shall enter into any loan contract under which any scheduled repayment of principal is due more than twenty-four months from the date of the loan contract. Nothing herein shall prevent a loan being considered a new loan because the proceeds of the loan are used to pay an existing contract.

(3) No person subject to this chapter shall advertise, display, distribute, broadcast or televise, or cause or permit to be advertised, displayed, distributed, broadcast or televised, in any manner whatsoever, any false, misleading or deceptive statement concerning the business authorized under this chapter.

History.—§10, ch. 25343, 1949; §6, ch. 57-164.

519.11 Wage assignments.—

(1) No assignment of or order for the payment of any salary, wages, commissions or other compensation for services, earned or to be earned, given to secure any such loans shall be

valid unless the amount of such loan is paid to the borrower simultaneously with its execution; nor shall any such assignment or order, or any chattel mortgage or other lien on household furniture then in the possession and use of the borrower be valid unless it be in writing, signed in person by the borrower; or, if the borrower is married, unless it be signed in person by both husband and wife; provided that written assent of a spouse shall not be required when husband or wife have been living separate and apart for a period of at least five months prior to such assignment, order, mortgage or lien.

History.—§11, ch. 25343, 1949; am. §1, ch. 28245, 1953.
cf.—§516.17 Assignment of wages, etc., given to secure loans.

519.12 Comptroller to administer and enforce; books; records; reports; investigations, etc.—

(1) Each registrant shall keep and use in his business such books and accounting records, in accordance with sound and accepted accounting practices so as to enable the comptroller to determine whether such registrant is complying with the provisions of this chapter. Each registrant shall maintain a separate ledger card or other separate record for the account of each borrower, which shall set forth separately the amount of cash advanced to or on behalf of the borrower, the total initial charge, and the aggregate amount of monthly service charges when included in the loan obligation. Such record may set forth pre-computed declining balances based on the scheduled payments, without a separation of the initial charge and monthly service charge. In the event the balance of any loan is repaid before maturity, whether by cash, a new loan, renewal or otherwise, the registrant shall show separately on such record the amount of refund or credit of unearned interest and monthly service charges. Each registrant shall preserve such books, accounts and records for at least two years after the making of the final entry on any loan recorded therein.

(2) Each registrant shall file annually during April of each year a report under oath with the comptroller setting forth such relevant information as he reasonably may require concerning the business and operations during the preceding calendar year for each registered place of business conducted by such registrant within the state. Among other things, such report shall identify the registrant and the registered place of business and set forth a list of all assets used and useful in conducting the business, both tangible and intangible, the gross income and expenses including all taxes for the year, the earnings for the year and the rate thereof in relation to all assets. The income and expenses may be reconciled to the surplus account. The report shall also set forth the number and dollar size of loans made during the year and outstanding at the beginning and end of the year; it shall require a summary of delinquency and seizure of chattels in use by the borrower and court actions

shall be given. Such report shall be in the form prescribed by the comptroller who shall make and publish annually an analysis and recapitulation of such reports for the entire state.

(3) At least twice each year, but no oftener than is reasonably necessary in order to verify reasonably founded suspicions of violations, the comptroller or his duly authorized representatives shall make an examination of the place of business of each registrant and of the loans, transactions, books, papers and records of such registrant so far as they pertain to the business licensed under this chapter. Every registrant shall pay to the comptroller an examination fee based on the amount of outstanding loans due the registrant at the date of each examination, as follows:

<i>Outstanding loans</i>	<i>Examination fee</i>
From \$0 to \$25,000.00, a fee of _____	\$ 30.00
From \$25,000.01 to \$50,000.00, a fee of _____	40.00
From \$50,000.01 to \$100,000.00, a fee of _____	60.00
From \$100,000.01 to \$250,000.00, a fee of _____	75.00
Over \$250,000.00, a fee of _____	100.00

The said examination fee shall be a first lien upon the assets of the registrant and if not paid within thirty days from and after the completion of the examination the license of the said registrant shall stand suspended until said fee is paid in full.

(4) For the purpose of discovering violations of this chapter or of securing information lawfully required hereunder, the comptroller or his duly authorized representative may at any time investigate the business and examine the books, accounts, papers and records used therein, of (a) any registrant, (b) any other person engaged in the business described in §519.03 or participating in such business as principal, agent, broker or otherwise, and (c) any person whom the comptroller has reasonable cause to believe is violating or is about to violate any provision of this chapter, whether or not such person shall claim to be within the authority or beyond the scope of this chapter. For purposes of this section, any person, except those expressly exempted from the provisions of this chapter, who shall advertise for, solicit, or hold himself out as willing to make loan transactions in the amount or of the value of six hundred dollars or less, exclusive of interest and initial charges taken at the time the loan is made, shall be presumed to be engaged in the business described in §519.03.

(5) Whenever the comptroller has reasonable cause to believe that any person is violating or is threatening to or intends to violate any provision of this chapter, he may in addition to all actions provided for in this chapter and without prejudice thereto, after ten days written notice, enter an order requiring such person to desist or to refrain from such violation; and an action may be brought on the relation of the attorney general and the comptroller to enjoin such person from engaging

in or continuing such violation or from doing any act or acts in furtherance thereof. In any such action, an order or judgment may be entered awarding such preliminary or final injunction as may be deemed proper. In addition to all other means provided by law for the enforcement of a restraining order or injunction, the court in which such action is brought shall have power and jurisdiction to impound, and to appoint a receiver for the property and business of the defendant, including books, papers, documents, and records pertaining thereto or so much thereof as the court may deem reasonably necessary to prevent violations of this chapter through or by means of the use of said property and business. Such receiver, when appointed and qualified, shall have such powers and duties as to custody, collection, administration, winding up and liquidation of such property and business as shall from time to time be conferred upon him by the court.

(6) The comptroller shall have power and authority to make regulations. Such regulations shall be referenced to the section or sections which set forth the legislative standard which they interpret or apply. Every regulation shall be promulgated by an order, any ruling, demand requirement or similar administrative act may be promulgated by an order. Every order shall be in writing, shall state its effective date and the date of the promulgation and shall be entered in an indexed permanent book which shall be a public record. A copy of every order promulgating a regulation and of every order containing a requirement of general application shall be mailed to such registrant under this chapter at least fifteen days before the effective date thereof.

(7) The comptroller may, upon ten days written notice to the registrant stating the contemplated action and the specific grounds therefor, and upon reasonable opportunity to be heard, revoke or suspend any certificate of authority issued hereunder if he finds that: (a) the registrant has failed to pay the annual license tax; or that (b) the registrant, either knowingly or without the exercise of due care to prevent the same, has violated any provision of this chapter or any regulation or order lawfully made pursuant to and within the authority of this chapter; or that (c) any fact or condition exists which if it had existed at the time of the original application clearly would have warranted the comptroller in refusing originally to issue such certificate of authority.

(8) The comptroller shall have the authority to suspend or revoke the license of any registrant found guilty by the comptroller of using unreasonable collection tactics.

History.—§12, ch. 25343, 1949; §10, ch. 26484, 1951; §7, ch. 57-164.

519.13 Surrender of certificate of authority.—Any registrant may surrender any such certificate of authority by delivering it to the comptroller with written notice of its surren-

der, but such surrender shall not affect his civil or criminal liabilities for acts committed prior thereto, nor his right to collect upon any obligation lawfully created prior to such surrender.

History.—Comp. §13, ch. 25343, 1949.

519.14 Judicial review.—In addition to any other remedy he may have, any registrant or any person considering himself aggrieved by any order of the comptroller hereunder may, within the time and in the manner provided by the Florida appellate rules, have the order reviewed by certiorari by the appropriate circuit court. The decision of the comptroller shall remain in full force until revised by final judgment of the court, unless the operation of said order shall be suspended pending said appeal upon proper order of the court. On such review, the record, transcript, evidence and findings and order of the comptroller shall be admissible as evidence, and the burden of proof upon a review of the findings of the comptroller shall be upon the party seeking the review. An appeal may be taken by either party from the order or decree of the circuit court to the appropriate district court of appeal as in other appeals in chancery.

History.—§14, ch. 25343, 1949; §10, ch. 26484, 1951; §6, ch. 63-512.

cf.—§28.24 Compensation of clerk of circuit court.

519.15 Comptroller may appoint personnel to administer chapter.—For the purpose of administering and enforcing this chapter the comptroller may appoint a director of consumer finance and such examiners, statisticians, clerks and other employees as may be necessary. The comptroller may delegate to said director and other employees any of the powers, authority and jurisdiction conferred by this chapter on said comptroller, except those provided for in subsection (7) of §519.12.

History.—Comp. §15, ch. 25343, 1949.

519.17 Loans made elsewhere.—No loan made outside this state in the amount or value of six hundred dollars or less for which a greater rate of interest, consideration or charges than is permitted by §519.08 has been charged, contracted for, or received, shall be enforced in this state, and every person in anywise participating therein in this state shall be subject to the provisions of this chapter.

History.—§17, ch. 25343, 1949; §8, ch. 57-164.

519.18 Chapter to be cumulative.—This chapter shall be deemed cumulative and in addition to any other statutes now or hereafter in effect relating to the subject matter hereof, but shall not apply to any person, firm or corporation receiving, accepting, discounting, selling, assigning or otherwise dealing in retain title contracts involving the financing of motor vehicles.

History.—Comp. §19, ch. 25343, 1949.

519.19 Short title.—This chapter shall be known and may be known and cited as the Florida consumer finance law.

(5) "Retail installment contract" or "contract" means an agreement, entered into in this state, pursuant to which the title to, or a lien upon the motor vehicle, which is the subject matter of a retail installment transaction, is retained or taken by a retail seller from a

retail buyer as security, in whole or in part, for the buyer's obligation. The term includes a conditional sales contract and a contract for the bailment or leasing of a motor vehicle by which the bailee or lessee contracts to pay as compensation for its use a sum substantially equivalent to or in excess of its value and by which it is agreed that the bailee or lessee is bound to become, or for no further or a merely nominal consideration, has the option of becoming, the owner of the motor vehicle upon full compliance with the provisions of the contract.

(6) "Cash sale price" means the price stated in a retail installment contract for which the seller would have sold to the buyer, and the buyer would have bought from the seller, the motor vehicle which is the subject matter of the retail installment contract, if such sale had been a sale for cash instead of a retail installment transaction. The cash sale price may include any taxes, registration, certificate of title, license and other fees and charges for accessories and their installation and for delivery, servicing, repairing, or improving the motor vehicle.

(7) "Official fees" mean the fees prescribed by law for filing, recording or otherwise perfecting and releasing or satisfying a retained title or a lien created by a retail installment contract.

(8) "Finance charge" means the amount agreed upon between the buyer and the seller, as limited herein, to be added to the cash sale price, the amount, if any, included for insurance and other benefits, if a separate charge is made therefor, and official fees, in determining the time sale price.

(9) "Sales finance company" means a person engaged in the business of purchasing retail installment contracts from one or more retail sellers. The term includes but is not limited to a bank, trust company, or industrial bank, if so engaged. The term does not include the pledge of an aggregate number of such

contracts to secure a bona fide loan thereon.

(10) The "holder" of a retail installment contract means the retail seller of the motor vehicle under the contract or, if the contract is purchased by a sales finance company or another assignee, the sales finance company or other assignee.

(11) "Person" means an individual, partnership, corporation, association, and any other group however organized.

(12) "Purchase price" means the time balance shown in the contract plus the down payment.

(13) "Administrator" means the state comptroller.

(14) Words in the singular include the plural and vice versa.

History.—§1, ch. 57-799; (2)-(5), (8)-(10) by §1, ch. 59-456; (2) §1, ch. 61-117; (1) §1, ch. 63-101.

520.03 Licensing of sales finance companies required.—

(1) No person shall engage in the business of a retail installment seller or of a sales finance company in this state without a license therefor as provided in this act; provided, however, that no bank, trust company or industrial bank authorized to do business in this state shall be required to obtain a license under this act.

(2) The application for such license shall be in writing and in the form prescribed by the administrator. The application shall contain the name of the applicant; date of incorporation, if incorporated; the address where the business is or is to be conducted and similar information as to any branch office of the applicant; the name and residence address of the owner or partners or, if a corporation or association, of the directors, trustees and principal officers, and such other pertinent information as the administrator may require.

(3) The license fee for each calendar year or part thereof shall be the sum of twenty-five dollars for the principal place of business of each sales finance company, and the sum of ten dollars for the principal place of business of each retail installment seller of motor vehicles. A separate license fee of like amount shall be paid for each branch of the sales finance company maintained in this state. Fees collected under this section shall be deposited in the state treasury and are hereby appropriated to the comptroller to be used in administering this act.

(4) Each license shall specify the location of the office or branch and must be conspicuously displayed there. In case such location be changed, the administrator shall endorse the change of location on the license without charge.

(5) Upon the filing of such application, and the payment of said fee, the administrator shall issue a license to the applicant to engage in the business of a sales finance company or of a retail installment seller under and in accordance with the provisions of this act for a period which shall expire the last day of December

next following the date of its issuance. Such license shall not be transferable or assignable. No licensee shall transact any business provided for by this act under any other name. Licenses shall be issued only to persons of good moral character, or to corporations whose officers are of good moral character.

History.—§2, ch. 57-799; (1)-(3) and (5) by §2, ch. 59-456.

520.04 Denial, suspension or revocation of licenses.—

(1) A license may be denied, suspended or revoked by the administrator on the following grounds:

(a) Material misstatement in application for license;

(b) Wilful failure to comply with any provision of this act relating to retail installment contracts;

(c) Defrauding any retail buyer to the buyer's damage;

(d) Fraudulent misrepresentation, circumvention or concealment by the licensee through whatever subterfuge or device of any of the material particulars or the nature thereof required to be stated or furnished to the retail buyer under this act.

(2) If a licensee is a firm, association or corporation, it shall be sufficient cause for the suspension or revocation of a license that any officer, director or trustee of a licensed firm, association or corporation, or any member of a licensed partnership, has so acted or failed to act as would be cause for suspending or revoking a license to such party as an individual. Each licensee shall be responsible for the acts of any or all of his employees while acting as his agent, if such licensee after actual knowledge of said acts retained the benefits, proceeds, profits or advantages accruing from said acts or otherwise ratified said acts.

(3) No license shall be denied, suspended or revoked except after hearing thereon. The administrator shall give the licensee at least ten days' written notice, in the form of an order to show cause, of the time and place of such hearing by registered mail addressed to the principal place of business in this state of such licensee. The said notice shall contain the grounds of complaint against the licensee. Any order denying, suspending or revoking such license shall recite the grounds upon which the same is based. The order shall be entered upon the records of the administrator and shall not be effective until after thirty days written notice thereof given after such entry forwarded by registered mail to the licensee at such principal place of business. If the licensee fails or refuses to obey the order after such thirty days period has elapsed, the administrator may file a petition with the circuit court for an injunction to enforce the order. A copy of the administrator's findings and conclusions of law shall be set forth in such petition. The court hearing such petition shall have the power to issue an appropriate injunction restraining and enjoining such licensee from engaging in

the act or acts forbidden by the order of the administrator. No revocation, suspension or surrender of any license shall impair or affect the obligation of any lawful retail installment contract acquired previously thereto by the licensee.

(4) Any person aggrieved by any such order of suspension or revocation of a license may apply for a review thereof by petition for certiorari by the circuit court of Leon county within the time and in the manner provided by the Florida appellate rules and the statutes of this state not superseded by or in conflict with said rules.

History.—§3, ch. 57-799; (3) §3, ch. 59-456; (4) §7, ch. 63-512. cf.—§1.01(13) defines registered mail to include certified mail with return receipt requested.

520.041 Books, accounts, records, etc.—

(1) Every licensee shall maintain, at the place of business designated in the license certificate, such books, accounts and records of the business conducted under the license issued for such place of business as will enable the administrator to determine whether the business of the licensee contemplated by this act is being operated in accordance with the provisions of this act.

(2) A licensee, operating two or more licensed places of business in this state, may maintain the general control records of all such offices at any one of such offices, or at any other office maintained by such licensee, upon the filing of a written request with the administrator designating therein the office at which such control records are maintained.

(3) All books, accounts and records of licensees, including any cards used in a card system, shall be preserved and available for examination by the administrator for at least two years after making the final entry therein.

(4) The administrator is hereby authorized and empowered to prescribe the minimum information to be shown in the books, accounts and records of licensees so that such records will enable the administrator to determine compliance with the provisions of this act.

History.—§4, ch. 59-456.

520.05 Investigations and complaints.—

(1) The administrator shall, at intermittent periods, make such investigations and examinations of any licensee or other person as he deems necessary to determine compliance with this act. For such purposes, he may examine the books, accounts, records and other documents or matters of any licensee or other person. He shall have the power to compel the production of all relevant books, records and other documents and materials relative to an examination or investigation. Such investigations and examinations shall not be made more often than once during a year unless the administrator has reason to believe the licensee is not complying with the provisions of this act. The expenses of the administrator incurred in each such examination of a sales finance company licensed under this act shall be paid

by such sales finance company so examined within thirty days after demand therefor by the administrator, and shall not exceed thirty-five dollars per day for each eight hour man-day for time actually consumed in making such examination, plus the traveling expense and per diem subsistence allowance provided for state employees in §112.061. Expense thus recovered shall be deposited in the state treasury as a reimbursement to the biennial appropriation for expenses incurred in enforcing this act. The licensee shall not be required to pay a per diem fee and expenses of an examination which shall consume more than thirty man-days in any one year unless such examination or investigation is due to fraudulent practices of the licensee, in which case such licensee shall be required to pay the entire cost regardless of time consumed.

(2) Any retail buyer having reason to believe that this act relating to his retail installment contract has been violated may file with the administrator a written complaint setting forth the details of such alleged violations and the administrator upon receipt of such complaint, may inspect the pertinent books, records, letters and contracts of the licensee and of the retail seller involved, relating to such specific written complaint.

History.—§4, ch. 57-799; (1) by §5, ch. 59-456.

520.06 Powers of administrator.—

The administrator shall have power to issue subpoenas to compel the attendance of witnesses and the production of documents, papers, books, records and other evidence before him in any matter over which he has jurisdiction, control or supervision pertaining to this act. The administrator shall have the power to administer oaths and affirmations to any person whose testimony is required.

If any person shall refuse to obey any such subpoena, or to give testimony, or to produce evidence as required thereby, any judge of the circuit court may, upon application and proof of such refusal, make an order awarding process of subpoena, or subpoena duces tecum, out of the circuit court, for the witness to appear before the administrator and to give testimony, and to produce evidence as required thereby. Upon filing such order in the office of the clerk of the circuit court, the clerk shall issue process of subpoena, as directed, under the seal of said court, requiring the person to whom it is directed, to appear at the time and place therein designated.

If any person served with any such subpoena shall refuse to obey the same, and to give testimony, and to produce evidence as required thereby, the administrator may apply to any judge of the circuit court for an attachment against such person, as for a contempt. The judge, upon satisfactory proof of such refusal, shall issue an attachment, directed to any sheriff, constable or police officer, for the arrest of such person, and upon his being brought before such judge, proceed to a hearing of the case. The judge shall have power to enforce obedi-

ence to such subpoena, and the answering of any question, and the production of any evidence, that may be proper, by a fine, not exceeding \$100.00, or by imprisonment in the county jail, or by both fine and imprisonment, and to compel such witness to pay the costs of such proceeding to be taxed.

The administrator may issue and promulgate such rules and regulations as he may deem necessary in the administration of this act and not inconsistent with the provisions of this act.

History.—Comp. §5, ch. 57-799.

520.07 Requirements and prohibitions as to retail installment contracts.—

(1)(a) A retail installment contract shall be in writing, shall be signed by both the buyer and the seller and shall be completed as to all essential provisions prior to the signing of the contract by the buyer.

(b) The printed portion of the contract, other than instructions for completion, shall be in at least eight point type. The contract shall contain in a size equal to at least ten point type:

1. A specific statement that liability insurance coverage for bodily injury and property damage caused to others is not included, if that is the case; and

2. The following notice:

Notice to the Buyer

a. Do not sign this contract before you read it or if it contains any blank spaces. b. You are entitled to an exact copy of the contract you sign.

(c) The seller shall deliver to the buyer, or mail to him at his address shown on the contract, a copy of the contract signed by the seller. Until the seller does so, a buyer who has not received delivery of the motor vehicle shall have the right to rescind his agreement and to receive a refund of all payments made and return of all goods traded-in to the seller on account of or in contemplation of the contract, or if such goods cannot be returned, the value thereof. Any acknowledgment by the buyer of delivery of a copy of the contract shall be in a size equal to at least ten point bold type and, if contained in the contract, shall appear directly above the buyer's signature.

(d) The contract shall contain the names of the seller and the buyer, the place of business of the seller, the residence or place of business of the buyer as specified by the buyer and a description of the motor vehicle including its make, year model, model and identification number or marks.

(2) The contract shall contain the following:

(a) The cash sale price of the motor vehicle;

(b) The amount of the buyer's down payment, and whether made in money or goods, or partly in money and partly in goods;

(c) The difference between paragraphs (a) and (b);

(d) The amount, if any, included for insurance and other benefits specifying the types of coverage and benefits;

(e) The amount of license, taxes and official fees, if any;

(f) The principal balance, which is the sum of paragraphs (c), (d) and (e) of subsection (2);

(g) The amount of the finance charge;

(h) The time balance, which is the sum of paragraphs (f) and (g), payable in installments by the buyer to the seller, the number of installments, the amount of each installment and the due date or period thereof.

The above items need not be stated in the sequence or order set forth; additional items may be included to explain the calculations involved in determining the stated time balance to be paid by the buyer.

(3) The amount, if any included for insurance, which may be purchased by the holder of the retail installment contract, shall not exceed the applicable premiums chargeable in accordance with the rates filed with the insurance department. If dual interest insurance on the motor vehicle is purchased by the holder it shall, within thirty days after execution of the retail installment contract, send or cause to be sent to the buyer a policy or policies or certificate of insurance, written by an insurance company authorized to do business in this state, clearly setting forth the amount of the premium, the kind or kinds of insurance, the coverages and all the terms, exceptions, limitations, restrictions and conditions of the contract or contracts of insurance.

Nothing in this act shall impair or abrogate the right of a buyer as defined herein, to procure insurance from an agent and company of his own selection as provided by the insurance laws of this state; and nothing contained in this act shall modify, amend, alter or repeal any of the insurance laws of the state, including any such laws enacted by the 1957 Florida legislature.

(4) If any insurance is cancelled, or the premium adjusted, unearned insurance premium refunds received by the holder shall be credited to the final maturing installment of the contract except to the extent applied toward payment for a similar insurance protecting the interests of the buyer and the holder or either of them.

(5) The holder may, if the contract or refinancing agreement so provides, collect a delinquency and collection charge on each installment in default for a period not less than ten days in an amount not in excess of five per cent of each installment or five dollars, whichever is less. In addition to such delinquency and collection charge, the contract may provide for the payment of reasonable attorney's fees where such contract is referred for collection to an attorney not a salaried employee of the holder of the contract plus the court costs.

(6) No retail installment contract shall be signed by any party thereto when it contains blank spaces to be filled in after it has been signed except that, if delivery of the motor vehicle is not made at the time of the execution of the contract, the identifying numbers or marks of the motor vehicle or similar information and the due date of the first installment may be inserted in the contract after its execution. The buyer's written acknowledgment, conforming to the requirements of paragraph (c) of subsection (1), of delivery of a copy of a contract shall be conclusive proof of such delivery, that the contract when signed, did not contain any blank spaces except as herein provided, and of compliance with this section in any action or proceeding by or against the holder of the contract.

(7) Upon written request from the buyer, the holder of a retail installment contract shall give or forward to the buyer a written statement of the dates and amounts of payments and the total amount unpaid under such contract. A buyer shall be given a written receipt for any payment when made in cash.

History.—§6, ch. 57-799; (4), (5) by §6, ch. 59-456.

520.08 Finance charge limitation.—

(1) Notwithstanding the provisions of any other law, the finance charge, exclusive of insurance, and other benefits and official fees, shall not exceed the following rates:

Class 1. Any new motor vehicle designated by the manufacturer by a year model not earlier than the year in which the sale is made—\$8 per \$100 per year.

Class 2. Any new motor vehicle not in Class 1 and any used motor vehicle designated by the manufacturer by a year model of the same or not more than two years prior to the year in which the sale is made—\$11 per \$100 per year.

Class 3. Any used motor vehicle not in Class 2 and designated by the manufacturer by a year model not more than four years prior to the year in which the sale is made—\$15 per \$100 per year.

Class 4. Any used motor vehicle not in Class 2 or Class 3 and designated by the manufacturer by a year model more than four years prior to the year in which the sale is made—\$17 per \$100 per year.

(2) Such finance charge shall be computed on the principal balance as determined under §520.07(2) on contracts payable in successive monthly payments substantially equal in amount. Such finance charge may be computed on the basis of a full month for any fractional month period in excess of ten days. A minimum finance charge of twenty-five dollars may be charged on any retail installment transaction.

(3) When a retail installment contract provides for unequal or irregular installment payments, the finance charge may be at a rate which will provide the same yield as is permitted on monthly payment contracts under subsections (1) and (2) having due regard for the schedule of payment.

(4) Any sales finance company may purchase or acquire or agree to purchase or acquire from any seller any contract on such terms and conditions as may be agreed upon between them. Filing of the assignment, notice to the buyer of the assignment, and any requirement that the holder maintain dominion over the payments or the motor vehicle if repossessed shall not be necessary to the validity of a written assignment of a contract as against creditors, subsequent purchasers, pledgees, mortgagees and lien claimants of the seller. Unless the buyer has notice of the assignment of his contract, payment thereunder made by the buyer to the last known holder of such contract shall be binding upon all subsequent holders.

History.—§7, ch. 57-799; (3) by §7, ch. 59-456.

520.09 Credit upon anticipation of payments.—Notwithstanding the provisions of any retail installment contract to the contrary, any buyer may pay in full at any time before maturity the debt of any retail installment contract and in so paying such debt shall receive a refund credit thereon for such anticipation of payments. The amount of such refund shall represent at least as great a proportion of the finance charge after first deducting from such finance charge an acquisition cost of twenty-five dollars, as the sum of the monthly time balances after the month in which prepayment is made, bears to the sum of all the monthly time balances under the schedule of payments in the contract. Where the amount of credit is less than one dollar no refund need be made.

History.—Comp. §8, ch. 57-799.

520.10 Refinancing retail installment contract.—The holder of a contract, upon request by the buyer, may extend the scheduled due date of all or any part of any installment or installments, or deferred payment or payments, or renew or restate the unpaid time balance of such contract, the amount of the installments and the time schedule therefor and may collect for such extension, deferment, renewal or restatement a refinance charge computed as follows: In the event the unpaid time balance of the contract is extended, deferred, renewed or restated, the holder may compute the refinance charge on such amount by adding to the unpaid time balance the cost for insurance and other benefits incidental to the refinancing plus any accrued delinquency and collection charges after deducting any refund which may be due the buyer at the time of the renewal or restatement by prepayment pursuant to §520.09, at the rate of the finance charge specified in §520.08 (1) and by reclassifying the motor vehicle by its then year model, for the term of the refinancing agreement, but otherwise subject to the provisions of this act governing computation of the original finance charge. The provisions of this act relating to minimum finance charges under §520.08 (2) and acquisition costs under the refund schedule in §520.09 shall not apply in calculating refinance charges on the

contract extended, deferred, renewed or restated. If all unpaid installments are deferred for not more than two months, the holder may, at his election, charge and collect for such deferment an amount equal to the difference between the refund required for prepayment in full under §520.09 as of the scheduled due date of the first deferred installment, and the refund required for prepayment in full as of one month prior to said date, times the number of months in which no scheduled payment is made.

History.—§9, ch. 57-799; §8, ch. 59-456.

520.11 Repossession.—

(1) When the buyer is in default in the payment of any sum due under the contract or in the performance of any other condition or promise, the breach of which is by the contract expressly made a ground for the retaking of the motor vehicle, the holder may retake possession thereof either peaceably or by legal process. Upon such retaking, the rights and obligations of the holder and of the buyer are as provided in this section.

(2) Upon such retaking, the holder and the buyer may mutually agree that the holder may retain the motor vehicle as his own or may sell the motor vehicle for his own account without complying with or being bound by the provisions of this section and thereupon the buyer and the holder shall each be discharged of all obligations under the contract.

(3) Unless the holder and the buyer enter into an agreement as provided in subsection (2), the holder shall, within five days after the retaking, furnish to the buyer, either personally or by registered or certified mail addressed to the buyer at the buyer's last known address, a written statement advising the buyer of the buyer's right to demand a public sale of the motor vehicle and of the buyer's right to redeem the motor vehicle. Said statement shall advise the buyer of the amount required to be paid to redeem the motor vehicle and the name and address of the holder to which payment of such amount is to be made. Said statement shall advise the buyer that if the buyer does not redeem the motor vehicle, the holder may, at the option of the holder, and shall, upon demand of the buyer as provided in subsection (4), sell the motor vehicle at public sale. Said statement shall advise the buyer that if there is a public sale of the motor vehicle, the proceeds of the sale shall be applied first to the payment of such costs, expenses and attorneys' fees in connection with the retaking, storing and sale of the motor vehicle as may be allowed by the court if the retaking was by legal process or, if the retaking was not by legal process, to the payment of the actual and necessary expenses of storing the motor vehicle, not to exceed one dollar per day, and to the actual cost of publishing the notice of sale in a newspaper as required in subsection (4), and then to the satisfaction of the balance due under the contract and that after such application any surplus shall be paid to the buyer and that the

buyer shall remain liable for any balance remaining unpaid after such application. The holder shall retain the motor vehicle within the county and state in which it was located when retaken for ten days after furnishing such statement to the buyer, during which period the buyer may demand a public sale as provided in subsection (4) or may, upon payment or tender of payment of all sums remaining unpaid under the contract, less the refund credit to which the buyer would be entitled upon anticipation of payments as provided in §520.09, and upon performance or tender of performance of such other condition or promise, the breach of which constituted the default for which the motor vehicle was retaken, and upon payment or tender of payment of such costs, expenses and attorneys' fees in connection with the retaking and storing of the motor vehicle as may be allowed by the court if the retaking was by legal process or, if the retaking was not by legal process, upon payment or tender of payment of the actual and necessary expenses of storing the motor vehicle, not to exceed one dollar per day, redeem the motor vehicle and become entitled to take possession of it, whereupon the buyer shall be discharged of all obligations under the contract.

(4) If the buyer does not, within the time provided in subsection (3), redeem the motor vehicle or demand a public sale as herein provided, the holder may, at the option of the holder, retain the motor vehicle as his own or sell the motor vehicle for his own account without obligation to account to the buyer and the buyer and the holder shall be discharged of all obligations under the contract or the holder may, at the option of the holder, sell the motor vehicle at public sale in the county and state in which it was located when retaken, such sale to be held not less than five days and not more than thirty days after the expiration of the time for redemption as provided in subsection (3). Provided, if the holder retook possession of the motor vehicle by legal process, the holder may, at the option of the holder, sell the motor vehicle at public sale held not less than five days and not more than thirty days after the entry of a judgment by a court of competent jurisdiction entitling the holder to the possession of the motor vehicle. The holder shall give notice of the sale by publishing one time at least five days before the sale, in a newspaper published in the county where the motor vehicle is to be sold or, if no newspaper is published in such county, in a newspaper having a general circulation in such county, a notice in a form substantially as follows:

"NOTICE OF SALE

To whom it may concern:

You are hereby notified that the following motor vehicle:

(Insert brief description of motor vehicle)
will be sold at public sale at o'clock
on the day of, 19...., at

..... The proceeds of the sale will
(Place of sale)

be applied first to the payment of the costs of retaking, storing and sale of said motor vehicle and the cost of publication of notice of sale and then to the satisfaction of the balance due under the contract with (Insert name and address of buyer) covering the financing of said motor vehicle. Any surplus will be paid to you and you will remain liable for any balance remaining unpaid under said contract.

..... Name and address of holder"

The holder shall also, at least five days before the sale, furnish a copy of said notice to the buyer, either personally or by registered or certified mail addressed to the buyer at the buyer's last known address. The holder may bid for and be the purchaser of the motor vehicle at the sale. The holder shall not be obligated to resell, as above provided, unless the buyer, within the time for redemption as provided in subsection (3), demands a sale by written notice delivered personally or by registered or certified mail to the holder. If such demand is served, the holder shall sell the motor vehicle within thirty days after the service thereof or, if the holder retook possession of the motor vehicle by legal process, the holder may, at the option of the holder, sell the motor vehicle within thirty days after the entry of a judgment by a court of competent jurisdiction entitling the holder to the possession of the motor vehicle, such sale to be held in the manner, at the place and upon the notice prescribed above. A newspaper publishing the notice of sale required hereunder shall not be liable in damages to any person or persons named therein arising solely from the publication of said notice.

(5) If there is a public sale as provided in subsection (4), the proceeds of the sale shall be applied first to the payment of such costs, expenses and attorneys' fees in connection with the retaking, storing and sale of the motor vehicle as may be allowed by the court if the retaking was by legal process or, if the retaking was not by legal process, to the payment of the actual and necessary expenses of storing the motor vehicle, not to exceed one dollar per day, and to the actual cost of publishing the notice of sale in a newspaper as required in subsection (4) and then to the satisfaction of the balance due under the contract. After such application, any surplus shall be paid to the buyer. The buyer shall remain liable for any balance remaining unpaid after such application only if there is a public sale as provided above and if the contract contains in a size equal to at least ten point type a statement substantially as follows:

Upon default, the motor vehicle purchased hereunder may be repossessed and sold at public sale. The proceeds of such sale shall be applied first to the payment of such costs, expenses and attorneys'

fees in connection with the retaking, storing and sale of the motor vehicle as may be allowed by the court if the retaking is by legal process or, if the retaking is not by legal process, to the payment of the actual and necessary expenses of storing the motor vehicle, not to exceed one dollar per day, and to the actual cost of publishing the notice of sale in a newspaper as required in §520.11(4), Florida Statutes, and then to the satisfaction of the balance due under this contract. After such application any surplus shall be paid to the buyer and the buyer shall remain liable for any balance remaining unpaid after such application.

The buyer may have the reasonable value of the motor vehicle at the time of the public sale determined in any action or proceeding brought by the buyer for that purpose within one year after such sale or in any action or proceeding brought by the holder to recover any balance remaining unpaid, the resale price being prima facie but not conclusive evidence of such reasonable value. The reasonable value as determined by a court of competent jurisdiction or the resale price, whichever shall be higher, and a sum equal to the refund credit to which the buyer would be entitled upon anticipation of payments as provided in §520.09, shall be credited to the buyer on account of the buyer's indebtedness.

(6) If there is no public resale as above provided, the holder may retain the motor vehicle as his own or sell the motor vehicle for his own account without obligation to account to the buyer and the buyer and the holder shall be discharged of all obligations under the contract.

(7) The holder may, at the option of the holder, instead of retaking possession institute an action in a court of equity to foreclose the contract and in that event be entitled to all equitable remedies now existing for the foreclosure of liens.

(8) If the holder fails to comply with any of the provisions of this section, the buyer may recover the buyer's actual damages from the holder.

History.—§10, ch. 57-799; §2, ch. 61-117; (4) §1, ch. 63-215.

520.12 Penalties.—

(1) Any person who shall wilfully and intentionally violate any provision of this act or engage in the business of a sales finance company in this state without a license therefor as provided in this act shall be guilty of a misdemeanor and upon conviction shall be punished by a fine not exceeding \$500.00.

(2) A wilful violation of §§520.03, 520.07 or 520.08 by the seller or holder shall bar recovery of any finance charge, delinquency or collection charge on the contract.

History.—§11, ch. 57-799; §9, ch. 59-456.

520.13 Waiver.—Any waiver of the provisions of §§520.01-520.13, except as provided in §520.11(2), as amended by this act, shall be unenforceable and void.

History.—§12, ch. 57-799; §3, ch. 61-117.

No licensee shall transact any business provided for by this act under any other name. ***520.331 Denial, suspension or revocation of licenses.—**

(1) A license may be denied, suspended or revoked by the administrator on the following grounds:

(a) Material misstatement in application for license;

(b) Wilful failure to comply with any provision of this act relating to retail installment contracts;

(c) Defrauding any retail buyer to the buyer's damage;

(d) Fraudulent misrepresentation, circumvention or concealment by the licensee through whatever subterfuge or device of any of the material particulars or the nature thereof required to be stated or furnished to the retail buyer under this act.

(2) If the licensee is a firm, association, or corporation, it shall be sufficient cause for the suspension or revocation of a license that any officer, director or trustee of a licensed firm, association or corporation, or any member of a licensed partnership, has so acted or failed to act as would be cause for suspending or revoking a license to such party as an individual. Each licensee shall be responsible for the acts of any or all of his employees while acting as his agent, if such licensee after actual knowledge of said acts retained the benefits, proceeds, profits or advantages accruing from said acts or otherwise ratified said acts.

(3) No license shall be denied, suspended or revoked except after hearing thereon. The administrator shall give the licensee at least ten days written notice in the form of an order to show cause, of the time and place of such hearing by registered mail addressed to the principal place of business in this state of such licensee. The said notice shall contain the grounds of complaint against the licensee. Any order denying, suspending or revoking such license shall recite the grounds upon which the same is based. The order shall

be entered upon the records of the administrator and shall not be effective until after thirty days written notice thereof given after such entry forwarded by registered mail to the licensee at such principal place of business. If the licensee fails or refuses to obey the order after such thirty days period has elapsed, the administrator may file a petition with the circuit court for an injunction to enforce the order. A copy of the administrator's findings and conclusions of law shall be set forth in such petition. The court hearing such petition shall have the power to issue an appropriate injunction restraining and enjoining such licensee from engaging in the act or acts forbidden by the order of the administrator. No revocation, suspension or surrender of any license shall impair or affect the obligation of any lawful retail installment contract acquired previously thereto by the licensee.

(4) Within thirty days after any such suspension or revocation of a license, the person aggrieved may apply for a review thereof pursuant to and in accordance with the provisions of §120.31.

History.—§3, ch. 63-547.

*Becomes effective January 1, 1964.

520.34 Retail installment contracts.—

(1) Every retail installment contract shall be in writing and shall be completed as to all essential provisions prior to the signing thereof by the buyer, except as provided in subsection (6). The printed portion of the contract, other than instructions for completion, shall be in at least six point type. The contract shall contain substantially the following notice in size equal to at least ten point type:

Notice to the Buyer

a. Do not sign this before you read it or if it contains any blank spaces. b. You are entitled to an exact copy of the paper you sign. c. You have the right to pay in advance the full amount due and under certain conditions to obtain a partial refund of the time price differential.

The contract shall contain the names of the seller and the buyer, the place of business of the seller, and the residence or place of business of the buyer as specified by the buyer, and shall set forth the following:

(a) The cash price of the goods or services.

(b) The amount of the buyer's down payment, if any, whether made wholly or in part in money or goods.

(c) The difference between paragraphs (a) and (b).

(d) The amount, if any, of official fees and the cost, if any, to the buyer of any insurance (specifying the types of coverage) the buyer

has agreed to procure if the seller has agreed to purchase the insurance and charge the buyer for the cost thereof.

(e) The principal balance owed on the retail installment contract, which is the sum of paragraphs (c) and (d).

(f) The amount or rate of the time price differential.

(g) The time balance owed by the buyer to the seller, which is the sum of paragraphs (e) and (f), and except as hereinafter provided, the maximum number of installment payments required and the amount and date of each payment necessary to pay such time balance.

The foregoing paragraphs need not be stated in the sequence or order set forth above, and additional paragraphs may be included to explain the computations made in determining the amount to be paid by the buyer.

(2) If the time price differential is stated as a rate, paragraph (g) of subsection (1) hereof need not be stated. The maximum number of payments and the amount and date of each payment need not be separately listed if the payments are stated in terms of a series of scheduled amounts and if the amount of the final payment does not exceed the scheduled amount of any preceding installment; in such case the amount of the scheduled final payment may be stated as the remaining unpaid balance. The initial date for the payment of the first installment may be a calendar date or may refer to the time of delivery or installation.

(3) A retail installment contract need not be contained in a single document. If the contract is contained in more than one document, then one such document may be an original document applicable to purchases of goods or services to be made by the retail buyer from time to time and in such case such document, together with the sales slip, account book or other written statement relating to each purchase, shall set forth all of the information required by subsection (1) and shall constitute the retail installment contract for each such purchase.

*(4) Notwithstanding the provisions of any other law the seller under a retail installment contract may charge, receive and collect a time price differential, which shall not exceed the following rates:

On the principal balance, ten dollars per one hundred dollars per year. The time price differential under subsection (4) shall be computed on the principal balance of each transaction, as determined under subsection (1) (e) on contracts payable in successive monthly payments substantially equal in amount for the period from the date of the contract to and including the date when the final installment thereunder is payable. When a retail installment contract is payable other than in successive monthly payments substantially equal in amount, the time price differential may be at the effective rates provided in this subsection, having due regard for the schedule of payments. The time price differential may be computed on the basis

of a full month for any fractional month period in excess of ten days. Notwithstanding the other provisions of this subsection, a minimum time price differential not in excess of the following amounts may be charged on any retail installment contract; twelve dollars on any retail installment contract involving an initial principal balance of fifty dollars or more; seven dollars and fifty cents on a retail installment contract involving an initial principal balance of more than twenty-five dollars and less than fifty dollars; and five dollars on a retail installment contract involving an initial principal balance of twenty-five dollars or less.

(5) The seller shall deliver or mail to the buyer, at his address as shown on the contract, a copy of the retail installment contract prior to the day on which the first payment is due thereunder. Any acknowledgment by the buyer of delivery of a copy of the contract shall be in a size equal to at least ten point bold face type and, if contained in the contract, shall appear directly above the buyer's signature.

(6) No retail installment contract shall be signed by the buyer when it contains blank spaces to be filled in after it has been signed except that, if delivery of the goods or services is not made at the time of execution of the contract, the identification of the goods or services and the due date of the first installment may be left blank and later inserted by the seller in the seller's counterpart of the contract after it has been signed by the buyer. The buyer's written acknowledgment, conforming to the requirements of subsection (5), of delivery of a copy of a contract shall be presumptive proof, in any action or proceeding, of such delivery and that the contract, when signed, did not contain any blank spaces as herein provided.

(7) The seller under any retail installment contract shall, within thirty days after execution of the contract, deliver or mail or cause to be delivered or mailed to the buyer at his aforesaid address any policy or policies of insurance the seller has agreed to purchase in connection therewith, or in lieu thereof a certificate or certificates of such insurance. The amount, if any, included for insurance shall not exceed the applicable premiums chargeable in accordance with the rates filed with the insurance department; if any such insurance is cancelled, unearned insurance premium refunds received by the holder shall be credited to the final maturing installment of the contract except to the extent applied toward the payment for similar insurance protecting the interests of the seller and the holder or either of them. Nothing in this act shall impair or abrogate the right of a buyer to procure insurance from an agent and company of his own selection, as provided by the insurance laws of this state; and nothing contained in this act shall modify, alter or repeal any of the insurance laws of this state. The term "holder" as used in this act, means the retail seller unless seller has assigned the contract, in which case "holder"

means the assignee of such contract at the time of the determination.

(8) If the buyer so requests, the holder shall give or forward to the buyer a receipt for any payment when made in cash. At any time after the execution of a contract, but not later than two months after the last payment thereunder, the holder shall, upon written request of the buyer, give or forward to the buyer a written statement of the dates and amounts of payments and the total amount, if any, unpaid thereunder. Such a statement shall be supplied by the holder once without charge; if any additional statement is requested by the buyer, the holder shall supply such statement to the buyer at a charge not exceeding one dollar for each additional statement so supplied.

(9) After payment of all sums for which the buyer is obligated under a contract, and upon written demand made by the buyer, the holder shall deliver or mail to the buyer, at his last known address, one or more good and sufficient instruments to acknowledge payment in full and shall release all security in the goods.

(10) Notwithstanding the provisions of any retail installment contract to the contrary, any buyer may prepay in full at any time before maturity the unpaid balance of any retail installment contract and in so paying such unpaid balance shall receive a refund credit thereon for such anticipation of payments. The amount of such refund shall represent at least as great a proportion of the time price differential after first deducting therefrom an acquisition cost of fifteen dollars, as the sum of the monthly time balances beginning one month after prepayment is made, bears to the sum of all the monthly time balances under the schedule of payments in the contract. Where the amount of such refund credit is less than one dollar no refund need be made.

(11) In a retail installment transaction involving the modernization, rehabilitation, repair, alteration, improvement or construction of real property:

(a) The buyer may be charged for and there may be collected from him, or there may be added to the cash sale price, the reasonable fees and costs actually to be paid for construction authorizations and similar permits issued by public agencies and for title search, title insurance and services of an attorney relating to any real property mortgage, lien or other encumbrance taken, granted or reserved pursuant to the contract.

(b) The seller shall not request or accept a certificate of completion signed by the buyer prior to the actual delivery of the goods and completion of the work to be performed under the contract.

History.—§5, ch. 59-414; (11) n. by §2, ch. 61-398; (4) §5, ch. 63-547.

*Becomes effective January 1, 1964.

520.35 Revolving accounts.—

(1) Every revolving account shall be in writing and shall be completed prior to the

signing thereof by the retail buyer. The printed portion, other than instructions for completion, of any revolving account executed on or after the effective date of this act shall be in at least six point type. Any such account shall contain the names of the seller and the buyer, the place of business of the seller, and the residence or place of business of the buyer as specified by the buyer, and substantially the following notice in a size equal to at least ten point type:

Notice to the Buyer

a. Do not sign this before you read it or if it contains any blank spaces. b. You are entitled to an exact copy of the paper you sign. c. You have the right to pay in advance the full amount due.

A copy of any such account executed on or after the effective date of this act (January 1, 1960) shall be delivered or mailed to the retail buyer by the retail seller prior to the date on which the first payment is due thereunder. Any acknowledgment by the buyer of delivery of a copy of the account shall be in a size equal to at least ten point bold face type and, if contained in the account, shall appear directly above the buyer's signature. No account executed on or after January 1, 1960, shall be signed by the buyer when it contains blank spaces to be filled in after it has been signed. The buyer's acknowledgment, conforming to the requirements of this subsection, of delivery of a copy of an account, shall be presumptive proof, in any action or proceeding, of such delivery and that the account, when signed, did not contain any blank spaces as herein provided. All accounts executed on or after January 1, 1960, shall state the amount of, or the method of calculating, the time price differential to be charged and paid pursuant thereto or shall state that a time price differential not in excess of that permitted by this law will be charged and paid pursuant to such account.

(2) The retail seller under a revolving account shall promptly supply the retail buyer thereunder with a statement as of the end of each monthly period (which need not be a calendar month), or other regular period agreed upon by the retail seller and the retail buyer, in which there is any unpaid balance thereunder, which shall recite the following:

(a) The unpaid balance under the account at the beginning and end of the period.

(b) Unless otherwise furnished by the retail seller to the retail buyer by sales slip, memorandum, or otherwise, the cash price and the date of each purchase during the period.

(c) The payments made by the retail buyer to the retail seller and any other credits to the retail buyer during the period.

(d) The amount of the time price differential if any. The items need not be stated in the sequence or order set forth above; and additional items may be included to explain the computations made in determining the amount to be paid by the retail buyer.

(3) Notwithstanding the provisions of any other law, the seller under a revolving account may charge, receive and collect, a time price differential which shall not exceed fifteen cents per ten dollars per month computed on all amounts unpaid thereunder from month to month (which need not be a calendar month) or other regular period; however, if the amount of the time price differential so computed shall be less than one dollar for any such month, a time price differential of one dollar for any such month may be charged, received and collected. If the regular period is other than such monthly period or if the unpaid amount is less than or greater than five dollars, the permitted time price differential shall be computed proportionately. Such time price differential may be computed for all unpaid balances within a range of not in excess of ten dollars on the basis of the median amount within such range if as so computed such time price differential is applied to all unpaid balances within such range.

History.—§6, ch. 59-414.

520.36 Mail order and telephone sales.—Retail installment contracts negotiated and entered into by mail or telephone without personal solicitation by salesmen or other representatives of the seller, where a catalog of the seller or other printed solicitation of business, which is distributed and made available generally to the public, clearly sets forth the cash price and other terms of sales to be made through such medium, may be made as provided in this section. All of the provisions of this act relating to contracts shall apply to such sales except that the seller shall not be required to deliver a copy of the contract to the buyer as provided in §520.34(5) and if the contract when received by the seller contains any blank spaces the seller may insert in the appropriate blank space the amounts of money and other terms which are set forth in the seller's catalog or other printed solicitation which is then in effect. In lieu of sending the buyer a copy of the contract as provided in §520.34(5), the seller shall furnish to the buyer a written statement of any items inserted in the blank spaces in the contract received from the buyer.

History.—§7, ch. 59-414.

520.37 Delinquency charges, attorney's fees and court costs.—A retail installment contract may provide for payment by the buyer of a delinquency charge on each installment in default for a period not less than ten days. Such charge may not exceed five per cent of such installment or five dollars, whichever is less. A retail installment contract or a revolving account may provide for the payment of reasonable attorney's fees if referred for collection to an attorney not a salaried employee of the retail seller and for the payment of court costs.

History.—§8, ch. 59-414.

520.38 Transfer of contracts.—Any retail seller may assign, pledge, hypothecate, or otherwise transfer a retail installment contract or

revolving account to any person, firm or corporation on such terms and conditions and for such price as may be mutually agreed upon. Filing of the assignment, notice to the buyer of the assignment, and any requirement that any person maintain dominion over the payments under the contract or account or over the goods if repossessed, shall not be necessary to the validity of a written assignment or transfer of a contract or account as against creditors, subsequent purchasers, pledgees, mortgagees and lien claimants of the seller. Unless the buyer has notice of the assignment, payment thereunder made by the buyer to the last known owner of the contract or account shall be binding on all subsequent owners thereof.

History.—§9, ch. 59-414.

520.39 Violations.—

(1) Any person who shall wilfully and intentionally violate any provision of this act shall be deemed guilty of a misdemeanor and upon conviction thereof shall be punished by a fine not exceeding \$500.

(2) In case of a wilful violation of this act with respect to any transaction, the retail buyer in such transaction may recover from the person committing such violation (or may set off or counterclaim in any action by such person) an amount equal to the time price differential and any delinquency charge and any attorney's fee and court costs charged and paid with respect to such transaction, but the retail seller may recover from the retail buyer an amount equal to the cash price of the goods or services in such transaction and the cost of any insurance purchased by the retail seller for the retail buyer in connection therewith.

*(3) A wilful violation of §§520.32, 520.34 or 520.35 by the seller or holder shall bar recovery of any finance charge, delinquency or collection charge on the contract.

(4) Notwithstanding the provisions of this section, no person shall be subject to any penalty for any failure to comply with any provision of this act until the retail buyer or the state comptroller has notified such person in writing of such failure and unless within thirty days after such notice such failure is not corrected by such person.

History.—§10, ch. 59-414; (3) §6, ch. 63-547.

*Becomes effective January 1, 1964.

520.40 Waiver.—Any waiver by the retail buyer of any provisions of this act or of any remedies granted to the buyer by this act shall be unenforceable and void.

History.—§11, ch. 59-414.

520.41 Prior contracts not affected.—The provisions of this act shall not make unlawful contracts or accounts in effect prior to January 1, 1960.

History.—§13, ch. 59-414.

520.42 Construction.—Nothing in this act shall be construed to affect any transaction covered by chapters 516 and 519 and part I of this chapter, or any transaction by any banking institution or state or federal savings and loan association.

History.—§14, ch. 59-414.

520.52 Licenses.—

(1) No person shall engage in the business of a sales finance company in this state with-

out a license therefor as provided in this act; provided, however, that no bank, trust company or industrial bank authorized to do business in this state, or any small loan lender licensed under chapter 516, or any registrant under chapter 519, shall be required to obtain a license under this act. (2) Licenses shall be issued under and in accordance with the provisions of this act for a period which will expire December 31 next following the date of issuance. Such licenses shall not be transferable or assignable. Each license shall specify the location of the office or branch and must be conspicuously displayed there. In case such location be changed, the administrator shall endorse the change of location on the license without charge. No licensee shall transact any business provided for by this act under any other name. Licenses shall be issued only to persons of good moral character, or to corporations whose officers are of good moral character. Fees collected under this section shall be deposited in the state treasury and are hereby appropriated to the comptroller to be used in administering this act.

History.—§3, ch. 63-244.

520.53 Denial, suspension or revocation of licenses.—

(1) A license may be denied, suspended or revoked by the administrator on the following grounds:

(a) Material misstatement in application for license;

(b) Wilful failure to comply with any provision of this act or of part II of chapter 520, relating to retail installment contracts;

(c) Defrauding any retail buyer to the buyer's damage;

(d) Fraudulent misrepresentation, circumvention or concealment by the licensee through whatever subterfuge or device of any of the material particulars or the nature thereof required to be stated or furnished to the retail buyer under this act.

(2) If the licensee is a firm, association, or corporation, it shall be sufficient cause for the suspension or revocation of a license that any officer, director or trustee of a licensed firm, association or corporation, or any mem-

ber of a licensed partnership, has so acted or failed to act as would be cause for suspending or revoking a license to such party as an individual. Each licensee shall be responsible for the acts of any or all of his employees while acting as his agent, if such licensee after actual knowledge of said acts retained the benefits, proceeds, profits or advantages accruing from said acts or otherwise ratified said acts.

(3) No license shall be denied, suspended or revoked except after hearing thereon. The administrator shall give the licensee at least ten days written notice in the form of an order to show cause, of the time and place of such hearing by registered mail addressed to the principal place of business in this state of such licensee. The said notice shall contain the grounds of complaint against the licensee. Any order denying, suspending or revoking such license shall recite the grounds upon which the same is based. The order shall be entered upon the records of the administrator and shall not be effective until after thirty days written notice thereof given after such entry forwarded by registered mail to the licensee at such principal place of business. If the licensee fails or refuses to obey the order after such thirty days period has elapsed, the administrator may file a petition with the circuit court for an injunction to enforce the order. A copy of the administrator's findings and conclusions of law shall be set forth in such petition. The court hearing such petition shall have the power to issue an appropriate injunction restraining and enjoining such licensee from engaging in the act or acts forbidden by the order of the administrator. No revocation, suspension or surrender of any license shall impair or affect the obligation of any lawful retail installment contract acquired previously thereto by the licensee.

(4) Within thirty days after any such suspension or revocation of a license, the person aggrieved may apply for a review thereof pursuant to and in accordance with the provisions of §120.31.

History.—§4, ch. 63-244.

520.54 Books, accounts, records, etc.—

(1) Every licensee shall maintain, at the place of business designated in the license certificate, such books, accounts, and records of the business conducted under the license issued for such place of business as will enable the administrator to determine whether the business of the licensee contemplated by this act is being operated in accordance with the provisions of parts II and III of this chapter.

(2) A licensee operating two or more licensed places of business in this state, may maintain the general control records of all such offices at any one of such offices, or at any other office maintained by such licensee, upon the filing of a written request with the administrator designating therein the office at which such control records are maintained.

(3) All books, accounts and records of li-

censees, including any cards used in a card system, shall be preserved and available for examination by the administrator for at least two years after making the final entry therein.

(4) The administrator is hereby authorized and empowered to prescribe the minimum information to be shown in the books, accounts and records of licensees so that such records will enable the administrator to determine compliance with the provisions of parts II and III of this chapter.

History.—§5, ch. 63-244.

520.55 Investigations and complaints.—

(1) The administrator may, at intermittent periods, make such investigations and examinations of any licensee or other person as he deems necessary to determine compliance with parts II and III of this chapter. For such purposes, he may examine the books, accounts, records and other documents or matters of any licensee or other person. He shall have the power to compel the production of all relevant books, records and other documents and materials relative to an examination or investigation. Such investigations and examinations shall not be made more often than once during a year unless the administrator has reason to believe the licensee is not complying with the provisions of parts II and III of this chapter. The expenses of the administrator incurred in each such examination of a sales finance company licensed under this act shall be paid by such finance company so examined within thirty days after demand therefor by the administrator, and shall not exceed thirty-five dollars per day for each eight hour man-day for time actually consumed in making such examination, plus the traveling expense and per diem subsistence allowance provided for state employees in §112.061. Expense thus recovered shall be deposited in the state treasury as a reimbursement to the biennial appropriation for expenses incurred in enforcing this act. The licensee shall not be required to pay a per diem fee and expenses of an examination which shall consume more than thirty man-days in any one year unless such examination or investigation is due to fraudulent practices of the licensee, in which case such licensee shall be required to pay the entire cost regardless of time consumed.

527.14 Procedure for suspension and revocation of license.—

(1) The violation by any person possessed of a license as provided in §527.02, after a cease and desist order has been entered pursuant to §527.12, shall be cause for revocation or suspension of such license, by the state fire marshal, after such officer shall determine said person guilty of such violation.

(2) Whenever the state fire marshal shall have reason to believe that any person is or has been violating the provisions of this chapter or any rules or regulations adopted and promulgated pursuant thereto, or is violating or has violated a cease and desist order, he shall issue and mail to such person a statement of the charges in that respect and written notice of his intention to suspend or revoke the license.

(3) If within twenty days after the date of mailing said statement of charges the licensee has not filed with the state fire marshal at his office in Tallahassee a written answer to such charges coupled with a written request for a hearing thereon, the state fire marshal may proceed to suspend or revoke the license.

(4) If within such twenty days an answer and request for hearing is filed with the state

fire marshal, he shall hold a hearing with respect to the charges within sixty days from the date of the mailing of the statement of charges unless postponed by mutual consent of the parties. The state fire marshal shall give the licensee written notice of the hearing not less than ten days in advance of the hearing date.

(5) At the conclusion of such hearing and after consideration by the state fire marshal of the evidence produced thereat, should he find in his judgment that said charge of violation has been proved he shall enter his order suspending or revoking the license of the person charged. An order of suspension shall state the period of time of such suspension which period shall not be in excess of one year from the date of such order. An order of revocation may be entered for a period of not exceeding two years; and such order shall effect revocation of license then held by said person and during such period of time no license shall be issued said person. If during the period between the filing of charges and entry of an order of suspension or revocation by the state fire marshal a new license has been issued the person so charged, any order of suspension or revocation shall operate effectively with respect to said new license held by such person. After such hearing, should the state fire marshal determine that the charge has not been sustained he shall enter his order to that effect.

(6) The provisions of this section are cumulative and shall not affect the penalty and injunctive provisions of §§527.08 and 527.09.

Testimony may be taken orally or by deposition and any party shall have such right of introducing evidence by deposition as may obtain in the circuit courts of this state.

(7) Unless waived in writing by the other parties to the hearing, the state fire marshal shall cause a full stenographic record of the proceedings at the hearing to be made by a competent reporter and at the cost of the state. If transcribed, a copy of such stenographic record shall be made a part of the state fire marshal's record of the hearing. A transcription shall be made if requested by any party in order that such party may have a copy thereof. A copy of the transcribed stenographic record shall be furnished to any party to the hearing requesting the same, and at such reasonable charge therefor as the state fire marshal may fix. If no stenographic record is made or transcribed the state fire marshal shall prepare an adequate record of the evidence and of the proceedings. The state's portion of the cost of the stenographic record and transcription thereof shall be paid out of the liquefied petroleum gas administrative trust fund provided for in §527.02(2). (6) Any such individual may execute, acknowledge and file in the office of the state fire marshal a statement expressly waiving such immunity or privilege in respect to any transaction, matter or thing specified in such statement, and thereupon the testimony of such individual or such evidence in relation to such transaction, matter or thing may be received or produced before any judge or justice, court, tribunal, grand jury or otherwise, and if so received or produced such individual shall not be entitled to any immunity or privileges on account of any testimony he may so give or evidence so produced.

(7) Any person who refuses or fails without lawful cause to testify relative to the affairs of any person, when subpoenaed and requested by the state fire marshal to so testify, shall be guilty of a misdemeanor and upon conviction shall be subject to the penalty provided under §527.08.

CHAPTER 541
FAIR TRADE LAW*

- 541.001 Findings of fact.
 541.01 Short title.
 541.02 Definitions.
 541.03 Contract may govern price of sale or resale.
 541.04 Inducements to evade contract restrictions prohibited.

541.001 Findings of fact.—

(1) It is hereby found, determined and declared that the public interests and general welfare of the state will best be served by permitting the maintenance of minimum resale prices of trade-marked, branded or named commodities which are in free and open competition with commodities of a like kind and quality; and

(2) It is found, determined and declared that without minimum resale price maintenance of trade-marked, branded and named commodities which are in free and open competition with commodities of the same general class, small retail merchants with limited purchasing power cannot survive the price wars or price cutting operations of large retail stores which, after forcing the small retailers out of business by such operations gain a virtual monopoly on the retail channels of commerce, contrary to the general welfare and public interest; and

(3) It is hereby found, determined and declared that predatory cutting of established prices of trade-marked, branded or named products, as a deceptive means of unfairly luring from competitive merchants their customers, and for other purposes, has been the most potent weapon to which the great and destructive trusts have resorted most frequently, thereby to weaken and destroy their smaller competitors financially unable to endure resultant losses. By such misleading practice there is established in the trading area affected a virtual monopoly of distribution interposed between the producer and the public, by which the monopolist may extort at will from the consumer, while dictating prices and product quality dilutions to the producer, all contrary to the general welfare and public interest of the citizens of Florida; and

(4) Such predatory price cutting is injurious to the general public as distinguished from a particular group or class thereof, and is also injurious to the good will and business of the producer and the distributor of commodities bearing a trade-mark, brand or identifying name; and

(5) Prohibiting the unfair and discriminatory practice of price cutting of trade-marked, branded or named commodities which are in free and open competition with commodities of the same general class produced or distributed by others will foster and encourage free and honest competition and will safeguard the gen-

eral public against the creation or perpetuation of monopolies; and

(6) The public interest and general welfare of the state require the permissive or optional maintenance of minimum resale prices established in accordance with the provisions of this chapter by producers or distributors of trade-marked, branded or named commodities which are in free and open competition, as a permanent public policy of the state, at all times, including periods of deflation or inflation; and

(7) This chapter is enacted as an exercise of the police power of this state, in order to serve the general welfare of the citizens of Florida, and with the further objective of preventing monopoly.

543.01 Monopolies in restraint of trade as to use of copyrighted musical compositions; combinations to fix prices, etc., unlawful.—It is unlawful for authors, composers, publishers, owners, or their heirs, successors or assigns, of copyrighted vocal or instrumental musical compositions to form any society, association, partnership, corporation or other group or entity, called herein a combination, when the members therein constitute a substantial number of the persons within the United States who own or control copyrighted vocal or instrumental and musical compositions, and when one of the objects of such combination is the determination and fixation of license fees or other exactions required by such combination for itself or its members or other interested parties for any use or rendition of copyrighted vocal or instrumental musical compositions for private or public performance for profit.

The collection or attempted collection of such license fee or other exaction so fixed and determined by any member, agent, or representative of such combination from any person within this state, including theatres, radio receiving, radio broadcasting and radio re-broadcasting stations, moving picture houses, hotels, restaurants, clubs, dance halls, recreation rooms, pavilions, colleges, universities, churches, or any one who uses music in the conduct of his business, or the officers, direc-

tors, proprietors, managers, owners or representatives thereof, who render or cause to be rendered or permit to be rendered such copyrighted vocal or instrumental musical compositions privately or publicly for profit through personal performance, or through radio or any instrumentality of sound producing apparatus is unlawful and illegal.

The license fees or other exactions by such combination or its agents, members, or interested parties shall not be collected in any court within the boundaries of this state; and the collection or attempted collection of such license fee or other exaction by such combination or its agents, members or interested parties, shall be a separate offense hereunder; and any such combination of authors, composers or publishers, or their heirs, successors or assigns, is declared to be an unlawful monopoly in this state; and the fixing of prices or exactions for use or rendition of copyrighted musical compositions and the collecting or attempting to collect such license fees or other exactions by it or for its members or other interested parties, is declared illegal and in restraint of trade; and such collection or attempted collection is declared to be an intrastate transaction within this state, and shall be subject to the terms and penalties of this chapter.

History.—§1, ch. 17807, 1937; CGL 1940 Supp. 7954(1); am. §7, ch. 22858, 1945.
cf.—§542.01 et seq., Combinations in restraint of trade.

543.02 Common law rights abolished.—When any phonograph record or electrical transcription, upon which musical performances are embodied, is sold in commerce for use within this state, all asserted common law rights to further restrict or to collect royalties on the commercial use made of any such recorded performances by any person are hereby abrogated and expressly repealed. When such article or chattel has been sold in commerce, any asserted intangible rights shall be deemed to have passed to the purchaser upon the purchase of the chattel itself, and the right to further restrict the use made of phonograph records or electrical transcriptions, whose sole value is in their use, is hereby forbidden and abrogated.

History.—§1, ch. 20868, 1941.

543.03 Rights under copyright laws unaffected.—Nothing in §543.02 or this section shall be deemed to deny the rights granted any person by the United States copyright laws. The sole intentment of this enactment is to abolish any common law rights attaching to phonograph records and electrical transcriptions, whose sole value is in their use, and to forbid further restrictions or the collection of subsequent fees and royalties on phonograph records and electrical transcriptions by performers who were paid for the initial performance at the recording thereof.

History.—§2, ch. 20868, 1941.

543.04 Construction of law as to resale, fixing price, etc.—Nothing in §§543.04-543.18 shall be construed to give to any purchaser of copyrighted musical compositions, as herein provided, the right to resell, copy, print, publish or vend the same; nor to prevent authors and composers from determining and fixing the price to be charged for the use or rendition of their copyrighted musical compositions, provided such authors and composers act independently of any such combination as is in §543.01 declared unlawful.

History.—§2C, ch. 17807, 1937; CGL 1940 Supp. 7954(4); am. §7, ch. 22858, 1945.

543.05 Existing contracts made with unlawful combinations declared void.—All contracts, agreements or licenses now existing within this state, made by any person with any combination declared unlawful under §543.01, are void and nonenforceable in any court within this state, and are declared to have been entered into as intrastate transactions with such unlawful combinations and in restraint of trade. All such contracts, agreements, licenses and the attempted enforcement thereof may be enjoined by any person sought to be bound thereby; and any agent, member or representative of such unlawful combination enforcing or attempting to enforce the terms of such existing contract, agreement or license, shall be guilty of a violation of the terms of this chapter; and for any collection or attempted collection of moneys set out in the illegal contract, agreement or license, shall be subject to the penalties of §543.18.

History.—§4A, ch. 17807, 1937; CGL 1940 Supp. 7954(6).

Any person collecting or attempting to collect such license fee or other exaction against such persons within this state for the purpose of paying or reimbursing itself for having paid any such license fee or other exaction herein declared unlawful and noncollectible, shall be deemed guilty of a violation of the provisions of this chapter; and the person from without this state is declared to be an agent and representative of such combination as declared illegal and unlawful by §543.01 and shall be subject to all the penalties hereof.

trolled by any combination declared unlawful by §543.01 without the payment, to such combination, or to its agents, representatives or assigns, of any license fee or other exaction declared illegal and noncollectible by the terms of this chapter.

History.—§5A, ch. 17807, 1937; CGL 1940 Supp. 7954(8).

543.09 Theaters, etc., using compositions of concerns outside of state.—When such theater, moving picture house, or other place for amusement or performance is affiliated or under contract in any manner whatsoever with any person furnishing in any form or manner copyrighted musical compositions from outside this state, or supplying such persons in this state with radio broadcasts or electrical transcriptions, sound production instrumentalities or apparatus, or artists, performers, musicians, singers, players, orchestras, bands or other artists or talent, wherein or whereby copyrighted vocal or instrumental musical compositions are privately or publicly rendered for profit, then such person outside this state is prohibited from in any manner charging or attempting to charge, or collecting or attempting to collect, from any person who owns, leases, operates or manages such theater, moving picture house, or other place for amusement or public performance within this state, any license fee or other exaction for the purpose of paying or repaying the same to any combination declared unlawful by §543.01 for the use, rendition or performance of such copyrighted musical compositions.

Any person collecting, or attempting to collect, such license fee or other exaction from outside this state against such persons within this state for the purpose of paying or reimbursing itself for having paid any such license fee or other exaction herein declared unlawful and noncollectible, shall be deemed guilty of a violation of the provisions of this chapter; and such person from without this state is declared to be an agent and representative of such combination declared illegal and unlawful by §543.01 and shall be subject to all the penalties hereof.

History.—§1, ch. 20991, 1941.

543.11 Representatives of unlawful combinations; service of process.—Any person within this state who shall act as the representative of any combination declared unlawful in §543.01, shall, for the purpose of this

chapter, be deemed an official representative and agent of such unlawful combination and shall be construed to be doing business within this state, and service of any process against such combination may be had upon such representative or the agent of such representative. When so served, such process shall have the same legal effect as if served upon a duly elected officer or managing agent or other official representative upon whom service might otherwise be made upon such combination within this state.

History.—§7A, ch. 17807, 1937; CGL 1940 Supp. 7954(11).

543.12 Collectors of license fees considered part of unlawful combinations.—Any person who negotiates for, or collects, or attempts to collect license fees or other exactions, or who acts as the representative or agent for any combination declared unlawful in §543.01, shall, for the purpose of this chapter, be considered as a part of said unlawful combinations; and such person shall be subject to all the penalties in this chapter provided for violations thereof.

History.—§7B, ch. 17807, 1937; CGL 1940 Supp. 7954(12).

543.13 Injunctions to restrain violations.—The several circuit courts of this state shall have jurisdiction to prevent and restrain violations of §§543.01-543.18, and, on the complaint of any party aggrieved because of the violation of any of the terms of §§543.01-543.18 anywhere within this state, the state attorneys in their respective circuits, under the direction of the attorney general, shall institute proceedings, civil or criminal or both, under the terms hereof against any combination as defined in §543.01, against any of its members, agents or representatives, to enforce any of the rights herein conferred, and to impose any of the penalties herein provided, or to dissolve any such combination. In civil actions such proceedings may be by way of petition setting forth the case and praying that such violation shall be enjoined or otherwise prohibited. When the parties complained of have been duly notified of such petition, the court shall proceed, as soon as may be, to the hearing and determination of the case; and pending such petition and before final decree, the court may at any time make such temporary restraining order as shall be deemed equitable.

543.14 Persons aggrieved authorized to sue.—Any person in this state aggrieved by reason of anything forbidden in §543.01-543.18, may sue therefor in any circuit court in the circuit in which the violation or a part thereof took place, to recover any damages assessed as a result of the violation of the terms of §§543.01-543.18, and shall be entitled to recover his costs, including reasonable attorney's fees to be fixed by the court in such action.

A copy of such order shall be mailed to each defendant at his last known address, which shall be deemed sufficient notice and service upon such defendant; or, the same may be served by mail in the same manner upon the attorney of record for the defendant, and this shall be deemed sufficient notice and service upon said defendant.

cf.—§1.01, General definitions.

543.20 Conditions under which sale of performing rights may be made.—It is unlawful for any person to sell, license the use of, or in any manner whatsoever dispose of, in this state, the performing rights in or to any musical composition or dramatico-musical composition which has been copyrighted, and is the subject of a valid existing copyright, under the laws of the United States, or to collect any compensation on account of any such sale, license, or other disposition, unless such person:

(1) Shall first have filed with the comptroller on forms prescribed by the comptroller a list describing each musical composition and dramatico-musical composition, the performing rights in which said person intends to sell, license or otherwise dispose of in this state, which description shall include the following: The name and title of the copyrighted composition, the date of the copyright, the number or other identifying symbol given thereto in the United States copyright office, the name of the author, the name of the publisher, the name of the present owner of the copyright to said composition, and the name of the present owner of the performing rights thereto. Additional lists of such copyrighted compositions may be filed by any such person from time to time, and shall be subject to all the provisions of this chapter. A filing fee of two cents a composition shall be required by the comptroller for filing any list under this chapter.

(2) Shall simultaneously file an affidavit which shall describe the performing rights to be sold, licensed or otherwise disposed of and shall state that the compositions so listed are copyrighted under the laws of the United States, that the facts contained in the list to which said affidavit relates are true, that affiant has full authority to sell, license or otherwise dispose of the performing rights in such composition. The affidavit shall set forth the name, age, occupation and residence of the affiant; and if an agent, the name, occupation and residence of his principal.

543.21 List of copyrighted compositions.—The list provided for in §543.20 shall be made available by the comptroller to all persons for examination, and taking of copies, in order that any user of such compositions in this state may be fully advised concerning the performing rights therein, and avoid being overreached by false claims of ownership of said performing rights, and also avoid committing innocent infringements of said works. The comptroller may, in order to prevent such overreaching and to protect the citizens of this state from committing innocent violations of the copyright laws of the United States, cause a list of all such copyrighted material filed with him to be published once a year or oftener in a form and medium which he shall deem suitable for said purposes. A duplicate of any list so filed by any such person shall at his request be certified by the comptroller and shall by the comptroller be given or delivered to such person, who shall exhibit the same on demand of anyone to whom such person seeks to sell, license or otherwise dispose of said performing rights.

History.—§3, ch. 19653, 1939; CGL 1940 Supp. 7954(23).

543.22 Unlawful combinations.—It is unlawful for two or more owners of the copyrights of musical compositions or dramatico-musical compositions to associate or combine together in any manner, directly or indirectly, for the purpose of issuing blanket licenses for the public performance for profit of their combinations upon a blanket royalty or fee covering more than one, or all, of such compositions owned or controlled by the members of such association unless each individual copyright owner included in such association, or such association in behalf of each individual copyright owner, also shall make available to each user of such composition within the state, at the option of the user, the right to perform publicly for profit each such copyrighted musical composition owned by him at a price established for each separate performance of each such composition.

To this end, there shall be filed with the comptroller, either as a part of the list required by §543.20 or as a separate document by such copyright owner, or by such association in behalf of such owner, a schedule of prices for the performing rights to each separate performance for profit of each composition contained in such list, together with an affidavit of the copyright owner of such compositions that the price so stated has been determined by such copyright owner acting for himself and not either directly or indirectly in concert or by agreement with the owner of any other copyrights. Such schedule of prices may contain reasonable classifications determined by use and function, or either, of the users of said compositions, with separate price for each classification; provided, that there is equal treatment of all persons within each classification and that there is no unreasonable discrimination between classifications.

Any copyright owner may at his election

fix one price which shall be applicable to each rendition of each of such compositions owned by him except to the extent that he elects to name specific compositions and to fix other prices for each rendition thereof; and said prices shall remain in force and effect until a new schedule of prices with respect to the performing rights to such compositions has been similarly filed in the office of the comptroller, at any time, at the election of such owner, changes in prices to become effective seven days from the date of filing thereof. The schedule of prices provided for herein shall be made available by the comptroller to all persons for examination and the taking of copies, and may be published by him in the same manner as provided in §543.21.

History.—§4A, ch. 19653, 1939; CGL 1940 Supp. 7954(24).

543.23 Blanket license.—Any person issuing a blanket license for performance rights shall file with the comptroller within thirty days from the date such blanket license is issued, a true and complete copy of each such license issued or sold with respect to performance within this state, together with the affidavit of such person that such copy is a true and complete copy of the original and that it sets forth each and every agreement between the parties thereto with respect to such performing rights. The comptroller shall charge for filing such contracts the same fee allowed clerks of the circuit court for similar services.

History.—§4B, ch. 19653, 1939; CGL 1940 Supp. 7954(25).
cf.—§28.24 Clerk's fee.

543.24 Charge for performance rights based on program not containing copyrighted compositions.—It is unlawful for any person selling, licensing the use of or in any manner whatsoever disposing of or contracting to dispose of, in this state, the performing rights in or to any musical composition or dramatico-musical composition, to make any charge or to contract for or collect any compensation as a condition of using said performing rights based in whole or in part on any program not containing any such composition, and any such charge or contract for compensation shall be valid and enforceable only to the extent that it is based and computed upon a program in which such composition is rendered.

History.—§4C, ch. 19653, 1939; CGL 1940 Supp. 7954(26).

543.25 Charge for performance rights on unlisted compositions.—It is unlawful for any person selling, licensing the use of or in any manner whatsoever disposing of or contracting to dispose of in this state public performing rights in or to any musical composition or dramatico-musical composition to make any charge or to contract for or collect any compensation for the use or performance of any such composition that has not been listed with the comptroller as provided in §543.20.

History.—§4D, ch. 19653, 1939; CGL 1940 Supp. 7954(27).

543.26 Secretary of state to accept service of process on owner.—At the time of filing the information required in §§543.20-543.21, the

owner of said performing rights shall execute and deliver to the secretary of state on a form to be furnished by the secretary of state, an authorization empowering the secretary of state to accept service of process on such person in any action or proceeding, whether cognizable at law or in equity, arising under this chapter, and designating the address of such person until the same shall be changed by a new form similarly filed. Service of process may thereafter be effected in this state on such person in any action or proceeding by serving the secretary of state with duplicate copies of such process; and immediately upon receipt thereof the secretary of state shall mail one of the duplicate copies by registered mail to the address of such person as stated on authorization last filed by him. A filing fee of five dollars shall accompany this notice and the secretary of state shall deposit same in the general revenue fund of the state.

550.02 The powers and duties of the racing commission.—The state racing commission shall carry out the provisions of this chapter and such commission shall personally or by agents supervise and check the making of pari-mutuel pools and the distribution therefrom,

and:

(1) Fix and set the dates for racing in any county where there are one or more horse tracks or one or more dog tracks seeking to race and holding ratified permits upon which any track can operate in any county, apportioning such dates to the several tracks in such counties as provided by law; provided, however, that where only one licensed dog track is located in a county, such track may operate ninety days during the racing season at the option of said dog track; provided, however, that no horse tracks licensed to engage in the conduct of running races located within one hundred air miles of each other shall operate on the same dates and any track licensed to engage in the conduct of harness races located within one hundred air miles of another permittee or licensee authorized to conduct either harness races or running races shall be apportioned not more than forty days within the legal horse racing season which may be the same dates awarded to a permittee or licensee conducting running races.

(3) Require an oath to each and every application by the person or executive officer of the association or corporation, stating that such information contained in the application is true.

(4) Make rules and regulations for the control, supervision and direction of all applicants, permittees and licensees, and for the holding, conducting and operating of all race tracks, race meets, races held in this state; provided, such rules and regulations shall be uniform in their application and effect, and the duty of exercising this control and power is made mandatory upon such commission. Said commission may take testimony concerning any matter within its jurisdiction and each member thereof may administer oaths for that purpose. Said commission shall have the power to issue summons and subpoenas for any witness and subpoenas duces tecum in connection with any matter within the jurisdiction of the commission under its seal and signed by any member of the commission or the supervisor or assistant supervisor of racing.

(5) Require of each applicant an application setting forth:

(a) The full name of the person, association or corporation, and if a corporation the name of the state under which the same is incorporated.

provided, however, that nothing in this chapter shall prevent a person from applying to the racing commission for a permit to conduct races, regardless of whether the racing plant has been constructed or not, and having an election held in any county at the same time when elections are held for the ratification of any permit in said county.

(e) A statement of the assets and liabilities of the person making such application.

(f) The kind of racing to be conducted and the desired period.

(g) Such other information as the commission may require.

(6) Require of each applicant a deposit of a sufficient sum, in currency or by check certified by a bank licensed to do business in the state with the county commissioners of the county in which the election is to be held, in an amount necessary to pay all expenditures in connection with the holding of the election mentioned in §550.06.

(7) Upon receipt of such application and any amendments properly made thereto, the racing commission shall further investigate the matters contained in the application and if any applicant shall duly fulfill and meet all requirements, conditions and qualifications set forth in this chapter and the rules and regulations of the racing commission hereunder, then the racing commission shall grant the permit to such qualified applicant as hereinabove provided.

(8) In the event the state racing commission shall refuse to grant the permit, then the money deposited with the county commissioners for the holding of such election shall be refunded to the applicant. In the event the state racing commission shall grant the permit applied for, the board of county commissioners shall order an election in said county to decide whether such permit shall be approved and the license issued and race meetings permitted in such county, as hereinafter provided for in §550.07.

(9) Each licensed thoroughbred running track in the state shall be required to run an average of one race per racing day in which horses bred in Florida and duly registered with the Florida thoroughbred breeders' association shall have preference as entries over non-Florida-breds, and to require all licensed thoroughbred race tracks to write the conditions for such races in which Florida-breds are preferred so as to assure that all Florida-bred horses available for racing at such tracks be given full opportunity to run in the class races for which they are qualified, said opportunity of running to be afforded to each class of horses in proportion that the number of horses in this class bears to the total number of Florida-breds available; and provided that no track shall be required to write conditions for a race to accommodate a class of horses for which a race would otherwise not be run at such track during its meeting.

The chairman of the commission shall receive an additional one thousand eight hundred dollars per annum, and the secretary of the commission shall receive an additional two thousand four hundred dollars per annum, to be paid out of any funds in the hands of the state treasurer to the credit of the racing commission.

Disbursements from said fund for the compensation and expenses of the commission shall be made in the manner as now provided by law for salaries and expenses of the state government, and a sufficient amount of money to pay said compensation of the commissioners and the expenses of the commission, is appropriated out of any funds hereafter in the hands of the state treasurer to the credit of the state racing commission; provided that all obligations and debts, including salaries and traveling expenses of the commissioners, shall be wholly paid out of funds deposited with the treasurer under the provisions of this chapter, and it is expressly declared that the state, or any funds belonging thereto, shall not at any time, or under any circumstances, be or become liable to any person for any expense incurred or debts owing by the commission or any member, agent, servant, or employee of the commission, and no money shall be paid out by the treasurer for salaries or expenses of the commission except upon voucher of the commission signed by the chairman and countersigned by the secretary, which voucher shall exhibit in detail the items for which the money is paid.

Provided, however, that the Florida state racing commission may extend said limitations of time for horse or dog racing or jai alai operation not to exceed one day at any one track beyond the period otherwise provided by law

so that any such track or fronton may conduct a charity day of racing for any one or more recognized and established charitable institutions located within one hundred miles road travel of the race track or fronton holding such charity day of racing; and further provided that for the purposes of this section the university of Miami, Jacksonville university and other institutions of higher learning, including junior colleges, not already participating in charity or scholarship racing days shall be deemed to be charitable institutions and that a portion of the proceeds available for the charitable purposes in an amount not less than twenty-five per cent may be paid over to and for the benefit of the said charitable institutions of higher learning in said areas, and provided further that the total of all profits derived from the operation of such racing on such charity day including all monies which would otherwise be received by the state racing commission as taxes for such day's operation shall be and become a part of the charity trust fund for which such racing on such days is conducted.

Provided further, that in determining profits derived from such racing on such charity day, which profits shall include all taxes payable to the state or any agency thereof for such day's operations without the initial expense of operational allowance provided by law for dog tracks, said tracks and frontons shall only be entitled to deduct from the profits accruing from all receipts on such charity day of racing their actual operating costs, which costs shall be those expenses incurred by the race track or fronton solely by reason of holding said charity day of racing and shall not be deemed to include such expenses constant from day to day and which would have been incurred had the race on that day not been held; including, but not limited to, such items as capital expenditures; interest on debts; real estate taxes and annual license fees; donations; bad debts; and such other items of daily or prorated expense as the racing commission may by rule prescribe.

—The holder of any permit may have submitted to the electors of the county designated therein the question whether or not said permit shall be ratified or rejected. Such questions shall be submitted to the electors for approval or rejection at a special election to be called for that purpose only. The board of county commissioners of the county designated, upon the presentation to said board at a regular or special meeting of a written application, accompanied by a certified copy of the permit granted by the state racing commission, and asking for an election in the county in which said application was made, shall order a special election in said county for the particular purpose of deciding whether such permit shall be approved and license issued and race meetings permitted in such county by such permittee; and shall cause the clerk of such board to give notice of said special election by publishing the same once each week for two consecutive weeks in one or more newspapers of general circulation in said county; each permit covering each track shall be voted upon separately and in separate elections and no election shall be called more often than once every two years for the ratification of any permit covering the same track.

All elections ordered under this chapter shall be held within ninety days and not less than twenty-one days from the time of presenting such application to said county commissioners, and the inspectors of election shall be appointed and qualified as in cases of general elections and they shall count the votes cast and make due returns of same to the county commissioners without delay. The county commissioners shall canvass the returns, declare the results, and cause the same to be recorded as provided in the general law concerning elections so far as applicable.

Provided, that where a permit has been granted by the commission and no application to the board of county commissioners has been made by the permittee within six months after the granting of the permit, the same shall be void, and the commission shall cancel such permit without notice to the holder thereof, and the board of county commissioners holding the deposit for the election shall refund to the holder of the permit said deposit upon being notified by the state racing commission that the permit has become void and canceled; provided, further that where, upon a permit issued, an election has been held and such permit ratified, as herein provided, and the holder of the

ratified permit has failed to construct a track suitable to conduct a race meeting within twelve months after the ratification of said permit, then the permit shall be void and the commission shall cancel such permit without notice to the holder thereof.

For such election all electors duly registered and qualified to vote at the last preceding general election held in such county shall be qualified electors for such election, and in addition thereto the registration books for such county shall be opened on the tenth day (if the tenth day be Sunday or a holiday, then on the next day not a Sunday or a holiday) after said election is ordered and called, and shall remain open for a period of ten days for additional registrations of persons qualified for registration but not already registered, and electors for such special election shall have the same qualifications for and prerequisites to voting in elections as under the general election laws.

If at any such special election the majority of the electors voting on the question of ratification or rejection of any permit shall vote against such ratification, then such permit shall be void. If a majority of the electors voting on the question of ratification or rejection of any permit shall vote for such ratification, then such permit shall become effectual and the holder thereof may conduct racing upon complying with the other provisions of this chapter. The county commissioners shall immediately certify the results of the election to the secretary of the state racing commission; provided, that the expense of holding the said election shall be paid for by the permit holder as provided for in subsection (6) of §550.02.

(2) It is hereby declared to be the legislative purpose and intent to ratify and confirm all actions of the state racing commission in the issuance of any permit described in subsection (1), and to ratify, confirm and validate all proceedings in relation to the issuance and ratification of any such permit and to repeal and declare any law or laws in conflict herewith to be inoperative, ineffective and inapplicable to any such permit.

550.069 Harness racing; daily license fee.—

(1) Any duly licensed harness horse race track having an average daily pari-mutuel pool of less than one hundred thousand dollars per day shall, in lieu of the payment of the taxes imposed upon such tracks as now provided by law, be permitted to operate the sale of pari-mutuel pools on the basis of a fixed daily license fee, which fee shall be determined from the following schedule:

Up to \$50,000.00 per day . . . \$1,000.00 per day.
Over \$50,000.00 per day but not exceeding \$75,000.00 per day . . . \$3,000.00 per day.
Over \$75,000.00 per day but not exceeding \$100,000.00 per day . . . \$5,000.00 per day, three-fourths of which daily license fee shall be distributed equally to the sixty-seven counties of the state and the remaining one-fourth to the state's general revenue fund.

(2) Whenever any harness horse track exceeds the sum of one hundred thousand dollars per day in its pari-mutuel pool totals this section shall not apply, and such harness horse track shall be taxed as provided by other general laws.

(3) It is hereby declared to be the legislative purpose and intent to ratify, confirm and validate actions of the state racing commission

in the issuance of any permit described in §550.068 (1), and the placing in operation the fixed daily license fee provided for herein.

History.—§§1-3, ch. 63-261.

550.07 Issuance of license by racing commission; revocation of license; penalty in lieu thereof.—After a permit has been granted by the commission, and after the same has been ratified and approved by the majority of the electors participating in such election of the county designated therein, the racing commission shall grant to the lawful holder of such permit, subject to the conditions hereof, a license to conduct racing under this chapter, and fix annually the time, place and number of days during which racing may be conducted by such permit holder at the location fixed in said permit and ratified in said election. After the first license has been issued to the holder of a ratified permit for racing in any county, all subsequent annual applications for a license by said ratified permit holder shall be accompanied by proof in such form as the commission may require, that the ratified permit holder still possesses all the qualifications prescribed by this chapter, and that the permit has not been recalled at a later election held in such county as provided for in §550.18. The racing commission may revoke any permit or license hereunder upon the willful violation by the licensee of any of the provisions of this chapter, or of any rule or regulation issued by the commission under the provisions of this chapter. In lieu of the suspension or revocation of licenses the racing commission after notice and hearing may impose a civil penalty against any licensee for violations of this chapter or chapter 551, or any rule or regulation promulgated by the commission. No penalty so imposed shall exceed \$1,000 for each count or separate offense and all penalties imposed and collected shall be deposited with the state treasurer to the credit of the general revenue fund. It is unlawful for any licensee under this chapter, directly or indirectly, to make any contribution whatsoever to any political party or to any candidate for any state, county, district, or municipal office; and the commission upon proof of any contribution having been made shall immediately revoke the permit of such licensee and no further license or permit shall be issued thereafter to such former licensee.

550.08 Maximum length of race meeting.—

(1) No license shall be granted to any person or to any race track for a meet or meeting in any county to extend longer than an aggregate of fifty racing days for horse racing and ninety days for dog racing in any racing season: Provided the state racing commission is authorized to grant one additional day of racing during the race meeting period granted to any track as provided by law, upon application

and agreement by any track in which one specific day of any meet shall be set aside, and all profit, less actual operating costs, from such specific day's operations of such track including all taxes payable to the state or any agency thereof for such day's operation shall be paid into the state treasury for a scholarship trust fund which shall be administered by the board of control of the institutions of higher learning of the state for the granting of scholarships for the purpose of attending the institutions of higher learning of the state upon such terms and conditions as the said board may from time to time prescribe. Actual operating costs of any track conducting such additional day of racing to be deducted from all receipts on such additional day of racing shall not include expenses constant from day to day and which would have been incurred had the race on that day not been held; including, but not limited to, such items such as capital expenditures; interest on debts; real estate taxes and annual license fees; donations; bad debts; and such other items of daily or prorated expense as the racing commission may by rule prescribe.

(2) The provisions of this section are supplemental to §550.081 and shall be construed as authority for granting additional days of racing above the total of one hundred and twenty days limitation therein except that each horse race track may run only one additional day as herein provided during its race meeting period as authorized by said law and the one hundred and twenty days limitation therein shall in no event be extended beyond three additional days.

550.081 Allocation of horse racing periods of operation.—

(1) It is the finding of the legislature of the state that the operation of horse racing and legalized pari-mutuel and mutuel betting at horse race tracks in this state is a substantial business compatible to the best interests of the state and the taxes derived therefrom constitute an integral part of the tax structures of the state and counties. It is the further finding of the legislature that two or more horse race tracks located within a radius of one hundred air miles of each other cannot operate on the same racing days without endangering the tax revenue derived therefrom and the general welfare of the public. It is the further finding of the legislature that where more than one horse race track is located in a radius of one hundred air miles of one or more horse race tracks and the allocation and distribution of periods of operation to and between said horse race tracks is vested solely in the discretion of the state racing commission, that the power to change, alter and vary such racing periods from year to year, as it may see fit, is unsound and

unwise, and creates a condition of uncertainty which retards the natural expansion and development of this business and influences and affects the financial stability of the state and counties. It is therefore declared to be the policy of the state that the present danger to the growth and welfare of horse racing and to the tax structure of the state and counties be eliminated insofar as the discretionary powers of the state racing commission in allocating dates to the horse tracks is concerned and this enactment is made pursuant to and for the purpose of carrying out such policy.

(2) Where three horse race tracks in this state are located in a radius of one hundred air miles of each other, the annual period of operating of such horse race tracks shall begin on December first of each year and continue for a full period of one hundred and twenty consecutive days, exclusive of Sundays, and each of said horse race tracks is hereby permitted to race for a full period of forty consecutive racing days, exclusive of Sundays. Such forty day racing periods are hereby established as follows: The first period to consist of the first consecutive forty racing days of such annual racing period, the second period to consist of the second consecutive forty racing days of such annual racing period, and the third period to consist of the third consecutive forty racing days of such annual racing period.

(3) The three racing periods herein above established shall be annually allocated by the state racing commission in the following manner: The horse race track having produced the largest amount of tax revenue during the preceding year of its operation shall be granted its choice of the three established racing periods. The horse race track having produced the second largest amount of tax revenue during the preceding year of its operation shall be granted its choice of the remaining two established racing periods. The horse race track having produced the third largest amount of tax revenue during the preceding year of its operation shall be allocated the racing period remaining after the two tracks producing the largest amount of tax revenue shall have made their selections; provided, however, that if any one or more tracks entitled to a choice of racing periods as provided for herein shall fail to make a selection the state racing commission shall thereupon assign a forty day racing period to said track or tracks, which period it shall be required to operate unless relieved therefrom by order of the state racing commission; provided further, that if any track heretofore allocated racing dates, shall fail or refuse to operate for its full forty day period, unless prohibited by law or causes beyond its control then the state racing commission may, upon request of any one of the other two tracks affected by this law, allocate the remaining racing dates to either or both of the two established horse racing tracks.

(4) On or before the first day of May of each year, each of the horse race tracks shall file in writing with the state racing commission in accordance with the procedure set forth in sub-

sections (2) and (3) of this section, its selection of the racing period herein above established that it desires to operate and conduct its racing meet. On or before the fifteenth day of May of each year the state racing commission shall issue an annual license authorizing the permit holder to conduct a racing meet during the period set forth therein. Such license shall be issued by the state racing commission to the permit holder on the basis of and in accordance with the procedure set forth in subsections (2) and (3) of this section.

(5) In the event any track shall be prevented from operating a full forty day racing season, as a result of a prohibition of law, fire, strike or circumstances beyond the control of the track involved, then the state racing commission in allocating and setting racing dates for the following racing season shall be governed by the amount of tax revenue produced by each track during the last racing season in which all tracks governed by this bill operated a full forty day racing period and dates shall be allocated to the tracks under such circumstances in the manner set forth in subsections (2) and (3) of this section.

(6) The state racing commission is hereby prohibited from granting any permit and there shall be no election in any county for the ratification or rejection of any permit to conduct horse racing, sulky or harness racing at a location in the area in which there are three horse race tracks located within one hundred air miles of each other; provided, however, that permits issued prior to May 21, 1947 shall not be affected by this subsection of this section.

Note.—See ch. 28499, 1953, Hillsborough county; racing, extra day; athletic scholarships.

550.082 Special allocation of periods of operation of certain dog racing tracks.—

(1) Where there are three or more dog racing tracks operating under valid outstanding permits, issued by the state racing commission, located within a radius of thirty-five miles of each other, one of such permit holders within said area shall be permitted, at its option, but shall not be required, during the period beginning July 1 and ending the first Monday of September following, both dates inclusive, of any year, to conduct upon dates of its choice not more than fifty days of its aggregate number of operating days allowed by §550.08; provided that where two or more of such permittees apply for racing dates, as herein provided, the state racing commission shall designate the permittee entitled to conduct such racing during such fifty-day period, and the remaining number of said aggregate days under §550.08, shall be granted to and utilized by such permittee within the period provided in §550.04.

(2) This section shall be cumulative and shall not be construed as repealing any other provisions of law, and shall not be construed as permitting or allowing any permit holder to operate for a period of time in excess of the number of days now provided by law.

History.—§§1, 3, ch. 59-417.

550.083 Dog racing; periods of operation generally; exceptions.—

(1) Owners of valid outstanding permits for dog racing in this state may hold race meetings at any time they choose during the calendar year for the aggregate number of racing days fixed and permitted by law and subject to the approval of the state racing commission; provided, that no racing shall be conducted on Sunday.

(2) The provisions of this act shall not apply to or affect holders of valid permits to conduct greyhound racing or jai alai at greyhound race tracks or jai alai frontons located in Florida in the area between the parallels of twenty-eight degrees north latitude and thirty degrees north latitude and lying east of the meridian of eighty-two degrees west longitude.

History.—§§1, 2, ch. 61-509.

550.09 Moneys to be paid to commission for operation of race track.—Every person engaged in the business of conducting race meetings under this chapter, shall pay to the state treasurer in his capacity as ex-officio treasurer of the commission for the use of the commission a sum equal to three per cent of the total contributions to all pari-mutuel pools conducted or made on any and every race track licensed under this chapter, and on every race at such track. In addition to the aforesaid taxes, each person authorized to conduct race meetings under this chapter shall collect from each person attending such races fifteen per cent of the established admission price or the sum of ten cents from each person attending such race meeting, whichever sum is the greater, as an admission tax, and said person shall pay to the state treasurer as ex-officio treasurer of the commission the tax hereinabove provided for. Payments shall be made every seventh day of any and every race meeting and shall be accompanied by a report under oath, showing the total of all contributions and admissions on the races covered by such report and such other information as the commission may require.

If any free passes or complimentary cards shall be issued to guests by any licensee, the licensee of any such track shall pay to the commission the same tax upon such complimentary admission cards each time they are used for admission to the track as though such complimentary passes or cards had been sold at the regular and usual admission rate; provided that the person conducting any race meeting in this state may issue tickets for admission, showing the amount of admission and the amount of tax to be paid by each person; however, this provision shall not be construed to mean that the association will not be held liable for the payment of the admission tax to the state treasurer as ex-officio treasurer of the state racing commission; provided, however, that a race track permit holder may, by and with the consent of the commission, issue tax-free passes to its officers, officials and employees or other persons actually engaged in

working at such race track, including persons actually employed and accredited press representatives, such as reporters and editors, and may also issue tax-free passes and tax-free box seats to other racing plant permit holders. A list of all persons to whom tax-free passes or tax-free box seats are issued shall be filed with the commission.

550.10 Occupational license tax to be paid by employees; denial and revocation of license.—All persons connected with race tracks shall pay an annual occupational license tax, this occupational tax to be payable for each specified job performed. The scheduled license fees are as follows:

- (1) Contractual concessionaries with permit holders, twenty-five dollars.
- (2) Professional persons such as owners, trainers, veterinarians, doctors, nurses, officials and supervisors of all departments, ten dollars.
- (3) Jockeys, apprentice jockeys, jockey agents and jai alai players, five dollars.
- (4) Permit holder employees, concession employees, grooms, exercise boys, hot walkers, miscellaneous stable help, platers, and all others not specifically provided, four dollars.

It is unlawful for any person to take part in or officiate in any way or to serve in any capacity at any race track without first having secured said license and paid said occupational tax; provided, however, this section shall not apply to disabled men of any war of which the United States was a participant; and provided, further, that every race track operating in the state and having a license from the racing commission shall be required to employ at least eighty-five per cent of their employees from bona fide residents and citizens of the state, exclusive of jockeys or apprentices, exercise boys, owners, trainers, clockers and governing and managing officials and heads of the departments of the track.

The commission may deny or revoke a license to any person who shall have been refused a license by any other state racing commission or racing authority; provided, however, that the state racing commission or racing authority of such other state extends to the state racing commission of Florida reciprocal courtesy to maintain the disciplinary control; the state racing commission may deny or revoke any license where the holder thereof has violated the rules and regulations of the commission governing the conduct of persons connected with the race tracks.

town or other political subdivision thereof, except that when any race meeting is held or conducted in any incorporated city or town, such city or town may assess and collect an additional tax against any person conducting racing within its corporate limits not to exceed one hundred fifty dollars per day for horse racing and not to exceed fifty dollars per day for dog racing.

550.12 Method of bookkeeping prescribed.—Every person conducting race meetings under this chapter shall so keep books and records as to clearly show the total number of admissions and the total amount of money contributed to every pari-mutuel pool on each race separately and the amount of money received daily from admission fees, and within sixty days after the conclusion of every race meeting shall submit to the commission a complete audit of its accounts, certified by a public accountant licensed to practice in the state, and in addition, every person conducting race meetings under this chapter shall submit to the commission a detailed annual audit. The state auditor may audit and check the books and records of any such person and upon the request of the commission he shall do so.

550.13 Division among counties of moneys derived under this law.—All moneys received by the state treasurer as ex officio treasurer of the commission shall be distributed among the several counties of the state in the following proportions in the manner and at the times hereinafter specified:

All such moneys, after expenses of the commission are paid, shall be divided into as many equal parts as there are counties in the state and there shall be remitted one part to each county.

Distribution among the several counties shall begin each racing year on or before the fifth day of January and shall continue monthly through April fifth; and on or before the fifth day of May the state comptroller shall determine and make a finding of all receipts and all moneys paid out upon warrants of the comptroller during the year, and the balance remaining on hand as shown by such statement shall be distributed among the several counties of the state, except that prior to making such distribution there shall be retained and reserved in the state treasury a sum not to exceed forty thousand dollars to the credit of the commission for salaries and expenses.

This section shall be construed to permit, after expenses of the commission are paid, the retention in the state treasury from and after January fifth of each year and until May fifth of each year a sum not to exceed an amount equalling ten per cent of the total receipts under this chapter to insure sufficient moneys on hand at all times for current operating expenses of the commission, and the comptroller

shall distribute the balances over and above such ten per cent on or before the fifth day of the months of January, February, March and April. It shall further be construed to mean that, after all salaries and necessary expenses of the commission have been paid for each racing season, up to but not exceeding forty thousand dollars shall be retained to the credit of the commission to meet its expenses accruing before further moneys are received under this chapter, and that all the balance of said money shall be apportioned equally and paid to the several counties of the state by the comptroller on or before the fifth day of May of each year or as soon thereafter as may be practicable.

550.131 Payment of racing funds to county boards of public instruction.—In all cases where it is provided by local or special laws that one-half of all monies accruing to any county of the state under the provisions of chapter 550, (the same being racing commission funds), shall be paid to the treasurer of the state, as ex officio treasurer of the teachers salary fund, to the credit of the board of public instruction of any such county, such monies shall be paid direct to the board of public instruction of such county.

History.—§1, ch. 24144, 1947.

550.14 Use of moneys by counties.—When the moneys mentioned in §550.13 have been transmitted to the county commissioners of the several counties of the state in accordance with the provisions of this chapter, the county commissioners of the several counties may determine whether such moneys, or any part thereof, shall be converted into the county school fund, or to some other lawfully authorized fund, or shall be equally or otherwise apportioned to any two or more of such funds; provided, however, that if the supreme court of this state shall hold the foregoing use of said moneys mentioned in §550.13 to be an illegal use of the same, then said funds so remitted to the several counties of this state shall be held by the respective county commissioners in a fund to be designated special road fund, to be used by and under the direction of the board of county commissioners of each county, who are designated ex officio agencies of the state for the purposes of this chapter, for one or more of the following purposes which are expressly recognized and declared to be proper state objects, and the expenses thereof incurred for a general and state purpose:

(1) For the construction and maintenance of those state roads, or either of them within such county as have not been taken over for maintenance by the state road department of this state; or

(2) The whole or any part of the moneys so remitted may, by resolution of the board of county commissioners of each county, be paid over by the county commissioners for use by the board of public instruction of such county,

to be used by such board of public instruction in payment of teachers' salaries or in payment of cost of transportation of pupils in the public school system of such county; provided, that in those instances where, by virtue of any local or special law, now in force or hereafter enacted, any portion of such funds is earmarked for use by the board of public instruction of any county of this state, the county commissioners shall, upon receipt of such funds, remit the proportionate allocated part thereof to such board of public instruction, and the money so remitted shall be used for the exclusive purposes aforesaid; provided, further, in those instances where any other method of remittance is prescribed by local or special law then such method shall be followed.

This section shall be liberally construed.

550.15 Bond required of licensees to conduct race meeting.—Every person to whom a license may be granted under this chapter, at his own cost and expense, shall before any such license is delivered, give a bond in the penal sum of fifty thousand dollars payable to the governor of the state and his successors in office, with a surety or sureties to be approved by the commission and the state treasurer, conditioned to faithfully make the payments to the state treasurer in his capacity as treasurer of the commission and to keep his books and records and make reports as provided, and to conduct his racing in conformity with this chapter.

History.—§14, ch. 14832, 1931; CGL 1936 Supp. 4151(73).

550.16 Pari-mutuel pool authorized within track enclosure; commissions, breaks, etc.—

(1) The sale of tickets or other evidences showing an interest in or a contribution to a pari-mutuel pool is hereby permitted within the enclosure of any horse race track and dog race track licensed and conducted under this law, but not elsewhere in this state except as is provided in chapter 551. The sale and purchase of tickets or other evidences showing an interest in or a contribution to pari-mutuel pools in this state shall be under the supervision of the state racing commission and shall be done subject to such regulations as the state racing commission shall from time to time prescribe.

(2) The commission on a pari-mutuel pool on every horse race which may be withheld by the licensee and the state from the total contributions made to such pari-mutuel pool shall in no event exceed fifteen per cent of the amount contributed thereto, and the commission on a pari-mutuel pool on every dog race which may be withheld by the licensee and the state from the total contributions made to such pari-mutuel pool shall in no event exceed seven per cent of the amounts contributed thereto, which said maximum commissions shall include the three per cent tax heretofore provided by §550.09, together with the additional tax of five per cent of the total contributions

to all pari-mutuel pools conducted on every horse race and the additional tax of four per cent of the total contributions to all pari-mutuel pools conducted on every dog race, hereinafter provided for old age assistance and other purposes.

(3) After deducting a commission or license and the "breaks" (hereinafter defined), a pari-mutuel pool shall be redistributed to the contributors.

(4) Redistribution of funds otherwise distributable to the contributors of a pari-mutuel pool shall be a sum equal to the next lowest multiple of ten on horse and dog races.

(5) No distribution of a pari-mutuel pool shall be made of the odd cents of any sum otherwise distributable, which odd cents shall be known as the "breaks."

(6) The "breaks" shall be known as the difference between the amount contributed to a pari-mutuel pool and the total of the commissions and sums redistributed to the contributors.

(7) No person or corporation shall directly or indirectly purchase pari-mutuel tickets or participate in the purchase of any part of a pari-mutuel pool for another for hire or for any gratuity and no person shall purchase any part of a pari-mutuel pool through another, wherein he gives or pays directly or indirectly such other person anything of value, and any person violating this section shall be deemed guilty of a misdemeanor.

(8) In addition to the three per cent pari-mutuel tax provided for by §550.09, and any and all other taxes otherwise levied and assessed, every person, association or corporation conducting a horse race meet shall pay a tax equal to five per cent, and every person, association or corporation conducting a dog race meet shall pay a tax equal to four per cent of the total contributions to all pari-mutuel pools there conducted and made on any and every horse race and dog race for operation of such horse and dog tracks, which additional tax of five per cent on horse race pari-mutuel pools and one-half of the additional four per cent tax on dog race pari-mutuel pools shall be known as the "old age assistance tax" and shall be paid to the state treasurer for deposit in the general revenue fund. The remaining one-half of the additional four per cent tax on dog race pari-mutuel pools shall be paid to the state treasurer as ex officio treasurer of the state racing commission and shall be distributed among the sixty-seven counties of the state. Such money shall be divided into as many equal parts as there are counties in the state and there shall be remitted one part to each county. Distribution among the several counties shall be as provided by §550.13.

(9) Provided that in the event the tax equal to three per cent of the total contributions to all pari-mutuel pools conducted or made on any and every horse race track, plus the three thousand dollars license fee from horse (running) tracks having an average daily pari-mutuel pool of less than one hundred seventy-five thousand

dollars per day for the preceding season, and on any and every dog race track as provided by §550.09, plus the three hundred dollars license fee from dog tracks having an average daily pari-mutuel pool of less than twenty thousand dollars per day for the preceding racing season, distributed equally to the sixty-seven counties of this state, produces during any full and complete racing season authorized by law, less than the total amount from said source distributed to the said counties during the racing season 1940-1941, such deficiency and no more shall be paid into said fund created by the said three per cent tax and license fee as aforesaid for distribution to the sixty-seven counties of this state according to law, from and out of the additional tax equal in the amount of five per cent on all pari-mutuel pools at horse race meets and the one thousand dollars license fee for old age assistance from horse (running) tracks having an average daily pari-mutuel pool of less than one hundred seventy-five thousand dollars per day for the preceding season and two per cent on all pari-mutuel pools at dog race meets, and the two hundred dollars license fee for old age assistance from dog racing tracks having an average daily pari-mutuel pool of less than twenty thousand dollars per day for the preceding racing season, as herein levied and designated for old age assistance, and the balance of said additional tax of five per cent and the one thousand dollars license fee for old age assistance from horse (running) tracks having an average daily pari-mutuel pool of less than one hundred seventy-five thousand dollars per day for the preceding season, on horse race tracks and two per cent on dog race tracks having an average daily pari-mutuel pool of less than twenty thousand dollars per day for the preceding racing season, shall be paid into said general revenue fund as herein provided, and for the purposes set forth.

(10) The taxes levied by subsection (8) of this section to be known as the old age assistance tax shall in no wise affect or be construed to repeal or affect any other tax on horse or dog race tracks or races or the apportionment thereof in equal portions to each county of the state.

(11) The taxes levied by subsection (8) of this section shall be paid at the times and places as provided by law for the payment of other taxes based on a per cent of pari-mutuel pools.

(12) Any willful or wanton failure by any licensee to make payment into the state treasury as required by law shall constitute sufficient ground for the state racing commission to revoke the permit of such licensee and no further license or permit shall be issued to such former licensee.

Up to \$175,000	\$ 4,000 per day
Over \$175,000 but not exceeding \$200,000	\$ 5,000 per day

Over \$375,000 but less than \$400,000	\$21,000 per day

three-fourths of which daily license fee shall be distributed equally to the sixty-seven counties of this state and the remaining one-fourth to the state's general revenue fund.

550.162 Dog racing; daily operational cost allowance.—

(1) It is the finding of the legislature of Florida that the operation of a dog track and legalized pari-mutuel betting at dog tracks in this state is a privilege and is an operation which requires strict supervision and regulation in the best interests of the state; that pari-mutuel wagering at dog tracks in this state is a substantial business and taxes derived therefrom constitute part of the tax structures of the state and counties. It is the further finding of the legislature that the operators of dog tracks should pay their fair share of taxes to the state, and at the same time this substantial business interest should not be taxed to an extent as to cause a track which is operated under sound business principles to be forced out of business.

It is the further finding of the legislature that all dog race tracks have in common a "daily initial expense of operation." This "daily initial expense of operation" is created by certain factors which are common to all dog tracks and which remain relatively uniform and constant among the several dog tracks throughout a race meeting.

(2) Each licensed dog track holding a permit to conduct racing in this state under the authority of chapter 550, and the state by and through the state racing commission, is authorized to withhold from the total maximum commission of seventeen per cent that may be withheld from the total amounts contributed to pari-mutuel pool on dog races the sum of one hundred seventy dollars per race, and not to exceed ninety days during any race meeting, which said amounts shall be credited to the dog track operators as a daily "initial expense of operation." No tax shall be levied or collected on said one hundred seventy dollars so withheld and all taxes imposed by §§550.09 and 550.16, or by any other act of the legislature shall be imposed upon the seventeen per cent of total amounts contributed to any pari-mutuel pool at dog tracks less the above described one hundred seventy dollars "initial expense of operation" amount per race. The daily "initial expense of operation" allowance shall be deducted from the seventeen per cent commission prior to any tax being imposed on said pool and said allowance shall be credited to the track operator.

(3) All allowances granted by this section to the track operator known as the "initial expense of operation" allowance shall appear on the report tendered by the licensee as provided by §550.09, and shall be shown on the tax report submitted by the licensee every seventh day of the race meeting.

(4) Nothing in this section shall be construed so as to allow any dog track in this state an "initial expense of operation" allowance as provided herein for any day on which races may be held for the benefit of educational scholarships or charitable organizations.

History.—Comp. §§1-4, ch. 29693, 1955.

550.163 Dog racing; daily license fee.—

(1) Any duly licensed dog race track, having a daily pari-mutuel pool of less than twenty-five thousand dollars per day in a racing season, shall, in lieu of the payment of the tax imposed in §§550.09 and 550.16, or any other law imposing a tax upon the seventeen per cent of the total pari-mutuel pool at dog race tracks, be permitted to operate the sale of pari-mutuel pools on the basis of a fixed daily license fee which fee shall be determined from the following schedule:

Up to and including \$20,000	\$150 per day
Over \$20,000 per day and not exceeding \$21,000 per day	\$200 per day
Over \$21,000 per day and not exceeding \$22,000 per day	\$250 per day
Over \$22,000 per day and not exceeding \$23,000 per day	\$300 per day
Over \$23,000 per day and not exceeding \$24,000 per day	\$350 per day
Over \$24,000 per day and not exceeding \$25,000 per day	\$400 per day

(2) Whenever any dog race track exceeds the sum of twenty-five thousand dollars per day in its pari-mutuel pool totals, this section shall not apply and such dog race track shall

be taxed as provided by other general laws, and at such time such dog track shall receive any "daily initial cost of operation" credit allowed by general law.

(3) Three-fifths of such daily license fee shall be distributed equally to the sixty-seven counties of the state and the remaining two-fifths to the state's general revenue fund.

550.164 Escheat to state of abandoned interest in or contribution to pari-mutuel pools.—

(1) It is hereby declared to be the public policy of the state, while protecting the interest of the owners thereof, to possess all unclaimed and abandoned interest in or contribution to any pari-mutuel pool conducted in this state under the provisions of chapters 550 and 551, for the benefit of all the people of the state, and this law shall be liberally construed to accomplish such purpose.

(2) All money or other property represented by any unclaimed, uncashed, or abandoned pari-mutuel ticket which has remained in the custody of or under the control of any licensee authorized to conduct pari-mutuel pools in this state for a period of one year from the date said pari-mutuel ticket was issued, when the rightful owner or owners thereof, have made no claim or demand for such money or other property within the aforesaid period of time, is hereby declared to have escheated to or to escheat to, and to have become the property of the state.

(3) All money or other property which shall have escheated to and become the property of the state as provided herein, and which is held by such licensees, authorized to conduct pari-mutuel pools in this state, shall be paid by such licensees to the state treasurer annually within sixty days after the close of the race meeting of the said licensee. Such moneys so paid by said licensees to the state treasurer shall be deposited in the state school trust fund to be used for the support and maintenance of public free schools as required by Art. XII, Sec. 4, state constitution.

550.17 Proof of referendum required.—

The commission shall not issue any license under this chapter except upon proof in such form as the commission may prescribe that a referendum election has been held in the county where the applicant for such license desires to conduct a race meeting and that a majority of the electors voting on that question in such election voted in favor of licensing such racing.

History.—§17, ch. 14832, 1931; CGL 1936 Supp. 4151(75).

550.18 Petition for election to revoke license.—Upon petition of twenty per cent of the qualified electors of any county wherein any racing has been licensed and conducted under this chapter, the county commissioners of such county shall provide for the submission to the electors of such county at the then next succeeding general election the question

of whether any permit or permits theretofore granted shall be continued or revoked, and if a majority of the electors voting on such question in such election shall vote to cancel or recall the permit theretofore given, then the racing commission shall not thereafter grant any license on the permit so recalled. Every signature upon every such recall petition shall be signed in the presence of the clerk of the board of county commissioners at the office of the clerk of the circuit court of the county and the petitioner shall present at the time of such signing his registration receipt showing his qualification as an elector of the county at the time of the signing of the petition. Not more than one permit shall be included in any one petition and in all elections wherein the recall of more than one permit shall be voted on, the voters shall be given an opportunity to vote for or against the recall of each permit separately. Nothing in this chapter shall be construed to prevent the holding of later referendum or recall elections.

550.181 Certain persons prohibited from holding racing permits; suspension or revocation of permits.—

(1) On and after the first day of July, 1952, no person who shall have been convicted of a felony in the state, or under the laws of any other state, government or country of an offense which would be a felony if committed within this state, or who shall have been convicted of bookmaking in the state or elsewhere, or who is commonly known as a bookmaker and bears the general reputation of being a bookmaker, or who knowingly associates regularly with persons commonly known as bookmakers or criminals, shall hold any horse or dog racing permit or jai alai fronton permit in the state, or be a member of any association which holds such permit, or be an officer or director of any corporation which holds such a permit, or be an employee of the holder of any such permit in any capacity connected to any extent with the racing business or jai alai fronton business in the state.

(2) In order to better effectuate this section, and to assist the state racing commission in checking up on the observance of this section, every person holding a horse or dog racing permit or jai alai fronton permit in this state, and every person who is a member of an association holding such a permit, and every person who is an officer or director of a corporation which holds such a permit, and every employee of the holder of any such permit in any capacity connected to any extent with the racing business or jai alai fronton business in this state, shall, at such times as shall be fixed by rule promulgated by the state racing commission, furnish the said commission, for its files, his fingerprints and photograph taken under the supervision and direction of the said commission.

(3) The state racing commission shall

either suspend or revoke a racing permit or jai alai fronton permit upon proof, after due notice and hearing, that such permit is held by a person in violation of subsection (1) of this section, or that it is held by an association or corporation and that any person is a member, officer, or director thereof in violation of said subsection (1), or that any person is an employee of the permit holder in violation of said subsection (1); except, however, that no such permit shall be either suspended or revoked because of the employment of a person in violation of said subsection (1) if such employment is terminated and sufficient evidence of such termination furnished said commission within three days after notice is given to the permit holder of the commission's finding, after a hearing held as hereinabove provided for, that such person is an employee of the permit holder in violation of said subsection (1); and except, further, that no such permit held by a corporation shall be either suspended or revoked because a person is an officer or director of such corporation in violation of said subsection (1), if such person ceases to be such officer or director and the commission is furnished sufficient evidence that such is the case, within fifteen days after notice is given to the permit holder of the commission's finding, after a hearing held as hereinabove provided for, that such person is an officer or director in violation of said subsection (1).

550.22 Moneys to be held by state treasurer if distribution held illegal.—In the event the supreme court of the state should hold invalid the apportionment and distribution as now or hereafter provided of any part or all of the excise or license taxes now collected by the state incident to the operation of any race track or of the game of jai alai or pelota, or pari-mutuel pools conducted in conjunction there-

with, then all such funds levied and collected by the state from the operation thereof shall be held in a separate fund by the state treasurer of this state, such fund to be known and designated as the special state racing commission fund, until such time as the legislature of this state shall authorize the distribution thereof. The fund so impounded shall not be subject to transfer, temporarily or permanently, to any other fund.

History.—§15, ch. 14832, 1931; CGL 1936 Supp. 8135(6).
cf.—§775.07, Punishment for misdemeanor.

550.26 Tax on breaks; distribution.—

(1) A tax is hereby levied upon every pari-mutuel pool conducted by horse tracks and dog tracks within the state authorized by law so to do equal to the "breaks," which said "breaks" shall be the difference between (a) the amount contributed to a pool and (b) the total of the commissions and the sums actually redistributed to the contributors, which tax shall be known as the "breaks tax."

(2) The tax hereby levied shall be paid at the times and places as provided by law for the payment of other taxes based on a per cent of the pari-mutuel pool.

(3) It shall be the duty of every such horse race track licensee and of every such dog race track licensee to pay unto the state treasurer the tax hereby levied and said licensee shall be liable therefor.

(4) Fifty per cent of the breaks tax hereby levied on pari-mutuel pools conducted by horse tracks, and three fourths of the breaks tax hereby levied on pari-mutuel pools conducted by dog tracks, shall be deposited by the state treasurer into, and it shall become and be made a part of, the general revenue fund. The remaining fifty per cent of the breaks tax levied on pari-mutuel pools conducted by horse tracks shall be distributed as provided for in subsection (5). The remaining one fourth of the breaks tax levied on pari-mutuel pools conducted by dog tracks shall be divided into as many equal parts as there are counties in the state and there shall be remitted one part to each county. This distribution to the counties shall be made at the times and in the manner provided by §550.13.

(5) (a) It is the finding of the legislature that the revenues derived from pari-mutuel wagering in this state are a vital and integral part of the tax structure of the state and of the various counties. It is the further finding of the legislature that the breeding of thoroughbred horses has become a sizable industry in this state which contributes a great deal to the revenue of this state and which industry should be encouraged in this state. It is the further finding of the legislature that certain states, among them California, New York and Maryland, have horse racing with pari-mutuel wagering during times which directly conflict with the times horse racing is run in this state and which are in direct competition with this state. It is the further finding of the legislature that horse tracks in the state of Maryland, by virtue of recent favorable legislation in such state and through various other means, are able to offer certain minimum purses or prizes in excess of the minimum offered generally at tracks in this state and that such tracks in Maryland have a purse or prize structure generally that gives such state a competitive advantage over tracks located in this state. It is the further finding of the legislature that as a result of the purse structure in Maryland many owners of thoroughbred horses who would otherwise race in Florida no longer do so and that resultantly the quality of the breed running in this state has suffered.

(b) It is the further finding of the legislature that when well bred horses are racing, horse tracks are likely to attract more of the wagering public with a concomitant increase in the amount wagered, resulting in increased revenue to this state. It is the further finding of the legislature that the revenue to the state realized through pari-mutuel wagering will be seriously impaired unless the purse or prize structure at tracks in this state is altered so as to provide minimum purses or prizes competitive with those of other states and to increase other purses or prizes and thus induce the own-

ers of the best horses in the country to race them on tracks in Florida. It is therefore declared to be the policy in this state that the present danger to the growth and welfare of horse racing and to the tax structure of the state and counties be lessened by utilizing fifty per cent of the breaks tax levied on pari-mutuel pools conducted by horse tracks as a source of funds for augmenting the purse and prize structure at horse tracks in this state.

(c) Said fifty per cent of the breaks tax shall be paid as provided for in §550.26 (2) and shall be paid into the state treasury to be kept in a special fund to be designated as the Florida horse racing promotion trust fund, and all moneys in such fund are hereby appropriated to the Florida state racing commission who shall administer such fund and prescribe suitable and reasonable rules and regulations for the administration thereof. The commission shall make an allocation of the moneys in such fund in such equitable manner as the commission may determine, taking into consideration the economic position of the various horse tracks in the state and their ability or inability to compete with tracks in other states because of the existing racing date structure in this state, and any other pertinent and relevant factors.

(d) It is the intention of the legislature that the moneys in said Florida horse racing promotion trust fund be allocated so as to provide for the supplementing and augmenting of the purses or prizes of the current year's overnight races and the current year's stakes races and for no other purposes.

550.27 Employment of residents required.—

(1) The licensees of each race track or fronton now or hereafter operating in this state shall during each racing season employ at least eighty-five percent of their employees from bona fide residents and citizens of Florida and shall pay them at least said percentage of each weekly payroll, excepting jockeys, apprentices, exercise boys, owners, trainers, clockers, jai alai players, player managers and trainers, jai alai basket and ball makers, and all governing and managing officials and heads of departments of such track or fronton.

(2) A person shall have resided and have made his home in Florida for two years continuously last prior to the date of employment by any race track or fronton to be deemed a bona fide resident or citizen under the terms hereof, providing, further, that registration and voting in the primary or general election last prior to such date shall be prima facie evidence of such bona fide residence and citizenship.

(3) It shall be the duty of the Florida state racing commission before issuing any occupational license to any person to take part in or officiate in any way or serve in any capacity or be employed at any race track or jai alai fronton to require and obtain from each applicant for such occupational license, by affidavit and by such other evidence as the commission shall

deem necessary, sufficient and satisfactory proof of such applicant's residence and citizenship as herein defined, and to state upon each such occupational license issued by the commission the residence and citizenship so ascertained.

(4) Whenever it shall be made to appear to the commission that any licensee of any race track or fronton is exceeding the amount of fifteen per cent in employees or amount of payroll as herein provided, the commission shall notify said licensee of such excess, and if same be not corrected before the next payroll the commission shall have the power and it shall be its duty to suspend a sufficient number of occupational licenses issued to employees of said race track or fronton who are not residents and citizens of Florida as herein defined to bring the number of employees and amount of payroll within the limitations herein set forth.

(5) Any person or the licensee of any race track or fronton knowingly and wilfully violating the provisions of this chapter shall be guilty of a misdemeanor and upon conviction thereof shall be punished by imprisonment not exceeding six months or by fine not exceeding five hundred dollars or both such fine and imprisonment.

History.—§§1-5, ch. 20740, 1941.

(2) In prosecutions under the preceding section, proof that the supplies or services had been furnished and not paid for, and that the owner, trainer or custodian of said race horses or greyhound racing dogs, was removing or attempting to remove any of said race horses or greyhound racing dogs, out of the state and beyond the jurisdiction of the courts of this state, shall be prima facie evidence of the fraudulent intent mentioned in the preceding section.

History.—§§1, 2, ch. 20882, 1941.

550.29 Reallocation of racing dates.—The state racing commission shall have the right to reallocate or reassign, to any other licensed horse racing track, any racing dates previously allocated or assigned to a licensed horse racing track, when said racing dates have been vacated, abandoned, or will not be used, for any reason whatsoever, provided the aggregate total number of horse racing days permitted hereunder shall not exceed one hundred days for any one horse racing licensee.

History.—§1, ch. 20859, 1941.

550.30 Race track funds guaranteed from general revenue fund.—

(1) There is hereby appropriated from any

funds in the general revenue fund of the state derived from taxes which may be legally disbursed for the purposes herein set forth, or from proceeds of estate taxes and taxes upon intangible personal property, the sum of two million two hundred and eleven thousand dollars per annum during the period in which this section shall be in force and effect, or so much thereof as shall be necessary to carry into effect the purpose of this section.

(2) In the event that the share of each county of the state in the distribution of funds received from the state racing commission shall be less than thirty-three thousand dollars for any year during the period in which this section shall be in force and effect the comptroller shall draw warrants payable respectively to the board of county commissioners, the county board of public instruction of each county of the state, or to such other authority as is authorized by law to receive the same, as now or hereafter provided by law for the apportionment of racing commission funds, for such amounts as added to the amount distributed to each county from funds received from the state racing commission shall cause each county to receive in the aggregate from funds received from the state racing commission and under the provisions of this section, the sum of thirty-three thousand dollars annually, during the period in which this section shall be in force and effect.

(3) When the moneys provided for in subsection (2) hereof have been received by the respective boards or officials authorized by law to receive the same, it shall be the duty of such boards or officials to distribute or use such funds in such manner as will provide that each distributee under the provisions of the general or special law regulating distribution of race track funds in such county will receive the respective amounts contemplated by the provision of the general or special law regulating distribution of race track funds in such county.

(4) This section shall be construed to be cumulative and supplemental to any and all other laws now or hereafter in effect providing for distribution of funds from the state treasury to the several counties of the state; provided, however, that this section shall not be construed as supplemental or cumulative to any other law now in existence or hereafter enacted for the purpose of providing funds to the several counties in replacement of any loss of revenue due to failure of taxes upon racing to yield to each county the sum of thirty-three thousand dollars or more each per year.

History.—Comp. §§1, 2, ch. 25413, 1949.

550.35 Transmission of racing information for illegal gambling purposes.—

(1) It shall be unlawful for any person to transmit or communicate to another or receive or secure by any means whatsoever the results, changing odds, track conditions, jockey changes, or any other information relating to any horse race or dog race from any race track in this state, between the period of time beginning one hour prior to the first race of any day and ending thirty minutes after the posting of the official results of each race as to that particular race, except that the foregoing limitations shall not apply to the results of the last race of each day's meet. Provided, however, that the state racing commission may, by rule, permit the immediate transmission by radio, television, or press wire of any pertinent information concerning not more than two feature races each week; provided, further, that the foregoing limitation of two feature races per week shall not apply to so-called "name stake races" which if broadcast or televised nationally the commission may in its discretion permit.

(2) It shall be unlawful for any person to transmit by any means whatsoever racing information to any other person, or to relay the same to any other person by word of mouth, by signal, or by use of telephone, telegraph, radio, or any other means, when the information is knowingly used or intended to be used for illegal gambling purposes, or in furtherance of such gambling.

(3) This section shall be deemed an exercise of the police power of the state for the protection of the public welfare, health, peace, safety and morals of the people of the state and all of the provisions herein shall be liberally construed for the accomplishment of this purpose.

(4) Any person violating the provisions of this section shall be guilty of a felony and, upon conviction thereof, shall be sentenced to pay the costs of prosecution and a fine of not less than five hundred dollars nor more than five thousand dollars, or undergo imprisonment for a period of not less than one year and one day nor more than five years, or both, in the discretion of the court.

(5) Nothing contained in this section shall be construed as amending or repealing the provisions of any other law or affecting any rule of the Florida railroad and public utilities commission, relating to the regulation of public utilities in the furnishing to others of any communication, wire service, or other similar service or equipment; it is intended that this section shall be supplemental to other laws and a further aid in the elimination of transmission of information for illegal gambling purposes.

550.351 Effect of certain 1957 amendments.—1957 amendments to §§550.02(4), 550.04, 550.06, 550.07 and 550.35(1) shall not be

construed to repeal the provisions of section 550.34.

History.—Comp. §6, ch. 57-180.

550.36 Use of electronic transmitting equipment; permit by commission required.—Any person who has in his possession or control on the premises of any licensed horse or dog race track or jai alai fronton any electronic transmitting equipment or device which is capable of transmitting or communicating any information whatsoever to another person, without the written permission of the Florida state racing commission, shall be guilty of a misdemeanor and shall be punished by fine not exceeding \$500 or by imprisonment in the county jail not exceeding 3 months, or both. This section shall not apply to the possession or control of any telephone, telegraph, radio or television facilities installed by any such licensee with the approval of said commission.

History.—§1, ch. 59-173.

550.37 Operation of certain harness tracks.—

(1) It is the finding of the legislature of the state that the operation of harness tracks and legalized pari-mutuel and mutuel betting at harness tracks in this state will become a substantial business compatible to the best interests of the state, and the taxes derived therefrom will constitute an important and integral part of the tax structure of the state and counties. It is the further finding of the legislature that the operation of harness tracks within the state will establish and encourage an important industry within the state, namely, the acquisition and maintenance of breeding farms for the breeding of standard-bred horses utilized in harness races. It is further the finding of the legislature that harness tracks operating at night within the immediate vicinity of other race tracks will greatly enhance the tax revenue derived by the state and counties from racing and will not endanger the general welfare of the public. It is the further finding of the legislature of the state that this increase in tax revenue is needed by the state and the counties. It is the further finding of the legislature that harness racing is an exhibition sport which will attract a large tourist business to the state and will afford entertainment at night to such tourists during the winter racing season, and many of such tourists who are thus attracted by harness racing do not attend other forms of racing or engage in other forms of pari-mutuel betting. It is the further finding of the legislature that the racing commission should be empowered to consider and grant the application of any dog track, horse track and harness track permittee and licensee to conduct without further elections harness racing with sulky during the winter racing season at a location within any county wherein two or more elections have been held in which a majority of the electors voting in such elections voted in favor of the operation of pari-mutuel pools within the county at horse and dog tracks; provided, the applicant for the two years immediately preceding the presentation thereof to

the racing commission, has had an average daily mutuel pool of less than twenty thousand dollars for a seasonal operation of fifty days or more for each of such years.

(2) **DEFINITIONS.** — Harness racing at harness tracks when used herein shall mean the racing of standard-bred horses in harness with sulky. Horse racing at horse tracks shall mean racing of thoroughbred horses with jockeys.

(3) Any permittee or licensee authorized under the provisions hereof to transfer the location of its permit shall conduct harness racing at night only. A permit so transferred shall apply only to the locations as hereinafter provided. The racing commission shall authorize such permittees and licensees to operate harness racing from 7:00 p.m. until 12:00 midnight. The provisions of chapter 550 which prohibit the location and operation of a licensed harness track permittee and licensee within one hundred air miles of the location of a race track authorized to conduct racing under the provisions of said chapter and which prohibit the racing commission from granting any permit to a harness track at a location in the area in which there are three horse tracks located within one hundred air miles thereof shall not be applicable to a licensed harness track which is required by the terms of this act to race at night.

(4) No permit shall be issued by the state racing commission for the operation of a harness track within seventy-five air miles of a location of a harness track licensed and operating under the provisions of this chapter. All harness tracks licensed under the provisions of chapter 550 shall be granted by the racing commission racing dates during the winter horse racing season of ninety racing days and such permittee and licensee shall be permitted and authorized to race every day except Sunday during said ninety day racing period. Nothing herein contained shall enlarge the number of racing days of any harness track permittee where by statute applicable thereto a lesser number of days has heretofore been fixed.

(5) The owners and operators of a harness track permitted and licensed by the racing commission shall be entitled to the same commission from the pari-mutuel pool as is provided for dog track owners, operators and permittees, and shall pay the same tax as that imposed upon pari-mutuel pools at dog tracks, however, without the benefit of the daily operational cost allowance provided by §550.162 and without the benefit of the fixed daily license fee as provided by §550.163.

(6) All holders of permits and licenses for dog racing and all holders of permits and licenses for horse racing and all holders of permits and licenses for harness racing issued by the Florida state racing commission authorized to operate in the winter horse race season whose average daily pari-mutuel pool (computed by dividing the total pari-mutuel pool for the racing season by the number of actual days raced at said meet, exclusive of charity

days) for each of the two consecutive years next prior to the filing of the application as herein provided, during its racing seasons which shall have been fifty days or more for each year, was less than twenty thousand dollars at the option of each of said permittees and licensees evidenced by its application to the Florida state racing commission for such purpose, shall be issued a license under its permit to operate only harness racing with sulky for a total period of ninety racing days during the winter horse racing season at such location as may be designated by said applicant and hereinafter authorized in subsection (7) within any county in which two or more elections have been held in which a majority of the electors in such elections voted in favor of the operation within said county of pari-mutuel pools at race tracks. Nothing herein contained shall authorize the transfer of a permit to any county in which there is located a horse track licensed by the Florida state racing commission whose average daily pari-mutuel pool (computed by dividing the total pari-mutuel pool for the racing season by the number of actual days raced at said meet, exclusive of charity days) for each of the two consecutive years next prior to the filing of the application as hereinabove provided, during its racing season which shall have been fifty days or more for each year, was less than four hundred thousand dollars.

(7) Such permittee and licensee upon the approval of its application by the racing commission pursuant to the provisions of this act may conduct harness racing at the facilities or plant leased by it from any horse race permittee or licensee in any county within the authorized area designated in this act not more than forty miles from the applicant's designated location, provided the said horse race permittee has a valid permit and license issued to it under the provisions of chapter 550 and said applicant-permittee and licensee may conduct such harness race meetings at said leased premises provided, that said permittee and licensee may thereafter construct its own facilities and its own plant at the location designated in its approved application. Such applicant-permittee and licensee may, pending the construction of its permanent facilities, operate at said leased premises and may thereafter divide its season of racing between its leased location and its permanent location so long as said locations remain within the authorized county or counties as elsewhere herein defined. If said permittee's season of racing is divided as aforesaid, the limitation of seventy-five miles between harness track locations shall not apply. The seventy-five mile limitation between the harness tracks hereinabove provided in regard to other permittees shall be measured from the location designated in said permittee's application to the racing commission.

Nothing herein contained shall authorize the permittee and licensee to operate more than ninety racing days.

Provided no such permit or harness racing

may be moved to or permitted in any county having two or more horse track permits.

(8) The distance provisions contained in §§550.02 and 550.05 shall not be applicable to any harness race permittee who is required by the terms of this act to conduct harness racing at night only, nor shall §550.17 be applicable to any permittee whose permit is transferred under the provisions of this section.

(9) The provisions of chapter 550 as the same pertain to horse racing shall be applicable to harness racing except those provisions which are inconsistent herewith, and where the provisions of chapter 550 are by implication inconsistent with or are, in fact, in conflict with the provisions of this act, then this act shall govern harness race track permittees or licensees, and harness racing.

(10) Each licensed harness track in the state shall be required to schedule an average of one race per racing day in which horses bred in Florida and duly registered as standard-bred harness horses shall have preference as entries over non-Florida-bred horses, and to require all licensed harness tracks to write the conditions for such races in which Florida-bred horses are preferred so as to assure that all Florida-bred horses available for racing at such tracks be given full opportunity to perform in the class races for which they are qualified, said opportunity of performing to be afforded to each class of horses in proportion that the number of horses in this class bears to the total number of Florida-bred horses available; provided that no track shall be required to write conditions for a race to accommodate a class of horses for which a race would otherwise not be scheduled at such track during its meeting.

(11) Where a permit has been transferred from a county under the provisions of this act, no other transfer may be permitted from such county.

History.—§§1, 2, ch. 63-130.

550.38 Horse racing; award to breeder of Florida bred horses.—

(1) Every licensee licensed by the Florida state racing commission, under the laws of this state to conduct a running horse race meeting and where said licensee is permitted to use and operate the pari-mutuel system of wagering, shall, by the acceptance of said license, be deemed to have agreed, as a condition of the grant thereof, that such licensee shall, within thirty days after the expiration of such meeting, pay to the breeder of each Florida bred horse winning an overnight race at such meeting a sum equal to ten per cent over and above the announced gross purse, or one hundred dollars, whichever is greater, and said award so paid shall not in any case be deducted from the amount of the purse, nor shall it be required when the purse includes an award to the breeder equal to or greater than the amount specified and provided further, that any amount so paid as an award shall not be included in

estimating the value of the race to the winner, and there shall be no breeders' awards required in any stake race or races exclusively for Florida breds.

(2) In order for the breeder of a Florida bred to be eligible to demand and receive an award, the thoroughbred horse winning the race must have been registered a Florida bred with the agency designated by the Florida state racing commission as the official Florida bred registry of all Florida bred horses and the jockey

club certificate for the winning horse must show that said winner has been duly registered as a Florida bred, evidenced by the seal and proper serial number of the official Florida bred registry.

(3) If any other law is passed that provides benefits for Florida thoroughbred breeders equal to or greater than those provided in this law, then said law shall supersede this law as long as said law is in effect.

551.01 Operation of frontons for exhibition of jai alai or pelota.—Any person desiring to operate a fronton for the exhibition of the Spanish ball game called jai alai, or pelota, may do so upon compliance with the terms and provisions of this chapter.

History.—§1, ch. 17074, 1935; CGL 1936 Supp. 4151(353).
cf.—§550.27, Employment of residents.

551.02 Frontons defined.—The word "fronton" as used in this chapter, means a building or enclosure in which is provided a playing court with three walls so designed and constructed for the playing of that game of ball as played in Spanish-speaking countries, called jai alai or pelota.

History.—§11, ch. 17074, 1935; CGL 1936 Supp. 4151(354).

551.03 Racing commission to supervise operation.—The operation of all frontons shall be under the supervision of the state racing commission of the state, and subject to the terms, powers, duties and liabilities as set out in chapter 550, except as herein otherwise provided.

History.—§2, ch. 17074, 1935; CGL 1936 Supp. 4151(355).

551.04 Powers and duties of racing commission.—The state racing commission shall carry out the provisions of this chapter, and to that end, such commission may personally, or by agent, supervise and check the making of pari-mutuel pools and wagers and the distribution therefrom, and

(1) Fix and set the dates within which any fronton may be operated; provided, however, that this section shall not be construed as authorizing the commission to fix and set dates for the operation of any fronton in any county where there is not more than one fronton in operation;

(2) Require any applicant for a permit to operate a fronton to file an application setting forth:

(a) The full name of the person, firm, corporation or association, and if a corporation, the name of the state under which it is incorporated, as well as the names of the officers, directors and stockholders of said corporation, and their places of residence, or if an association, the name, nationality, race and residence of the members of the association;

(b) The exact location where it is desired

to operate a fronton exhibiting the Spanish ball game aforesaid;

(c) Whether or not the fronton is owned or leased, and if leased, the name, nationality, residence and address of the owners or lessees, or if the owner or lessee be a corporation, the name and address of the officers, directors and stockholders thereof;

(d) A statement of the assets and liabilities of the person, firm, corporation or association making application for such permit;

(e) Such other information as the commission may require. Such applications shall be duly sworn to.

(3) Make rules and regulations for the holding, conducting and operating of exhibitions of jai alai or pelota, which rules and regulations shall be uniform in their application and effect, and the duty of exercising this control and power is made mandatory upon such commission.

History.—§3, ch. 17074, 1935; CGL 1936 Supp. 4151(356).

551.05 Additional salary of secretary of commission.—As compensation for the additional duties imposed by this chapter the secretary of the state racing commission shall receive the sum of fifty dollars per month in addition to whatever compensation may be allowed him as such secretary by any other laws; and the same is to be paid in like manner as such other compensation is paid. There is appropriated sufficient money out of the funds now or hereafter in the hands of the state treasurer to the credit of the state racing commission to pay such additional compensation.

History.—§3a, ch. 17074, 1935; CGL 1936 Supp. 4151(357).
cf.—§550.03, Compensation of members and employees.

551.06 License fees.—Every person engaged in conducting exhibitions of the Spanish ball game known as jai alai or pelota, under this chapter, shall pay to the treasurer of the state in his capacity as ex officio treasurer of the state racing commission, for the use of the commission, a sum equal to three per cent of the total contributions to all pari-mutuel pools or point wagers won, conducted or made on every Spanish ball game of jai alai or pelota in any fronton operated under the provisions of this chapter. In addition to the aforesaid taxes, each person authorized to con-

duct exhibitions of jai alai or pelota herein, shall pay to the state treasurer fifteen per cent of all moneys received each day from admissions paid by persons attending such exhibitions, or the sum of ten cents on each admission whichever sum is greater; said payments shall be made every seventh day during the season or period of operation of any fronton, and shall be accompanied by report, under oath, showing the total of all contributions, wagers and admissions on the Spanish ball game called jai alai or pelota covered by such report and such other information as the commission may require. If any free passes or complimentary admission cards shall be issued to any guests by any licensee, the licensee of such fronton shall pay to the commission the same upon such complimentary admission cards as if the same were sold at the regular and usual admission rates; but nothing herein shall be construed to prohibit the issuance of tax-free passes to officials and actual employees at such fronton, or engaged in such Spanish ball games; provided, however, that the issuance of all such tax-free passes shall be under the regulations or orders of the state racing commission and a list of all officers, employees and participants shall be filed with the commission.

History.—§4, ch. 17074, 1935; CGL 1936 Supp. 4151(358).

551.07 Tax to be in lieu of all other taxes, except city; occupational license tax.—The tax imposed shall be in lieu of all other license, excise or occupational taxes to the state or any county, city, town or political subdivision thereof, except that when any such fronton for exhibition of jai alai or pelota is being operated in any incorporated city or town, such city or town may assess and collect an additional tax against any person operating said fronton within its corporate limits at a sum not to exceed ten dollars per day for each day that such fronton is actually operated. The same occupational license tax required under §550.10 to be paid by all persons connected with race tracks shall likewise be paid by all persons connected with the operation of any fronton, except disabled ex-service men of any war in which the United States was a participant, as is provided in §550.10.

History.—§5, ch. 17074, 1935; CGL 1936 Supp. 4151(359).
cf.—Ch. 205 License taxes.

551.08 Method of bookkeeping prescribed.—Every person operating a fronton under this chapter shall so keep his books and records as to clearly show the total number of admissions and the total amount of money wagered or contributed to every pari-mutuel pool on each game separately, and the amount of money received daily from admission fees, and within sixty days after the end of the season of each fronton, shall submit to the state racing commission a complete audit of its accounts, certified to by a public accountant qualified to practice in the state, and in addition every person operating a fronton under this chapter shall submit a detailed annual audit to the state racing commission. The state auditor may

audit and check the books and records of any such person, and upon the request of said commission, shall do so.

History.—§6, ch. 17074, 1935; CGL 1936 Supp. 4151(360); §1, ch. 61-475.

cf.—§550.12, As to horse and dog racing.

551.09 Wagers and pari-mutuel pools permitted within enclosure of fronton.—

(1) Within the enclosure of any fronton licensed and conducted under this chapter but not elsewhere, wagering on the respective scores or points of the game of jai alai or pelota and the sale of pari-mutuel pools under such regulations as the state racing commission shall prescribe, are hereby authorized and permitted.

(2) The commission of a licensee on such pari-mutuel pools and wagers shall in no event exceed seventeen per cent of the amounts contributed thereto, and said maximum of seventeen per cent of said amounts shall include the three per cent tax heretofore provided by law, together with the additional tax of two per cent herein-after provided for old age assistance.

(3) After deducting a commission and the "breaks" (hereinafter defined), a pari-mutuel pool shall be redistributed to the contributors.

(4) Redistributions of funds otherwise distributable to the contributors to such pari-mutuel pools shall be a sum equal to the next lowest multiple of ten.

(5) No distribution of a pari-mutuel pool shall be made of the odd cents of any sum otherwise distributable, which odd cents shall be known as the "breaks."

(6) The "breaks" shall be known as the difference between the amount contributed to a pari-mutuel pool and the total of the commission of the licensee and the sums actually redistributed to the contributors.

(7) No person or corporation shall directly or indirectly purchase pari-mutuel tickets or participate in the purchase of any part of a pari-mutuel pool for another for hire or for any gratuity and no person shall purchase any part of a pari-mutuel pool through another, wherein he gives or pays directly or indirectly such other person anything of value, and any person violating this section shall be deemed guilty of a misdemeanor.

(8) In addition to any and all other taxes otherwise levied or assessed, every person, association or corporation conducting a fronton for the exhibition of the Spanish ball game known as jai alai or pelota shall pay to the treasurer of the state for operating said fronton, a tax equal to two per cent of the total contributions to all pari-mutuel pools or point wagers conducted or made on any and every such Spanish ball game of jai alai or pelota in any fronton operated under the provisions of this chapter, which additional two per cent tax shall be deposited in the general revenue fund and when collected shall be known as the "old age assistance tax."

cf.—§550.16, As to horse and dog racing.

551.10 Disposition of funds.—All moneys mentioned in this chapter derived from taxes on admission, wagers and pari-mutuel pools shall be disbursed by the state treasurer pursuant to existing laws relating to the disposition of funds derived from the operation of race tracks, and in the same manner.

History.—§8, ch. 17074, 1935; CGL 1936 Supp. 4151(362).

551.11 Location of frontons.—No permit shall be issued for the operation of any fronton to be constructed or operated within one thousand feet of any existing church or public school, nor shall any such exhibition be held on Sunday.

History.—§9, ch. 17074, 1935; CGL 1936 Supp. 4151(363).

551.12 Elections; applicability of race track law.—No license to construct or operate a fronton for the exhibition of jai alai or pelota shall be issued until and unless the permit issued by the state racing commission has been ratified by the electors of the county involved pursuant to the requirements of §550.06, except this provision shall not apply to frontons which have been issued valid permits and licenses to operate prior to June 30, 1959, and which are now in effect. All other pertinent provisions of chapter 550, dealing with the powers, duties and liabilities of the state racing commission and of the operators of dog racing tracks and dealing with the location thereof and with the issuance and granting of permits and licenses to conduct dog racing and dealing with the petition for the election to revoke licenses not inconsistent with the express provisions of this chapter shall be construed to relate to and govern the state racing commission and the operators of any fronton and the location thereof and the issuance and granting of permits and licenses for the operation of frontons under the provisions of this chapter as fully as if the same were herein expressly set out; provided, however, that in no event shall any jai alai fronton permit or license be issued to conduct jai alai and pari-mutuel pools at a location within fifty miles of another location where pari-mutuel pools are conducted under chapter 550 or 551, said distance to be measured on a straight line, said straight line shall be measured from property line to property line at the points nearest to each other, except this proviso shall not apply to frontons which have been issued valid permits and licenses to operate prior to June 30, 1959, and which are now in effect; provided, further, that if all or any substantial portion of a fronton shall be taken by eminent domain the state racing commission may on application of the holder of the permit and license of such original fronton filed within two years after such taking (and in lieu of the original permit and without requiring the ratification by the electors of the permit and without regard to the foregoing fifty mile limitation) issue a permit and grant licenses to the holder of the permit and license of such

original fronton for the operation of a substitute fronton at any location in the same county within ten miles, as so measured, of the location of the original fronton. Provided, also, that the said commission shall not limit the number of operation days in any twelve-month period for such operators of licensed frontons to less than ninety days during the period extending from and including the first day of December in each year to and including the 10th day of April of the following year. An operation day shall be a continuous period of twenty-four hours starting with the beginning of the first game of a public exhibition of jai alai or pelota, even though such operation day may start during one calendar day and extend past midnight into the following calendar day; provided, however, that no game shall be started later than 12 midnight and before noon on any operation day. No minors except jai alai players, apprentices and ball boys shall be permitted to attend such exhibitions or to be employed in any manner, about the operation of frontons. All laws and parts of laws inconsistent with the express provisions of this chapter are expressly declared not to apply to any person engaged in the operation of a fronton, or making wagers or contributing to pools therein, as authorized and conducted under this chapter.

History.—§10, ch. 17074, 1935; CGL 1936 Supp. 4151(364); am. §1, ch. 22614, 1945; §1, ch. 59-453.

Cf.—§550.20 License issued by county judge.

551.13 Tax on breaks; distribution.

(1) A tax is hereby levied upon every pari-mutuel pool conducted at a fronton for the exhibition of the Spanish ball game known as jai alai or pelota within the state authorized by law so to do, equal to fifty per cent of the "breaks" as defined in subsections (5) and (6), §551.09.

(2) It shall be the duty of every such fronton licensee to pay unto the state treasurer the tax hereby levied and said licensee shall be liable therefor.

(3) When the tax hereby levied is paid into the state treasury it shall become and be made a part of the "old age assistance tax fund" and all such funds on hand in the office of the state treasury in the "old age assistance tax fund" shall stand appropriated and shall be available to meet any contributions on behalf of the United States for the benefit of the citizens or inhabitants of this state when age shall be a basis or cause.

History.—§2, ch. 22817, 1945.

551.14 Payment of taxes; penalties.

(1) The "old age assistance tax" and the "breaks tax" levied shall be paid at the times and places as provided by law for the payment of other taxes based on a per cent of pari-mutuel pools.

(2) Any willful or wanton failure by any licensee to make such payments into the state treasury as required by law shall constitute sufficient ground for the state racing commission to revoke the permit of such licensee and no

further license or permit shall be issued to such former licensee.

History.—§3, ch. 22817, 1945.

551.15 Special allocation of periods of operation for certain frontons.—Where there are two or more jai alai frontons operating under valid outstanding permits, issued by the state racing commission, located within a radius of thirty-five miles of each other, one of such permit holders within said area shall be permitted, at its option, but shall not be required, during the period beginning July 1 and ending the first Monday of September following, both dates inclusive, of any year, to conduct upon dates of its choice not more than fifty days of its aggregate number of operating days allowed by §551.12; provided that where two or more of such permittees apply for operating dates, as herein provided, the state racing commission shall designate the permittee entitled to

conduct such jai alai fronton operation during such fifty day period, and the remaining number of said aggregate days under §551.12, shall be granted to and utilized by such permittee within the period provided in §551.12; provided, that when a fronton permittee elects to receive the benefits of this section and is granted summer operation dates hereunder, such permittee shall not operate jai alai fronton exhibitions more than a total of one hundred days (plus scholarship and charity days) in the twelve months period in which said summer operation hereunder is permitted.

(2) This section shall be cumulative and shall not be construed as repealing any other provisions of law, and shall not be construed as permitting or allowing any permit holder to operate for a period of time in excess of the number of days now provided by law.

Nothing herein shall prohibit such cities

and towns and legislatively created governing, service or sanitary districts from enacting more stringent requirements in regard to plumbing and inspection than are set out in this act.

(4) If the board of county commissioners of any county so desires it may designate a qualified city or governing, service or sanitary district plumbing inspector as its county plumbing inspector.

The said permit shall be issued in triplicate, the original going to the plumbing contractor, one copy to be retained by the issuing officer, who should be the plumbing inspector in the county, and one copy to be filed in the records of the county depository. All such fees shall be paid at the time of the application for a permit to do such work and prior to the installation of any plumbing material, and all such fees collected under this chapter shall be deposited by the plumbing inspector in the county depository and shall be used for the inspection of plumbing and the enforcement of this chapter in such county.

History.—Comp. §2, ch. 29830, 1955.

554.02 Members; number, terms, compensation, etc.—

(1) (a) The inter-American center authority shall consist of eleven members, one of whom shall be the governor of the state, whose tenure as a member of the authority shall run concurrently with his term of office as governor of the state. The other ten members of the authority shall be appointed by the governor to serve for terms of four years or until their respective successors are duly appointed and qualified; provided, however, that the original membership of the authority to be appointed as soon as possible after passage of this law shall be designated by the governor to serve the following terms, two of them for one year, three of them for two years, two of them for three years, and three of them for four years, beginning May 15, 1951, each to hold office for the period designated by the governor.

(b) Whenever the authority shall be indebted to Dade county or the city of Miami on account of any obligation or obligations incurred subsequent to January 1, 1959, the board of county commissioners of Dade county or the commission of the city of Miami, as the case may be, shall, at least thirty days prior to the date of

the expiration of the term of any member of the authority or within ten days after the death, resignation or removal of any member of the authority during the period of such indebtedness, nominate at least three residents of the county or the city for appointment by the governor of one of such nominees as the successor of such member. In the event that the authority shall be indebted both to Dade county and to the city of Miami on account of obligations incurred subsequent to January 1, 1959, the board of county commissioners of Dade county shall, during the period of such indebtedness, make such nominations for the first successor, and thereafter during such period the commission of the city of Miami and said board shall alternate in the nomination of successors as members of the authority. In the event that any successor shall not be appointed by the governor from such nominees as herein provided within ten days after the governor shall have received the nominations for such successor, at least three additional nominations of residents of the county or of the city for such successor shall be made by the county commissioners of Dade county or by the commission of the city of Miami, as the case may be, for appointment by the governor of one of such nominees as such successor, and such nominations shall continue to be made as herein provided until such successor shall be appointed by the governor from such nominees. Subject to and in accordance with the foregoing provisions of this paragraph, so long as the authority shall be so indebted to Dade county three members of the authority shall be appointed by the governor from nominations made by the board of county commissioners of Dade county, so that during the period of any such indebtedness, to the extent permitted by and

subject to said provisions, three members of the authority at any one time in office, but not more than three, shall be members appointed by the governor from such nominations. Subject to and in accordance with the foregoing provisions of this paragraph, so long as the authority shall be so indebted to the city of Miami three members of the authority shall be appointed by the governor from nominations made by the commission of the city of Miami, so that during the period of any such indebtedness, to the extent permitted by and subject to said provisions, three members of the authority at any one time in office, but not more than three, shall be members appointed by the governor from such nominations.

(c) Subject to and in accordance with the provisions of paragraph (b) the nominees of the commission of the city of Miami may include members of the commission of the city of Miami and any such commissioners, if nominated and appointed by the governor, are hereby authorized to serve as members of the authority.

Any member of the authority may be suspended by the governor for cause as provided in the constitution of the state and a successor appointed to fill the unexpired portion of the normal term of office of any member thus suspended.

History.—§2, ch. 26614, 1951; (1) §1, ch. 59-378; (2) §19, ch. 63-400.

The authority shall elect from among its members a standing chairman, who shall preside in the absence of the governor, a secretary and a treasurer who may or may not be members of the authority, and such other officers as the authority may deem necessary or expedient in the performance of its functions, whether or not they be members. The same person may serve both as secretary and treasurer, if thus designated. The authority may delegate to any of its members, officers, agents or employees such powers and duties as it may deem proper and shall establish by-laws and such rules of conduct and procedure as it may deem necessary to govern its own functioning. A majority of the members of the authority shall constitute a quorum. No vacancy in the membership shall impair the right of a quorum to exercise all of the powers, functions and duties of the authority.

(1) To fix and collect charges for admission to the inter-American cultural and trade center mentioned in said chapter 554, and each or any part thereof, and for the privilege of entering or staying in any exhibition, place of amusement or other facility within the boundaries of the center, which power shall not be affected by the construction, reconstruction, improvement, repair or maintenance by the state road department or any other agency or political subdivision of the state of any roads within or approaching the center;

(2) To enter into contracts and leases with any department or agency of any other state or municipality or political subdivision thereof with respect to the establishment, construction, maintenance or operation of any buildings or structures within the center;

History.—Comp. §1, ch. 29830, 1955.

554.072 The Graves tract; power to acquire.—

(1) The authority shall have power to acquire by grant or purchase from the city of Miami or any other municipality, or from any county, state agency, corporation for profit, nonprofit corporation or any person, any property, real or personal (including those properties in Dade county, known as "the Graves tract"), and to improve, operate and maintain any such property, and any such municipality, county or state agency owning any such property is hereby authorized to grant, convey or sell such property to the authority without any limitation or restriction as to the use or disposition thereof by the authority and without any limitation or restriction as to consideration or terms or conditions of any sale thereof.

(2) Notwithstanding the provisions of or the limitations or restrictions contained in ch. 30990, special acts of 1955, or any other law, general or special, the authority shall have power to grant, convey, sell, lease, trade, exchange, mortgage, encumber in any manner or otherwise dispose of any such property on such terms and conditions and for such prices or consideration as it shall deem proper and for the best interests of the authority.

(3) No mortgage or encumbrance of any such property by the authority shall be deemed to be a debt of this state or of any municipality or county therein or a pledge of the faith and credit of the state or of any such municipality or county, but any bonds secured by such mortgage or encumbrance shall be payable solely from the funds designated therefor and/or from the security therefor, including any property so mortgaged or encumbered.

(4) It is hereby determined and declared that the powers herein conferred and the exercise of any such powers are for a public purpose.

History.—Comp. §§2-5, ch. 31415, 1956.

554.08 Issuance of revenue bonds.—

(1) The authority shall have power and is hereby authorized at one time or from time to time to provide by resolution for the issuance of negotiable revenue bonds of the authority for the purpose of paying all or any part of the cost, as hereinabove set forth, of establishing, maintaining and operating an inter-American cultural and trade center. The principal and interest of such bonds shall be payable solely from the special fund or funds herein authorized to be provided for such payment. The bonds of each issue shall bear such date or dates and interest at such a rate or rates, not exceeding six per cent per annum, payable as provided by contract, and shall ma-

ture at such time or times not exceeding forty years from the date or dates thereof, and be payable in such medium or media of payment as to both principal and interest as may be determined by the authority, and may be made redeemable before maturity at the option of the authority at such price or prices and under such terms and conditions as may be fixed by the authority in the resolution providing for the issuance of the bonds. The authority shall determine the forms and denominations of the bonds, including any interest coupons attached thereto, and their manner of execution, and the place or places of payment of principal and interest thereof, which may be at any bank or trust company within or without the state. In case any officer whose signature shall appear on any bonds or coupons shall cease to be such officer before the delivery of such bonds, such signature shall nevertheless be valid and sufficient for all purposes the same as though he had remained in office until such delivery. All revenue bonds issued under the provisions of this chapter shall have and are hereby declared to have all the qualities and incidents of negotiable instruments under the negotiable instruments laws of the state. The bonds may be issued in coupon or in registered form, or both, as the authority may determine, and provisions may be made for the registration of any coupon bond as to principal alone and also as to both principal and interest, and for the reconversion of bonds registered as to both principal and interest into coupon bonds. The authority may sell such bonds in such manner, either at public or private sale, and for such price as it may determine to be in the best interest of the authority, but no such sale shall be made at a price so low as to result in the payment of interest on the money received therefor at more than six per cent per annum, computed with relation to the absolute maturity of the bonds in accordance with standard tables of bond values, excluding, however, from such computation, the amount of any premium to be paid on redemption of any bonds prior to maturity. Prior to the preparation of definitive bonds, the authority may, under like restrictions, issue interim receipts, interim certificates or temporary bonds, with or without coupons, exchangeable for definitive bonds upon the issuance of the latter. The authority may also provide for the replacement of any bond which shall become mutilated or be destroyed or lost.

(2) This chapter shall be complete authority for the issuance of the bonds hereby authorized. Any restrictions, limitations or regulations relative to the issuance of such bonds which may be contained in any other act shall not apply to the bonds issued under this chapter. Such bonds may be issued without any other proceedings, the happening of any event or the existence of anything other than those proceedings, conditions and things which are specified or required by this chapter. Any resolution providing for the issu-

ance of revenue bonds under the provisions of this chapter shall become effective immediately upon its passage and need not be published or posted, and any such resolution may be passed at any regular, special or adjourned meeting of the authority by a majority vote of the entire membership of the authority.

(3) Any resolution providing for the issuance of bonds and any trust indenture hereinafter or hereinafter mentioned may also contain such limitations upon the issuance of additional bonds as the authority may deem proper, and such additional bonds shall be issued under such restrictions and limitations as may be prescribed by such resolution or by such trust indenture. All monies received from any bonds issued under the provisions of this chapter shall be applied solely to the purposes for which the bonds shall have been authorized or to the sinking fund or funds created for the payment of such bonds. There shall be and hereby is created and granted a lien upon such monies until so applied in favor of the holders of such bonds or in favor of the designated trustees for the benefit of the holders thereof.

History.—Comp. §8, ch. 26614, 1951.

554.09 Bonds not to be debt of nor pledge credit of state, counties or municipalities.—Bonds issued under the provisions of this chapter shall not be deemed to be a debt of this state or of any municipality or county therein or a pledge of the faith and credit of the state or of any such municipality or county, but such bonds shall be payable solely from the funds designated therefor, and/or from such other security therefor as may lawfully be provided. All such bonds shall contain a statement on their face to the effect that there is no obligation to pay the same or the interest thereon except from revenues or from the proceeds of such other property as may be lawfully pledged to secure the bonds, or both, as the case may be, and that there are not pledged for the payment of the principal or interest of such bonds the faith and credit of the state or of any municipality or county in the state. No holder of any of the bonds of the authority, regardless of the character of the security pledged for their payment, shall ever have the right to compel any exercise of the taxing power on the part of the authority or of any municipality or county or of any other agency possessing the taxing power, to pay any such bonds or the interest thereon, nor to enforce payment thereof against any property of the authority or of any municipality or county in the state, except to the extent that such bonds or certain issues thereof, may be lawfully and specifically secured by mortgage lien upon property owned by the authority as hereinafter set out. To the full extent any state agency may now or hereafter lawfully encumber its property by mortgage as security for borrowed money,

without thereby being deemed to have pledged the faith or credit of the state or of any county, municipality or other subdivision thereof, this authority is hereby empowered to encumber its property by mortgage for the purposes expressed in this chapter.

History.—Comp. §9, ch. 26614, 1951.

554.10 Bonds; pledge of security for.—

Within the powers granted in §554.09, the authority may further secure its revenue bonds by a mortgage or mortgages upon any of its property, or by a trust indenture by and between the authority and a corporate trustee, which corporate trustee may be any trust company or bank having the powers of a trust company within or outside of this state. Such mortgage or trust indenture may pledge or assign all or any part of the revenues and earnings to be received in connection with the operation of the inter-American cultural and trade center, and may in addition, or in the alternative, encumber and create a lien upon any or all of the real or personal property of the authority, to secure the payment thereof. The resolution providing for the issuance of such bonds, the mortgage itself, or the trust indenture may contain such provisions for protecting and enforcing the rights and remedies of the bond holders as may be reasonable, proper and not in violation of law, including covenants setting forth the duties of the authority in relation to the construction, acquisition, improvement, maintenance, operation, repair and insurance of the trade center properties acquired, or to be acquired, and the custody, safeguarding and application of all moneys, and may also provide that such center or any part thereof shall be constructed and paid for under the supervision and approval of consulting engineers employed or designated by the authority and satisfactory to the original purchasers of the bonds issued therefor, and may also require that security given by contractors and by depositaries of the proceeds of the bonds or revenues or other moneys pertaining thereto be satisfactory to such purchasers. It shall be lawful for any bank or trust company incorporated under the laws of this state to act as such depositary and to furnish such indemnifying bonds or to pledge such securities as may be required by the authority. Such trust indenture may set forth the rights and remedies of the bondholders and of the trustee, and may restrict the individual right of action of bondholders as is customary in trust indentures securing bonds and debentures of state agencies or private corporations. In addition to the foregoing, such trust indentures may contain such other provisions as the authority may deem reasonable and proper for the security of the bondholders. All expenses incurred in carrying out the provisions of such trust indenture may be treated as a part of the cost of establishing, maintaining, or operating the center or as a part of the cost of properties of the authority.

History.—Comp. §11, ch. 26614, 1951.

554.101 Bonds of authority approved securities for investment of public funds.—Bonds issued by the authority under the provisions of this chapter are hereby made securities in which all public officers and public bodies of the state, counties, other political subdivisions, cities or towns, all banks, bankers, savings banks, trust companies, savings and loan associations, investment companies and other persons carrying on a banking business, all insurance companies, insurance associations, and other persons carrying on an insurance business, and all administrators, executors, guardians, trustees and other fiduciaries may properly and legally invest any funds, including capital belonging to them or within their control.

History.—Comp. §5, ch. 29830, 1955.

554.102 Tax exemption.—The creation of the authority and the carrying out of its purposes is in all respects for the benefit of the people of this state and is a public purpose, and as the authority will be performing an essential governmental function in the exercise of the powers conferred upon it by law, any and all bonds issued by the authority, their transfer and the income therefrom (including any profit made on the sale thereof) shall at all times be free from taxation within the state, and said authority shall be exempted from any and all admissions and other excise taxes heretofore or hereafter levied or pursuant to authority granted by the state.

History.—Comp. §4, ch. 29830, 1955.

554.11 Trust funds.—To the extent provided in any trust indenture securing bonds or other obligations issued or incurred by the authority all moneys, or any portions thereof specified in the indenture, received pursuant to the authority of this chapter, whether as proceeds from the sale of bonds, as grants or other contributions, or as revenues and earnings, shall be deemed to be trust funds, and shall be held and applied as provided in the indenture and in this chapter. The authority shall, in the resolution or resolutions providing for the issuance of revenue bonds, or in the trust indenture or indentures accompanying such bond issues, provide for the payment of the proceeds of the sale of such bonds, and of the earnings and revenues pledged for their repayment, to an officer or officers who, or to an agency, bank or trust company which, shall act as trustees of such funds, and the designated trustees shall hold and apply the same for the purposes hereof, subject to the provisions of this chapter and of the resolutions and trust indentures governing the terms of said bond issues; provided that to the extent that such funds so held by the trustee or trustees are not derived from any form of taxation or are not the product of legislative appropriation, they may be applied and expended by the trustee or trustees in any manner permitted by the resolution and trust indenture securing said bonds, notwithstanding any statutory provision or administrative regulation limiting allowances, compensation or oth-

er expenditures paid by tax-supported state agencies.

History.—§10, ch. 26614, 1951; §1, ch. 63-193.

554.12 Fixing and revising charges for admissions, concessions, facilities, etc.; disposition.—

(1) The authority shall fix, and revise from time to time as may be necessary any and all rates and other charges for admissions, displays, concessions, services and facilities. All such rates and other charges shall be so fixed and adjusted as to provide funds in such order of preference as the authority may determine, sufficient to pay (a) the cost of maintaining, repairing and operating the trade and cultural center, within the absolute discretion of the authority, for extraordinary depreciation, repairs, insurance, replacement and expansion of building, facilities and equipment, and other reserves required by bond resolutions or trust indentures; and (b) the principal of and the interest on the revenue bonds issued by the authority under the provisions of this chapter, as the same shall become due, and any premium required for the redemption of such bonds before maturity, and all sinking fund and other requirements provided by the resolutions authorizing the issuance of such bonds or by the trust indentures.

(2) Such rates or other charges shall not be subject to supervision or regulation by any other state commission, board, bureau or agency. (1) No license under §561.34(3)-(8) inclusive, shall be issued so that the number of such licenses within the limits of any incorporated municipality or in the territory of any county lying outside of such municipalities therein shall exceed one such license to each twenty-five hundred residents, or major fraction thereof, within such municipality or within such county outside of the limits of such municipalities as shown by the last regular state-wide census, either federal or state, of such county or municipality; provided, however, that such limitation shall not prohibit the issuance of at least three licenses in any county that may approve the sale of intoxicating liquors in such county.

(2) No such limitation of the number of licenses as herein provided shall henceforth prohibit the issuance of a special license to any bona fide hotel, motel or motor court of not less than one hundred guest rooms; provided, however, that any license heretofore issued to any such hotel, motel, motor court or restaurant or hereafter issued to any such hotel, motel or motor court under the general law shall not be moved to a new location, such licenses being valid only on the premises of such hotel, motel, motor court or restaurant; provided, further, that licenses issued to hotels, motels, motor courts or restaurants under the general law and held by such hotels, motels, motor courts or restaurants on May 24, 1947, shall be counted in the quota limitation contained in subsection (1); and provided further, that any license issued for any hotel, motel or motor court under the provisions of this law shall be issued only to the owner of said hotel, motel or motor court or in the event the hotel, motel or motor court is leased, to the lessee of the hotel, motel or motor court and the license shall remain in the name of said owner or lessee so long as the license is in existence. Any special license now in existence heretofore issued under the provisions of this law cannot be renewed except in the name of the owner of the hotel, motel, motor court or restaurant, or in the event the hotel, motel, motor court or restaurant is leased in the name of the lessee of the hotel, motel, motor court or restaurant in which the license is located and must remain in the name of said owner or lessee so long as the license is in existence. Any license issued under this section shall be marked "Special"; provided further, nothing herein provided shall limit, restrict or prevent the issuance of a special license for any restaurant or motel which shall hereafter meet the requirements of the law existing immediately prior to the effective date of this act, if construction of such restaurant has commenced prior to the effective date of this act and is completed within thirty days thereafter, or if an application is on file for such special license at the time this act takes effect, and any such licenses issued under this proviso may be annually renewed as now provided by law. Nothing herein shall prevent an application for transfer of a license to a bona fide purchaser of any hotel, motel, motor court or restaurant by the purchaser of such facility nor the transfer of such license pursuant to law.

This act shall not apply to any county having home rule under the constitution in which county the provisions of §561.20 (2) in effect prior to the effective date of this law shall apply.

(3) The limitation upon the number of such licenses to be issued as herein provided shall not apply to existing licenses nor to the renewal or transfer of such licenses but upon the revocation of any existing license no renewal thereof or new license therefor shall be issued contrary to the limitation herein prescribed; provided, however, that such transfer permitted herein shall not in-

clude the change in location of any licensed premises as provided in §561.33 of the beverage law when such change of location will increase the number of licenses contrary to the limitation upon the number of such licenses as herein provided. But provided further, that such restriction on the change in location of any licensed premises contained in this paragraph or in §561.33 shall not apply to those applications for change of location of licensed premises from within incorporated cities or towns to a location within the county and outside such incorporated cities or towns where such applications have been filed heretofore with the proper tax collector and the director and the legal right to such change in location is now a subject of litigation pending in the supreme court of Florida.

(4) The limitations herein prescribed shall not affect or repeal any existing or future local or special act relating to the limitation by population and exceptions or exemptions from such limitation by population of such licenses within any incorporated city or town or county that may be in conflict herewith.

(4A) Provisions of subsections (2) and (4) as amended by ch. 57-773, shall take effect January 1, 1958, and shall apply only to those places of business licensed to operate after January 1, 1958, and shall in no manner repeal or nullify any license issued under provisions of law which are now operating or will operate prior to the effective date January 1, 1958, and all such places of business shall be exempt from the provisions of this law so long as they are in continuous operation.

(5) When additional licenses are available by reason of an increase in population, no person, firm or corporation already holding a liquor license shall be permitted to own or have any interest, directly or indirectly, in any such additional licenses, or when additional licenses are available by reason of a county permitting the sale of intoxicating beverages when the same is prohibited, no person, firm or corporation will be permitted to own or have any interest, directly or indirectly, in more than one license. This limitation is enacted pursuant to the police power of the state, for the express purpose of promoting the public health, morals and welfare. This limitation shall only apply when a license is originally issued after first becoming available and shall not apply to subsequent transfers of such licenses from the original purchaser thereof, or to renewals of such licenses.

(6) No license shall be issued under §561.34 (11), to exceed five more than the number of such licenses issued prior to May 24, 1947, and in effect in any county on said date; provided however, in all counties with a population of more than 900,000 inhabitants according to the latest official decennial census, no license shall be issued under §561.34(11), to exceed twenty-five more than the number of licenses issued prior to May 24, 1947, and in effect on said date and provided further, that any additional licenses issued under this section in such

(e) Violation by the licensee, and, if a corporation, by any officers thereof of any rule or rules promulgated by the director in accordance with the provisions of this chapter, or a violation of any such rule by any agent, officer, servant or employee of the licensee on the licensed premises or in the scope of such employment.

(2) The beverage director, or any assistant designated by him, shall have the power and authority to examine into the business, books, records and accounts of any licensee, and to issue subpoenas to said licensee or any other person from whom information is desired and to take depositions of witnesses within or without the state. The director may in such cases pay such attendance and mileage fees as are permitted to be paid to witnesses in civil cases appearing before the circuit court.

(3) Before the director shall revoke or suspend the license of any licensee, he shall give

such licensee a written statement of such cause for revocation or suspension of license and a fair hearing, if the licensee shall demand a hearing; provided that said licensee shall in writing demand a hearing within ten days after the receipt of written statement from the director and shall, within ten days deliver to the director, either in person or by due course of mail, a copy of written demand for hearing. When it shall be made to appear to the director that a petition for certiorari has been or is about to be applied for in the appellate court, the director shall grant a supersedeas or stay upon petitioner giving a good and sufficient bond, conditioned that such petition shall be duly presented to the appellate court within twenty days and to pay all costs, damages and expenses occasioned by reason of the stay of proceedings, in event the order or judgment of which a review is sought is not quashed, modified or reversed.

No licensed vendor shall accept, directly or indirectly, any gift or loan of money or property of any description or any rebates from any such licensed manufacturer or distributor; provided, however, that this shall not apply to any bottles, barrels or other containers necessary for the legitimate transportation of such beverages, or advertising materials, and shall not apply to the extension of credit, for liquors sold, made strictly in compliance with the provisions of this section.

(2) Credit for the sale of liquors may be extended to any vendor up to but not including the tenth day after the calendar week within which such sale was made.

(3) In cases where payment for sales to a vendor is not made by the tenth day succeeding the calendar week in which such sale was made, the distributor who made such sale shall, within three days, notify the beverage department in writing of such fact and the beverage department, upon receipt of such notice, shall, after compliance with the proceedings hereinafter mentioned, declare in writing to such vendor and to all manufacturers and distributors within the state that all further sales to such vendor are prohibited until such time as the beverage department shall certify in writing that such vendor has fully paid for all liquors previously purchased.

(4) Before the beverage department shall so declare, and prohibit such sales to such vendor, it shall, within two days after receipt of such notice, give written notice to such vendor by mail of the receipt by the beverage department of such notification of delinquency and such vendor shall be directed to forthwith make payment thereof, or upon failure to do so, to show cause before the beverage director or one of his designated assistants why further sales to such vendor shall not be prohibited. Good and sufficient cause to prevent such action by the beverage department may be made by showing payment, failure of consideration, or any other defense which would be considered sufficient in a common law action. The vendor shall have five days after receipt of such notice within which to show such cause, and he may demand a hearing thereon, provided he does so in writing within said five days, such written demand to be delivered to the beverage director either in person or by due course of mail within such five days. In the event application for such review is filed within such time, such prohibition of sales shall not be made, published or declared until final disposition of such review by the courts.

(6) Nothing herein shall be taken to forbid the giving of trade discounts in the usual course of business upon wine and liquor sales.

(7) The extension or receiving of credits in violation of this section shall be considered as an arrangement for financial assistance and shall constitute a violation of the beverage act and any maneuver, shift or device of any kind by which credit is extended contrary to the provisions of this section shall be considered a violation of the beverage act.

(8) The director may establish rules and require reports to enforce the herein established limitation upon credits and other forms of assistance. Nothing herein shall be taken to affect the provisions for cash sales of wines or beer as are provided in §562.21 or provisions of §562.22 but shall govern all other sales of intoxicating liquors.

(9) The term advertising materials as used in this section shall not include outside signs so located as to be connected with or appertaining to the vendor's licensed premises.

Provided, however, the excise taxes required to be paid by this subsection upon malt beverages containing alcohol of not more than three and two tenths per cent by weight, shall not be required to be paid upon such beverages, where the same are sold to post exchanges, ship service stores and base exchanges located in military, naval or air force reservations within this state.

(2) As to beverages including wines, except natural sparkling wines and malt beverages, containing more than one per cent alcohol by weight and less than fourteen per cent alcohol by weight, there shall be paid by all manufacturers and distributors a tax at the rate of one dollar fifteen cents per gallon; provided, however, that there shall be paid by all manufacturers and distributors a tax of twenty-three cents per gallon and no more, upon all wines, except natural sparkling wines, containing more than one per cent alcohol by weight and less than fourteen per cent alcohol by weight, manufactured in Florida from fresh fruits, berries or grapes and not from concentrates thereof, except concentrates of fruits, berries or grapes grown and concentrated in Florida and bottled in Florida and upon all other such beverages except malt beverages, containing more than one per cent alcohol by weight and less than fourteen per cent alcohol by weight, manufactured and bottled in Florida from Florida citrus products or Florida citrus by-products and not from concentrates thereof except con-

It is further provided, however, that the exception set forth in this subsection relating to all such beverages except wines and malt beverages manufactured and bottled in Florida from Florida citrus products or Florida citrus by-products shall remain in full force and effect only until May 15, 1965.

(3) As to all wines, except natural sparkling wines containing fourteen per cent or more alcohol by weight, there shall be paid by manufacturers and distributors a tax at the rate of one dollar sixty cents per gallon; provided, however, that there shall be paid by all manufacturers and distributors a tax of thirty-five cents per gallon and no more, upon all wines manufactured in Florida from fresh fruits, berries or grapes and not from concentrates thereof, except concentrates of fruits, berries or grapes grown and concentrated in the state, bottled within this state and containing fourteen per cent or more of alcohol by weight.

Provided, however, the exception set forth in this subsection relating to Florida citrus products or Florida citrus by-products shall remain in full force and effect only until May 15, 1965. The director by promulgation of a rule shall establish the denominations of which excise tax stamps for such intoxicating beverages shall be sold. In the event any such intoxicating beverages are sold in a quantity which under the excise tax levied herein or elsewhere in this chapter, would require excise tax stamps not available under the rule promulgated by the director, the containers of such intoxicating beverages must have affixed thereto excise tax stamps of a denomination above that required.

Provided, however, the exception set forth in this subsection relating to Florida citrus products or Florida citrus by-products shall remain in full force and effect only until May 15, 1965.

Such stamps shall be affixed in accordance with regulations of the director, which said regulations the director may make, promulgate and change from time to time.

(3) The director may at any time require reports additional to the monthly reports heretofore required, as to the disposition of the beverages herein defined, for the purpose of assessment and collection of the excise taxes herein provided, and the burden of proof shall be on the distributors to satisfy the director as to the disposition of said beverages.

Manufacturers of the malt beverages shall be required to submit samples of crowns or lids to the state beverage director for approval as to the "Florida" designation. Provided, however, that manufacturers of malt beverages who have heretofore submitted samples of crowns or lids to the state beverage director and had said samples approved shall not be required to resubmit such samples for approval.

(2) Nothing herein contained shall require crowns or can lids bearing such designation to be attached to containers of malt beverages which are transported through this state and which are not sold, delivered or stored for sale therein, if transported in accordance with such rules and regulations as adopted by the state beverage director; nor shall this requirement apply to malt beverages packaged in bottles

or cans and held on the premises of a brewer or bottler, which malt beverages are for sale and delivery to persons, firms or corporations outside the state.

(3) It is further provided that the state beverage director shall issue his approval of a crown or can lid only if the word "Florida" is applied in a clear fashion and by a method that will assure the permanent attachment of the design to the crown or can lid.

(4) The possession by any person, firm or corporation in the state, except as otherwise provided herein, of more than four and one-half gallons of malt beverages in bottles or cans, the crowns or lids of which do not have the word "Florida" as herein provided, shall be prima facie evidence that said malt beverage is possessed for the purpose of sale or resale.

(5) Except as otherwise provided herein, any malt beverages in bottles or cans held or possessed in the state for the purpose of sale or resale within the state, the crown or can lid of which does not bear the word "Florida" thereon and for which design there is not an approval and an approved sample thereof on file in the office of the state beverage director, shall, at the direction of, or by, the state beverage director, be confiscated in accordance with the provisions of §§562.39, 562.40 and 562.44; provided, that the provisions of this section shall not be effective until the 1st day of October, 1949, with respect to malt beverages held or possessed by a manufacturer or distributor, and shall not be effective until the 1st day of January, 1950, with respect to malt beverages held or possessed by retail vendors.

Such allowance or redemption may be made either by giving to the purchaser other stamps in lieu of the stamps so allowed for or redeemed, or by refunding the amount or value to the owner thereof, but no allowance or redemption shall be made in any case until the stamps so spoiled shall have been returned to the comptroller or until satisfactory proof has been made showing the reason why the same cannot be re-

No allowance or repayment shall be made except to the original purchaser. Such claim shall not be paid unless approved by both the director and the comptroller. Sufficient funds are hereby appropriated out of the revenues collected under the beverage law to make such repayment.

(1) Every peace officer seizing property pursuant to the provisions of this law shall forthwith make return of the seizure thereof and deliver the said property to the board of county commissioners of the county wherein the said property was seized. The said return to the board of county commissioners shall describe the property seized and give in detail the facts and circumstances under which the same was seized and state in full the reason why the seizing officer knew, or was led to believe, that the said property was being used for and in connection with a violation of the statutes and laws of this state prohibiting the manufacture of and traffic in illicit moonshine whiskey or other materials set forth in section one hereof. The said return shall contain the names of all persons, firms and corporations known to the seizing officer to be interested in the seized property.

to value, under and by virtue of that provision in §6(3), art. V of the state constitution, under which the circuit courts may be given jurisdiction of "such other matters as the legislature may provide." The said return shall be sufficient as said petition or libel notwithstanding the fact that it may contain no formal prayer or demand for forfeiture, it being the intention of the legislature that forfeiture may be decreed without a formal prayer or demand therefor. The said return shall be subject to amendment at any time before final hearing, provided that copies thereof shall be served upon all persons, firms or corporations who may have filed a claim prior to such amendment.

(2) Upon the filing of said return the clerk of the circuit court shall issue a citation, directed to all persons, firms and corporations owning, having or claiming an interest in or lien upon the seized property, giving notice of the seizure and directing that all persons, firms or corporations owning, having or claiming an interest therein or lien thereon to file their claim to, on, or in said property within the time fixed in said citation, as to persons, firms and corporations not personally served, and within twenty days from personal service of said citation, when personal service is had.

(3) The said citation may be in, or substantially in, the following form:

A copy of the petition shall be served with the process when personally served. Personal service of process may be made in the same manner as a summons in chancery.

(5) If the value of the property seized is shown by the board's return to have an appraised value of four hundred dollars or less, the above citation shall be served by posting at three public places in the county, one of which shall be the front door of the courthouse; if the value of the property is shown by the board's return to have an approximate value of more than four hundred dollars, the citation shall be published once a week for three consecutive weeks in some newspaper of general publication published in the county, if there be such a newspaper published in the county, and if not, then said notice of such publication shall be made by certificate of the clerk if publication is made by posting and by affidavit as provided in chapter 49, if made by publication in a newspaper, which affidavit or certificate shall be filed and become a part of the record in the cause. History.—§14, ch. 19301, 1939; CGL 1940 Supp. 4151(271w). §26, ch. 25359, 1949; am. §5, ch. 28073, 1953.

562.401 Delivery of property to claimant.—

Any person, firm or corporation filing a claim in the cause, which claim shall state fully his right, title, claim or interest, in and to the seized property, may, at any time after said claim is filed with the clerk of the court, obtain possession of the seized property by filing a petition therefor with the board of county commissioners and posting with said board, to be approved by it, a surety bond, payable to the governor of the state, in twice the amount of the value of the said property as fixed in the board's return to the clerk of the circuit court, with a corporate surety duly authorized to transact business in this state as surety, conditioned upon his paying to the board of county commissioners the value of the property together with costs of the proceeding, if judgment of forfeiture be entered by the court. Upon the posting of such bond with the board and the release of the property to the applicant the cause shall proceed to final judgment in the same manner, as it would have, had no such

bond been filed, except that any exception to be issued in the cause pursuant to judgment may run against and be enforced against the person posting said bond and his surety.

History.—Comp. §6, ch. 28073, 1953.

562.402 Proceeding when no claim filed.—

When no claim is filed in the cause within the time required the clerk shall enter a default against all persons, firms and corporations owning, claiming or having an interest in and to the property seized and the cause may then proceed in the same manner as a common law cause after default, and final judgment shall be entered therein ex parte, except as may be herein otherwise provided.

History.—Comp. §7, ch. 28073, 1953.

562.403 Proceeding when claim filed.—

When one or more claims are filed in the cause the cause shall be tried upon the issues made thereby with the petition for forfeiture with any affirmative defenses being deemed denied without further pleading. Judgment by default shall be entered against all other persons, firms and corporations owning, claiming or having an interest in and to the property seized, after which the cause shall proceed as in other common law cases; except any claimant shall prove to the satisfaction of the court that he did not know or have any reason to believe, at the time his right, title, interest, or lien arose, that the property was being used for or in connection with the violation of any of the statutes or laws of this state prohibiting the manufacture of or traffic in illicit moonshine whiskey, and further that at said time there was no reasonable reason to believe that the said property might be used for such purpose. Where the owner or user of the property has been convicted of a violation of the statutes and laws of this state prohibiting the manufacture of or traffic in illicit moonshine whiskey such conviction shall be prima facie evidence that each claimant had reason to believe that the property might be used for or in connection with a violation of such statutes and laws, and the burden of proof shall be upon such claimant to satisfy the court that he was without knowledge of such conviction, providing, however, the prima facie presumption of knowledge of a previous conviction of a violation of this law shall only apply to a subsequent proceeding involving the forfeiture of a motor vehicle when owned by such previous offender and upon which a lien is held by the same lienor involved in the first claim proceedings. Trial of all such causes shall be without a jury, except in such cases as a trial by jury may be guaranteed by the state constitution and in such cases trial by jury shall be deemed waived unless demanded in the claim filed.

History.—Comp. §8, ch. 28073, 1953.

562.404 Attorney for board of county commissioners to represent state.—Upon the filing of the board's return with the clerk of the circuit court the said clerk shall furnish the attorney for the board of county commissioners

with a copy thereof and the said attorney shall represent the state in the forfeiture proceeding. The attorney general shall represent the state in all appeals from judgments of forfeiture. The state may appeal from any judgment denying forfeiture in whole or in part or that may be otherwise adverse to the state.

History.—§9, ch. 28073, 1953; §1, ch. 59-293.

562.405 Judgment of forfeiture.—On final hearing the return of the board to the clerk of the circuit court shall be taken as prima facie evidence that the property seized was or had been used in, or in connection with, the violation of the statutes and laws of this state prohibiting the manufacture of or traffic in illicit moonshine whiskey in this state and shall be sufficient predicate for a judgment of forfeiture in the absence of other proofs and evidence. The burden shall be upon the claimants to show that the property was not so used, if so used, that they had no knowledge of such violation and no reason to believe that the seized property was or would be used for the violation of such statutes and laws. Where such property is encumbered by a lien or retained title agreement under circumstances wherein the lienholder had no knowledge that the property was or would be used in violating such statutes and laws, and no reasonable reason to believe that it might be so used, then the court may declare a forfeiture of all other rights, titles and interests, subject, however, to the lien of such innocent lienholder, or may direct the payment of such lien from the proceeds of any sale of the said property. The proceedings and the judgment of forfeiture shall be in rem and shall be primarily against the property itself. Upon the entry of a judgment of forfeiture the court shall determine the disposition to be made of the property, which may include the destruction thereof, the sale thereof, the allocation thereof to some governmental function or use, or otherwise as the court may determine. Sales of such property shall be at public sale to the highest and best bidder therefor for cash after two weeks public notice as the court may direct. Where the property has been delivered to a claimant upon the posting of a bond the court shall determine the value of the property or portion thereof subject to forfeiture and shall enter judgment against the principal and surety of the bond in such amount for which execution shall issue in the usual manner. Upon the application of any claimant the court may fix the value of the forfeitable interest or interests in the seized property and permit such claimant to redeem the said property upon the payment of a sum equal to said value which sum shall be disposed of as would the proceeds of a sale of the said property under a judgment of forfeiture.

History.—Comp. §10, ch. 28073, 1953.

562.406 Fees for services.—Fees for services required hereunder shall be the same as provided for sheriffs and clerks for like and simi-

lar services in other cases and matters.

History.—Comp. §12, ch. 28073, 1953.

562.407 Disposition of proceeds of forfeiture.—All sums received from sale or other disposition of the seized property shall be paid into the county fine and forfeiture fund and shall become a part thereof; provided, however, that in instances where the seizure is by a municipal police officer within the limits of any municipality having an ordinance requiring such vehicles, vessels or conveyances to be forfeited, the city attorney shall act in behalf of the city in lieu of the state attorney and shall proceed to forfeit the property as herein provided, and all sums received therefrom shall go into the general operating fund of the city.

History.—Comp. §11, ch. 28073, 1953.

562.408 Exercise of police power.—It is deemed by the legislature that this law is necessary for the more efficient and proper enforcement of the statutes and laws of this state prohibiting the manufacture of or traffic in illicit moonshine whiskey and a lawful exercise of the police power of the state for the protection of the public welfare, health, safety and morals of the people of the state. All the provisions of this law shall be liberally construed for the accomplishment of these purposes.

562.41 Searches; penalty.—

(1) The director, any beverage department employee, any sheriff, any deputy sheriff or any police officer may make searches of person, places, and conveyances of any kind whatsoever, in accordance with the laws of this state for the purpose of determining whether or not the provisions of the beverage law are being violated.

(2) The director, any beverage department employee, any sheriff, any deputy sheriff or any police officer may enter, in the day time, any building or place where any beverages subject to tax under the beverage law or which would be subject to tax thereunder if such beverage were manufactured in or brought into this state in accordance with the regulatory provisions thereof, or any intoxicating beverages containing more than one per cent of alcohol by weight, are manufactured, produced or kept, so far as may be necessary, for the purpose of examining said beverages. When such premises are open at night, such officers may enter them while so open, in the performance of their official duties.

(3) Any owner of such premises or person having the agency, superintendency or possession of same, who refuses to admit such officer, or to suffer him to examine such beverages, shall, for every such refusal, be subject to a fine of five hundred dollars or imprisonment in the county jail for six months.

(4) Any person who shall forcibly obstruct or hinder the director, any beverage department employee, any sheriff, any deputy sheriff or any police officer in the execution of any

power or authority vested in him by law, or who shall forcibly rescue or cause to be rescued any property if the same shall have been seized by such officer, or shall attempt or endeavor to do so, shall, for each such offense, be subject to pay a fine of five hundred dollars or imprisonment in the county jail for six months, or both.

History.—§15, ch. 19301, 1939; CGL 1940 Supp. 4151(271x), 7648(28), 7648(29); §1, ch. 57-327.

Such destruction shall be in the presence of at least one credible witness and such witness shall unite with the said officer in a duly sworn report of said seizure and such destruction, to be made to the director, in which report they shall set forth the grounds of the claim or forfeiture and the reasons for such seizure and destruction and an estimate of the fair value of the apparatus destroyed and also of the materials remaining after the destruction and a statement that, from facts within their own knowledge, they have no doubt whatever that such apparatus was set up for use in the unlawful manufacture of intoxicating beverages and that it was impracticable to remove the same to a place of safe storage; provided, that not more than one pint of any such intoxicating beverage shall be preserved by the seizing officer to be used as evidence against anyone accused of violating the provisions of the beverage law, and such pint of intoxicating beverage is hereby declared to be sufficient of such intoxicating beverage upon which to base a conviction of a violation of the beverage law.

History.—§16, ch. 19301, 1939; CGL 1940 Supp. 4151(271y).

562.44 Donation of forfeited beverages or raw materials to state institutions; sale of forfeited beverages.—Any alcoholic beverage or raw materials used for the manufacture of alcoholic beverages that may be seized and forfeited under any of the provisions of the beverage law may, with the approval and consent of the governor, be donated to any state operated or charitable institution that may have a legitimate use therefor in the operation of such institution, or the director may sell such beverage so seized and forfeited to any licensed wholesaler in the state, upon the condition that all federal and state taxes that may be due thereon shall be paid and that such sale shall

be made only upon submission by said director of a request for bids to at least five wholesale dealers in the state and such sale shall be made to the highest and best bidder therefor. Provided, however, if in the director's opinion, no satisfactory bid from a wholesaler is received, the director may then reject all bids and sell such beverage so seized and forfeited to any retailer, licensed in this state to sell such beverage, upon the condition that all federal and state taxes that may be due thereon shall have been paid, that such sale shall be made only upon submission by said director of a request for bids to at least five retail dealers in the state and that such sale shall be to the highest and best bidder therefor. 567.01 Petition, order, notice of election.—

(1) The board of county commissioners of each county shall order an election to decide whether the sale of intoxicating liquors, wines or beer shall be prohibited in said county and if not prohibited, to decide the method of sale, upon the presentation to said board at a regular or special meeting, of a written application asking for such a determination in the county in which said application is made signed by one-fourth of the registered voters of the county. The signature of each registered voter shall be personally signed to such application; provided, however, a copy of said petition shall be dated and filed with the clerk of the circuit court of the county in which such election is to be held prior to procuring the signature of any registered voter thereon; and such petition must be completed and presented to the board of county commissioners within one hundred twenty days from the date said copy of said petition is originally filed with the clerk of the circuit court; and if not so done, said petition shall be held to be invalid.

(2) The election so ordered shall be (a) to decide whether the sale of intoxicating liquors, wines or beer shall be prohibited or permitted in said county and (b) to decide also whether such sale, if permitted by said election, shall be restricted to sales by the package as hereinafter defined.

(3) The term "sales by the package" is defined to mean sales made in quantities of not less than one-half of a pint, contained in sealed containers, for consumption off the premises where sold.

(4) Such an election shall not be ordered oftener than once every two years. All orders for such election shall be in writing and shall be entered upon the minutes of the board but this requirement shall be directory only.

(5) Upon the making of the order for an election as aforesaid, the board shall cause its clerk to give at least thirty days' notice of said election by publishing a copy of the order for election in one newspaper in each and every town in said county in which a newspaper or newspapers be published, and if no newspaper be published within the county, then by posting at least ten copies of said order in ten of the most public places in said county, one of which shall be the court house door. Proof of publication or proof of posting shall be filed with the board and shall be made as provided by §§48.10

and 48.11, for making proof of publication and proof of posting incident to constructive service of process, except that the provisions of said sections for recording shall not apply. All proofs of publication and of posting shall be entered upon the minutes of the board, but this requirement shall be directory only.

(6) It is the purpose and intent of the legislature that such election shall obviate the necessity for holding two separate elections by determining in one election (a) whether the sale of intoxicating liquors, wines or beer shall be prohibited or permitted, and (b) if such sales are determined to be permitted, to further determine whether the sales so made shall be limited to sales by the package as hereinbefore defined, or whether sales by the drink on the premises, as well as sales by the package may be permitted. A majority of those legally voting at such election must cast their votes "for selling intoxicating liquors, wines or beers" in order that the results of the election on the second question shall be effective and binding.

they shall canvass the vote cast and make due returns of the same to the county commissioners without delay. The county canvassing board shall canvass the returns and declare the result, and cause the same to be recorded as provided in the general law concerning elections, as far as applicable.
